

The background of the slide is a solid blue color. Overlaid on this is a large, irregular, rounded shape composed of many concentric, slightly offset layers of a darker blue. These layers create a sense of depth and movement, resembling a series of overlapping blobs or a stylized, abstract face. The central area of this shape is the darkest blue, while the outer edges blend into the background blue.

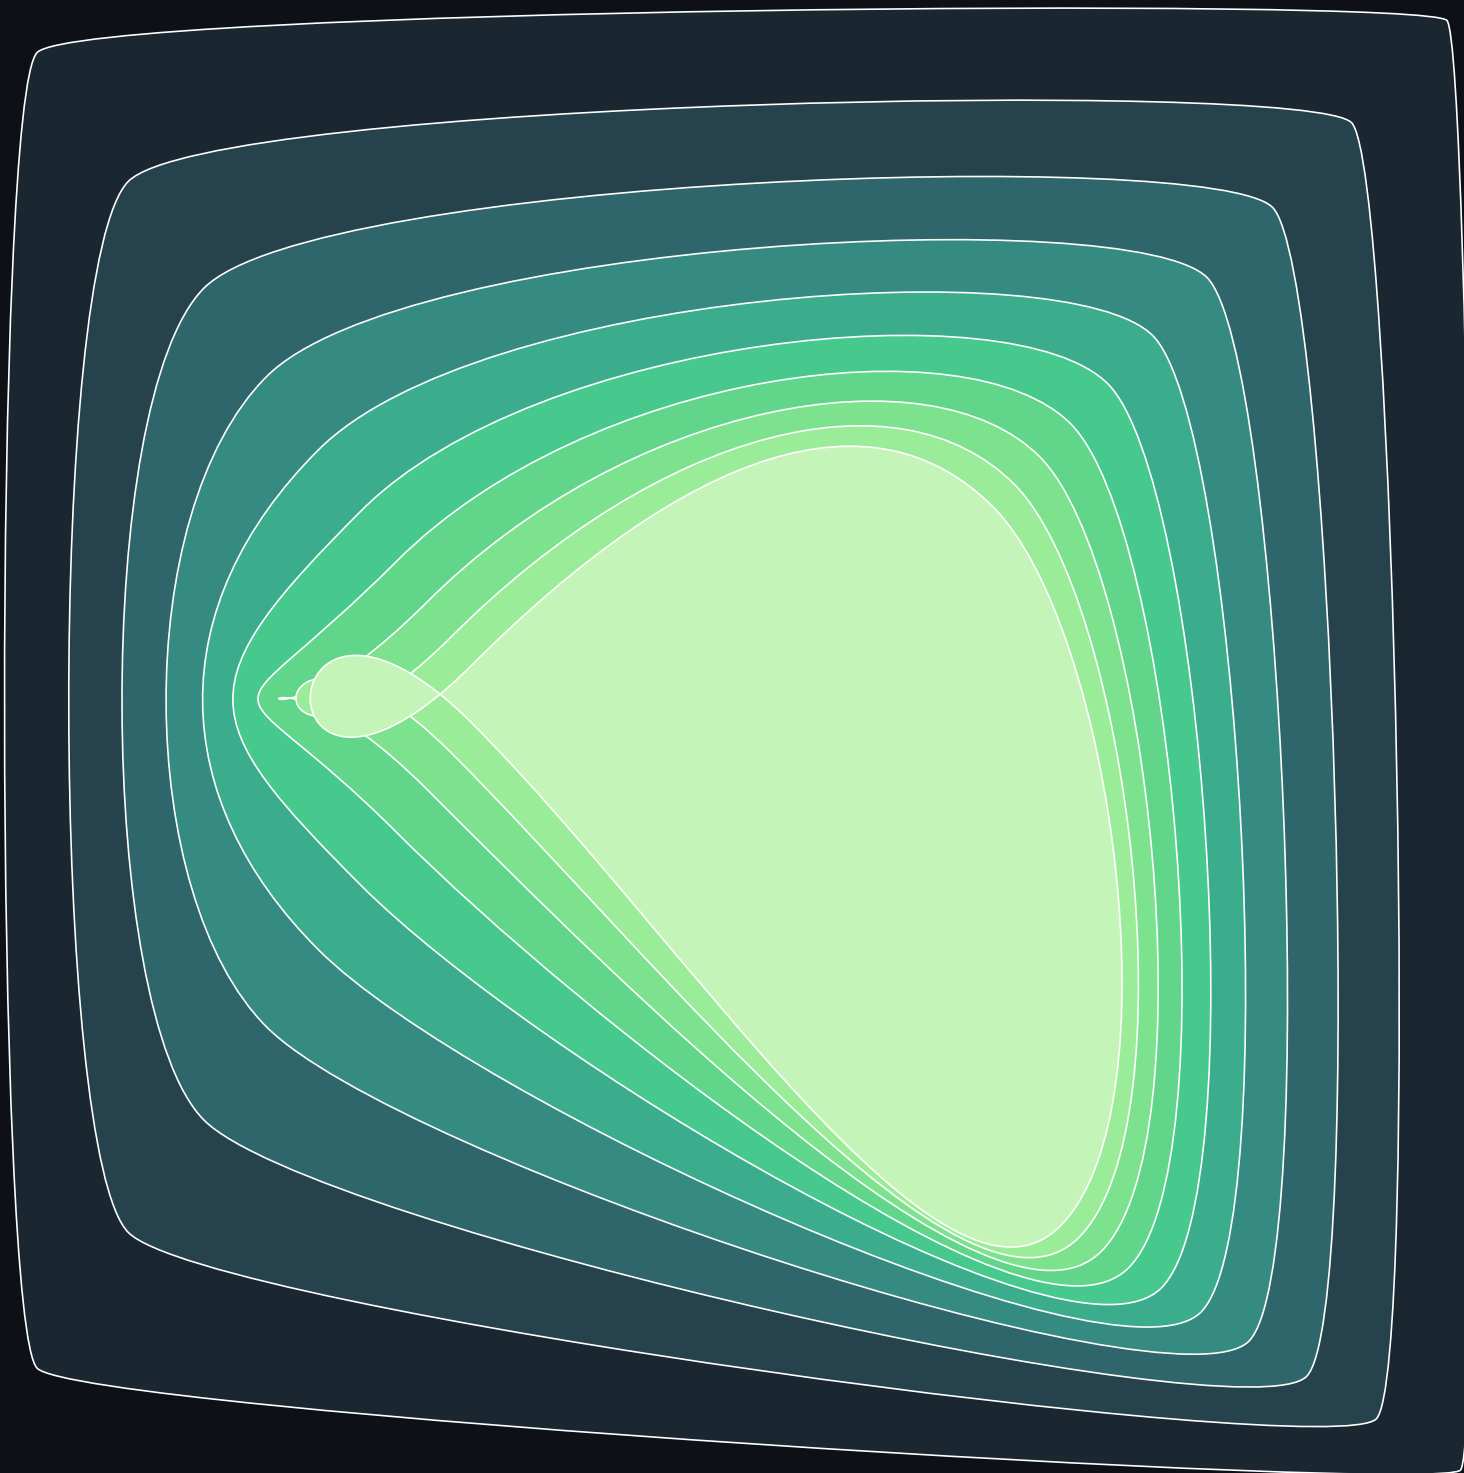

100 random blobs

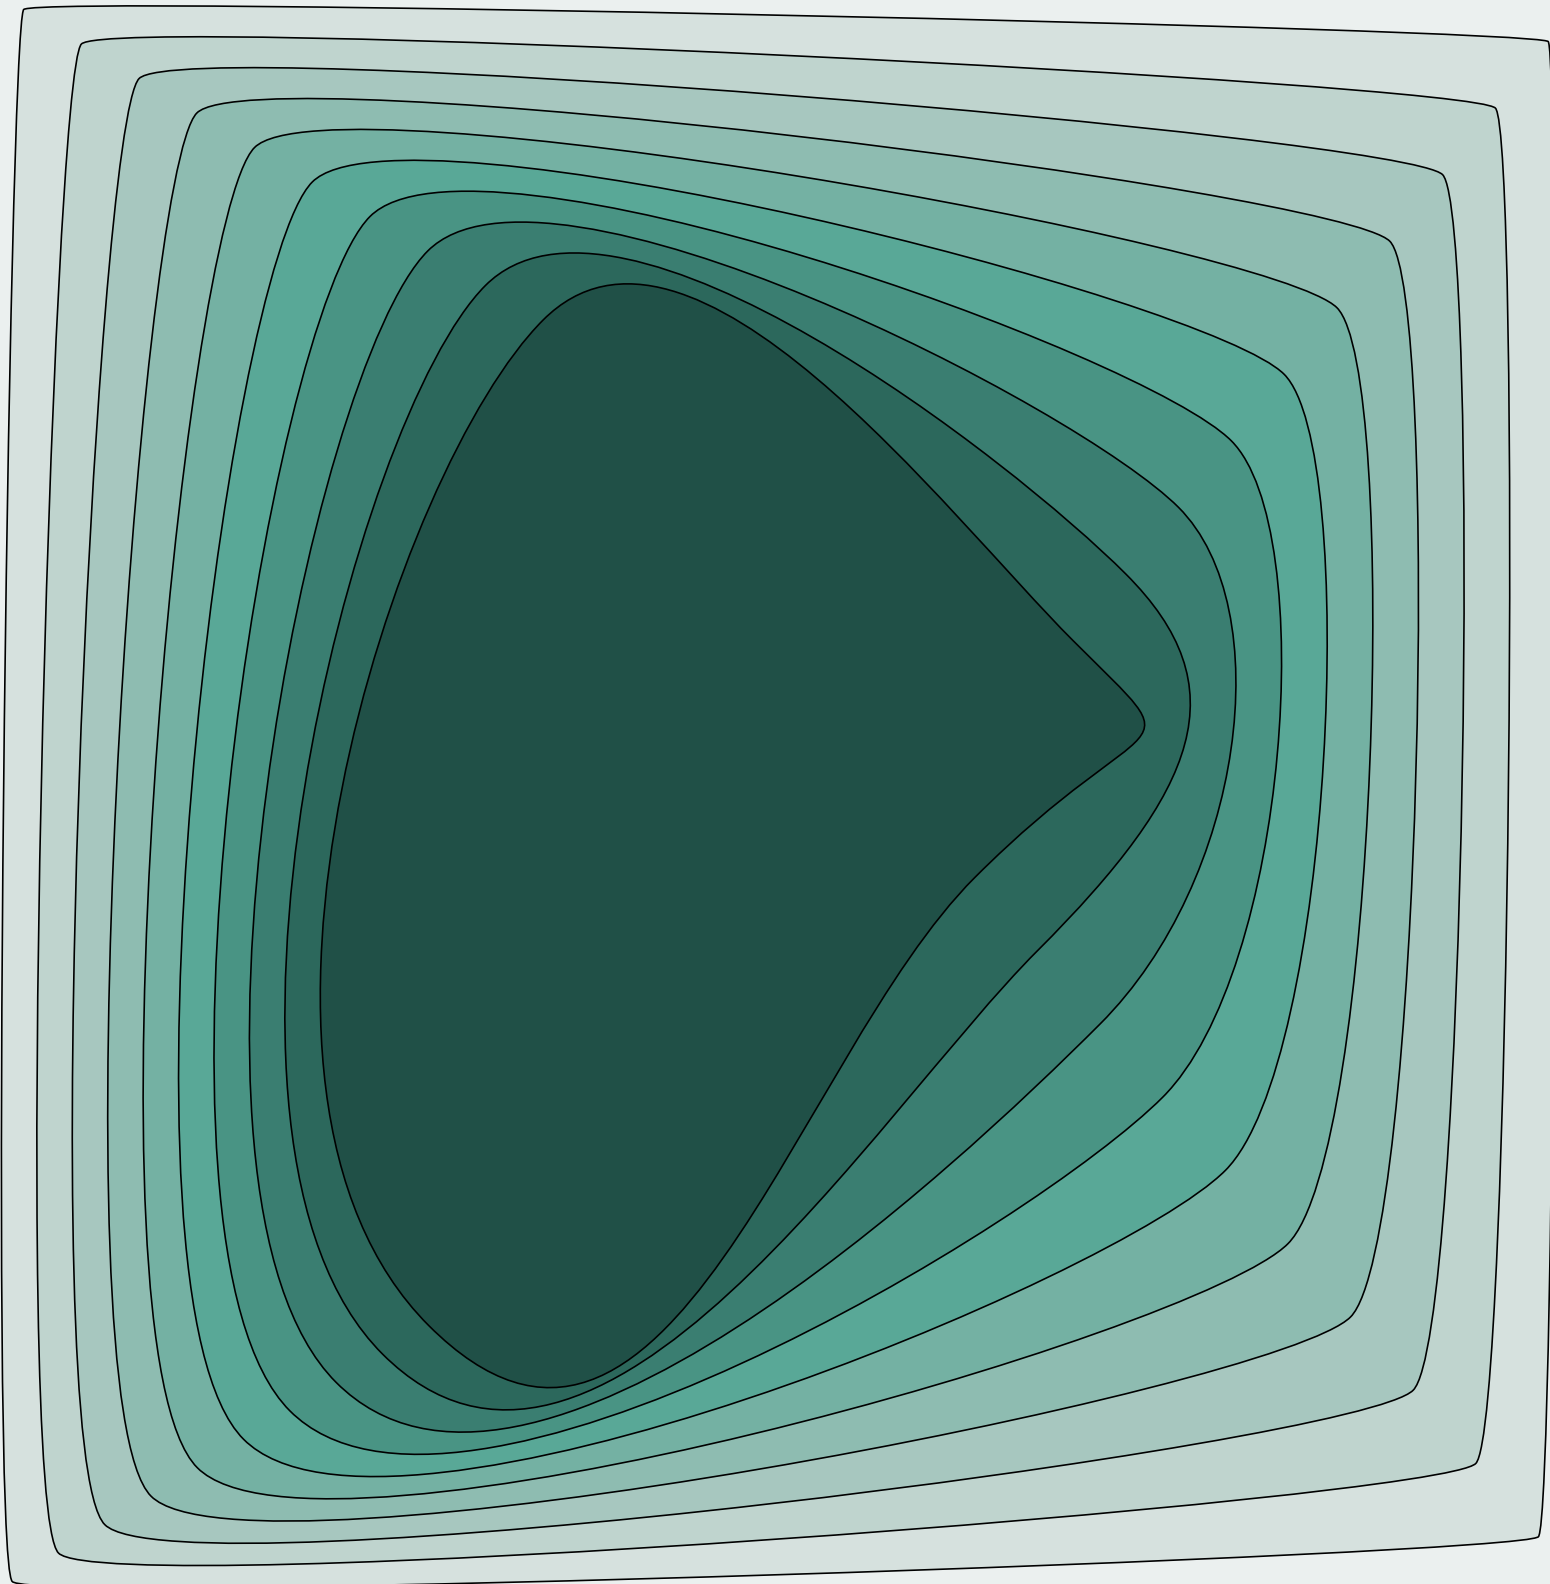

December the 13th, 2015 — Vasilis van Gemert

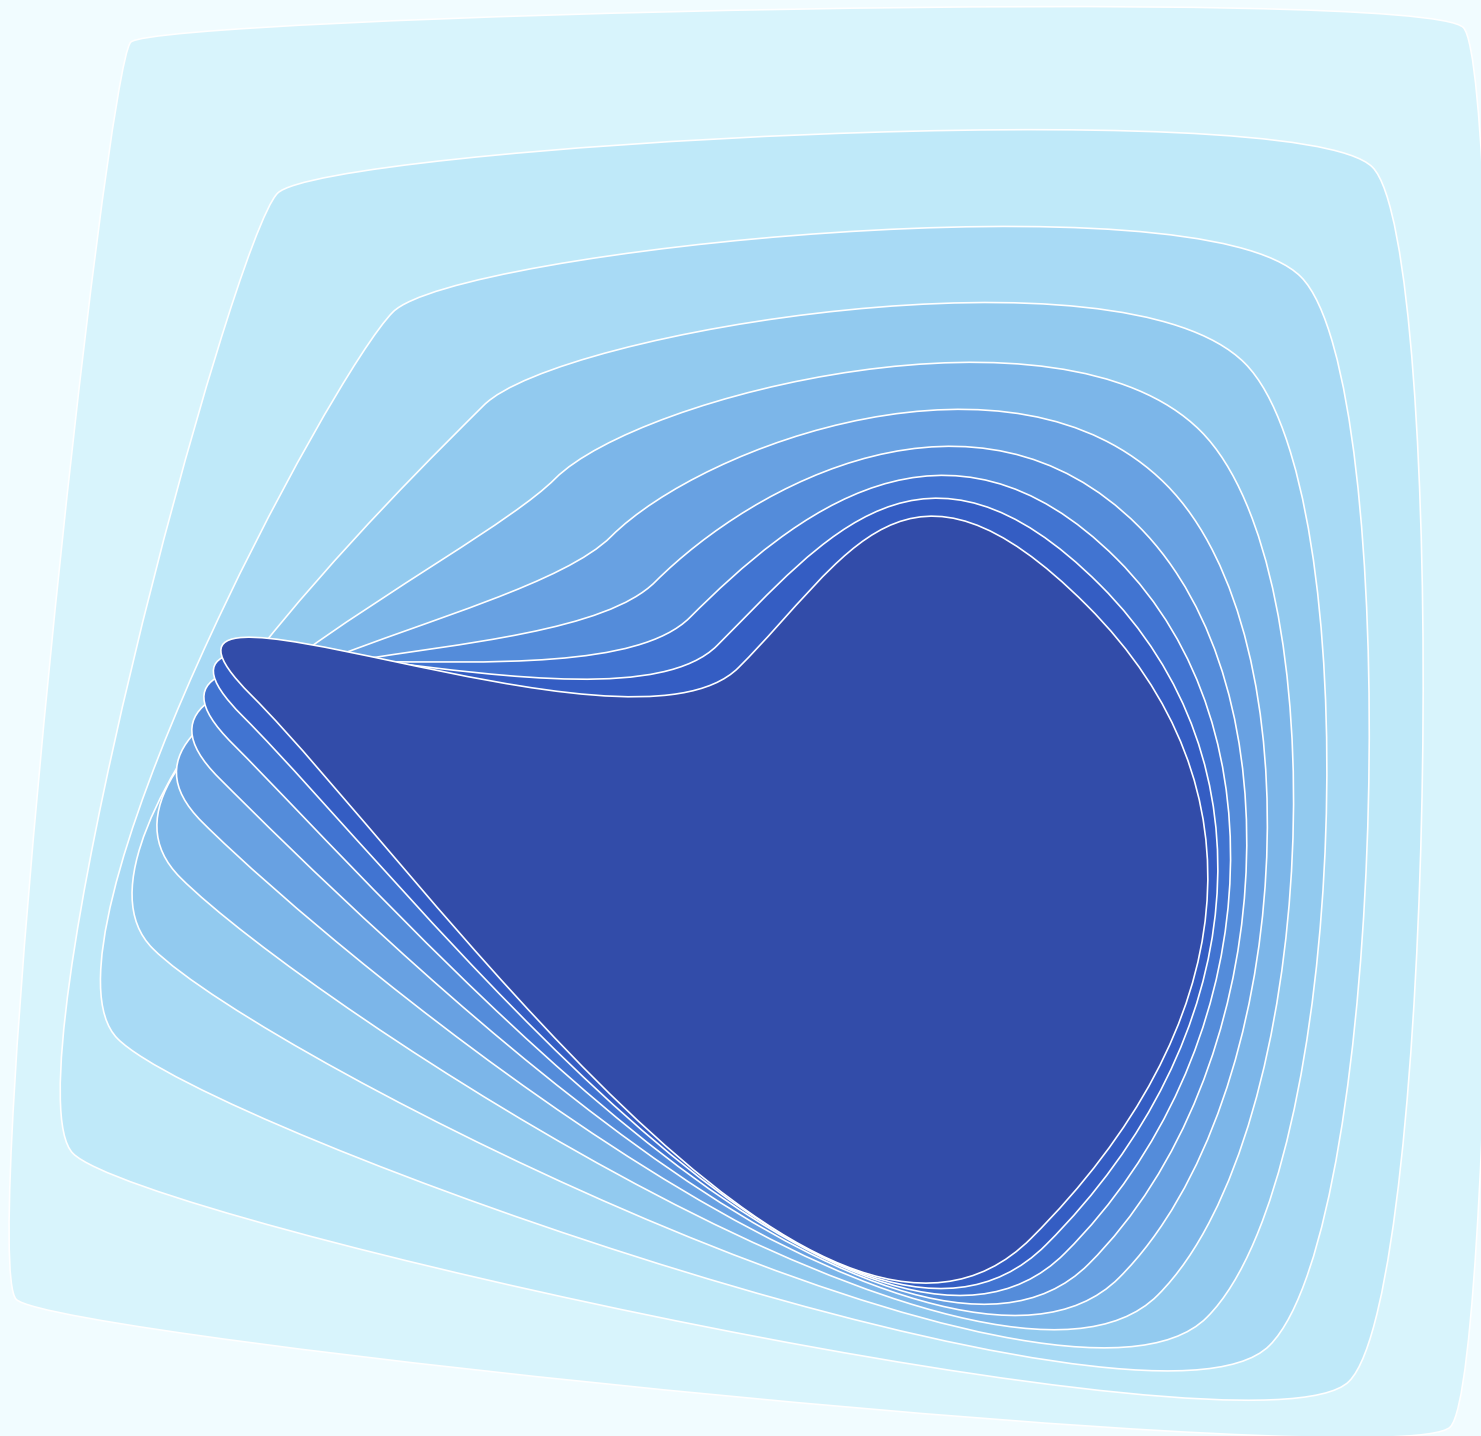

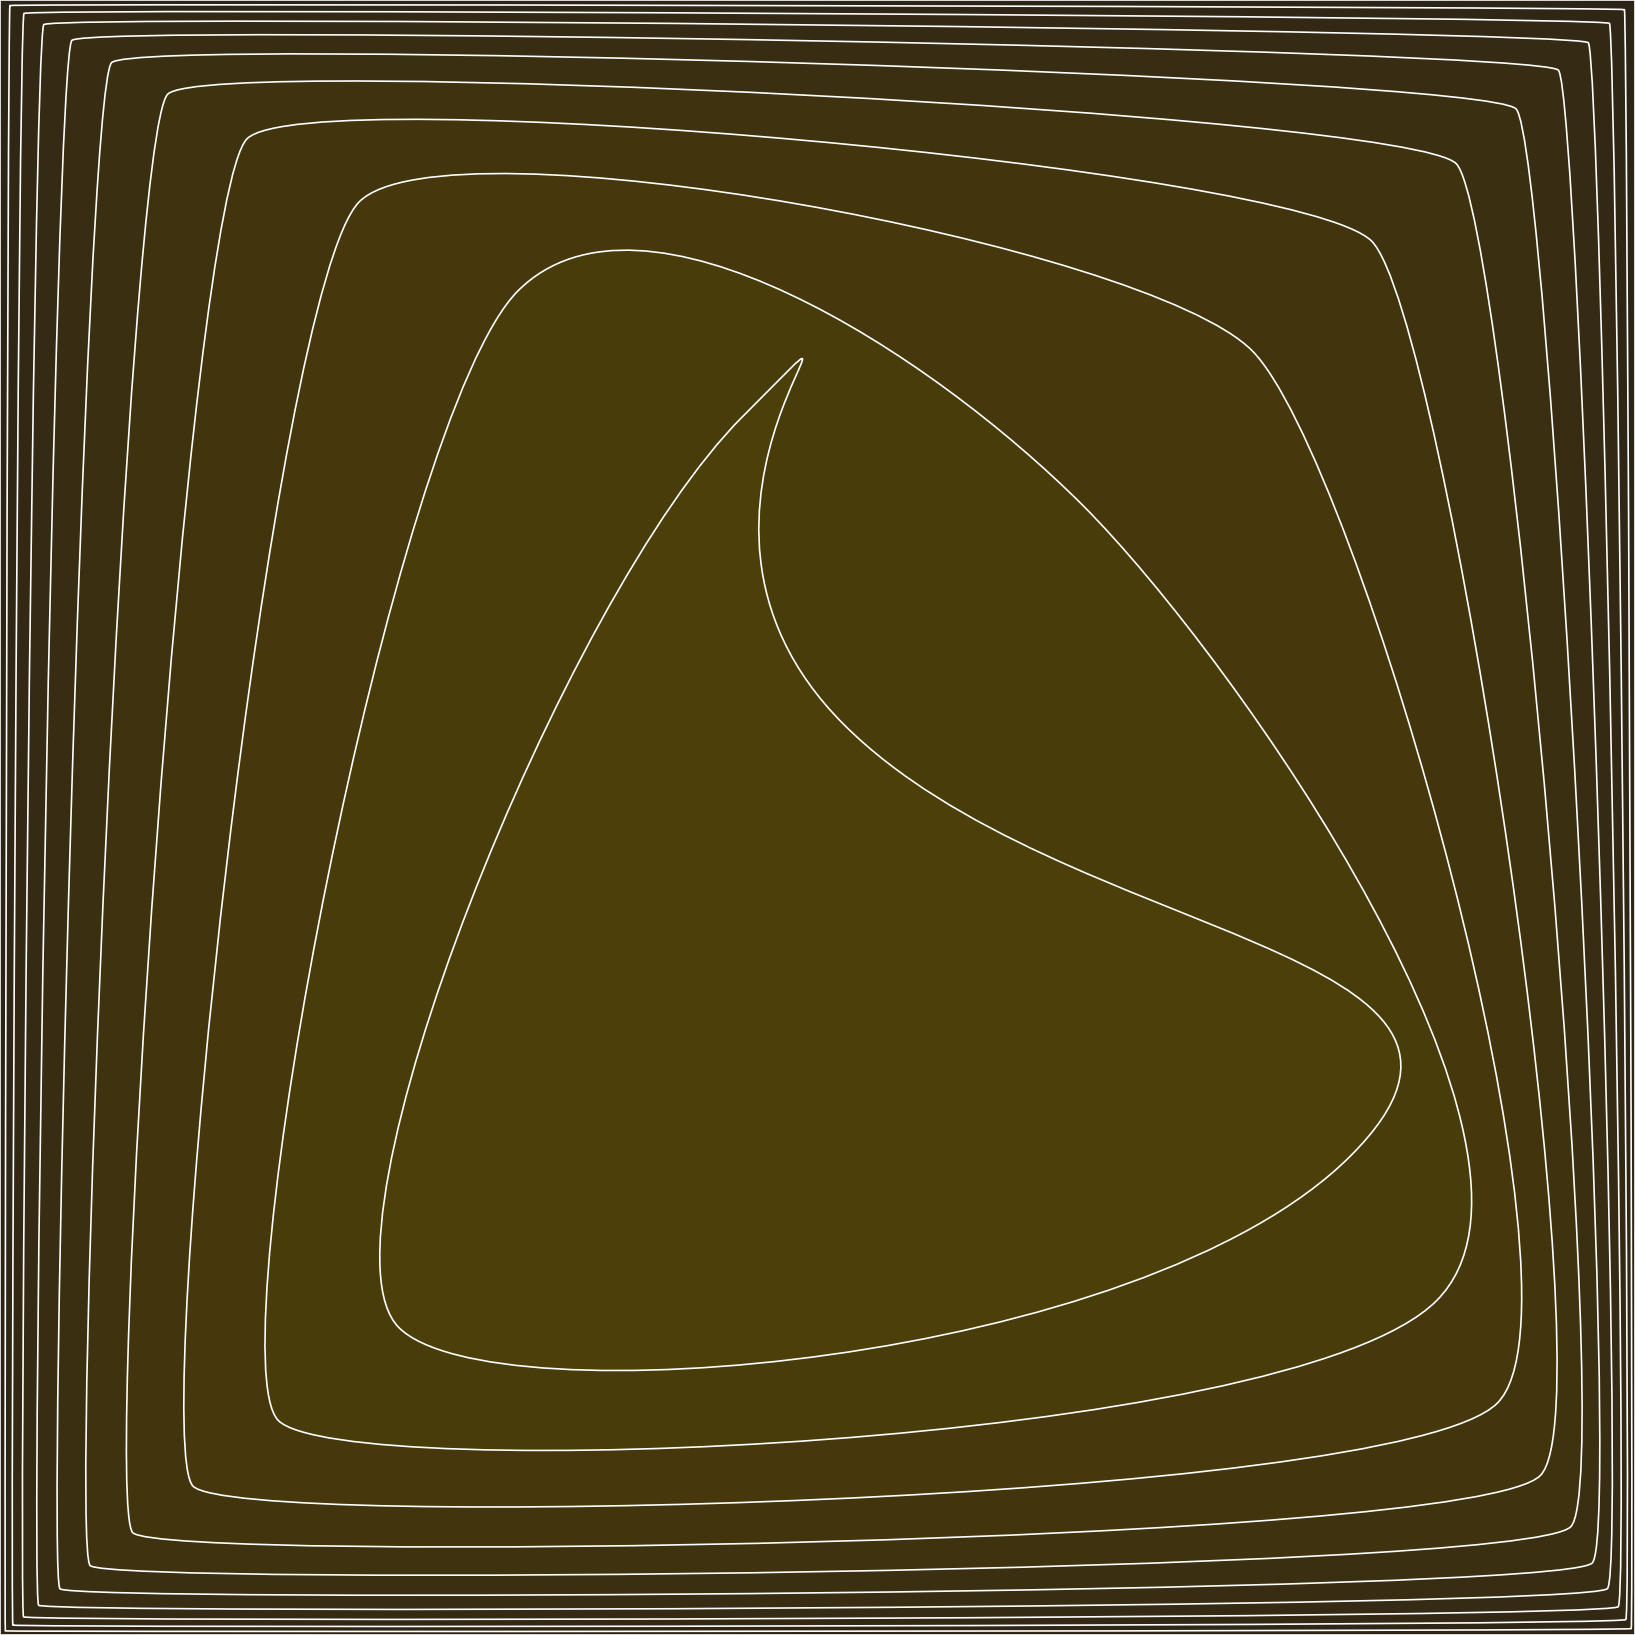

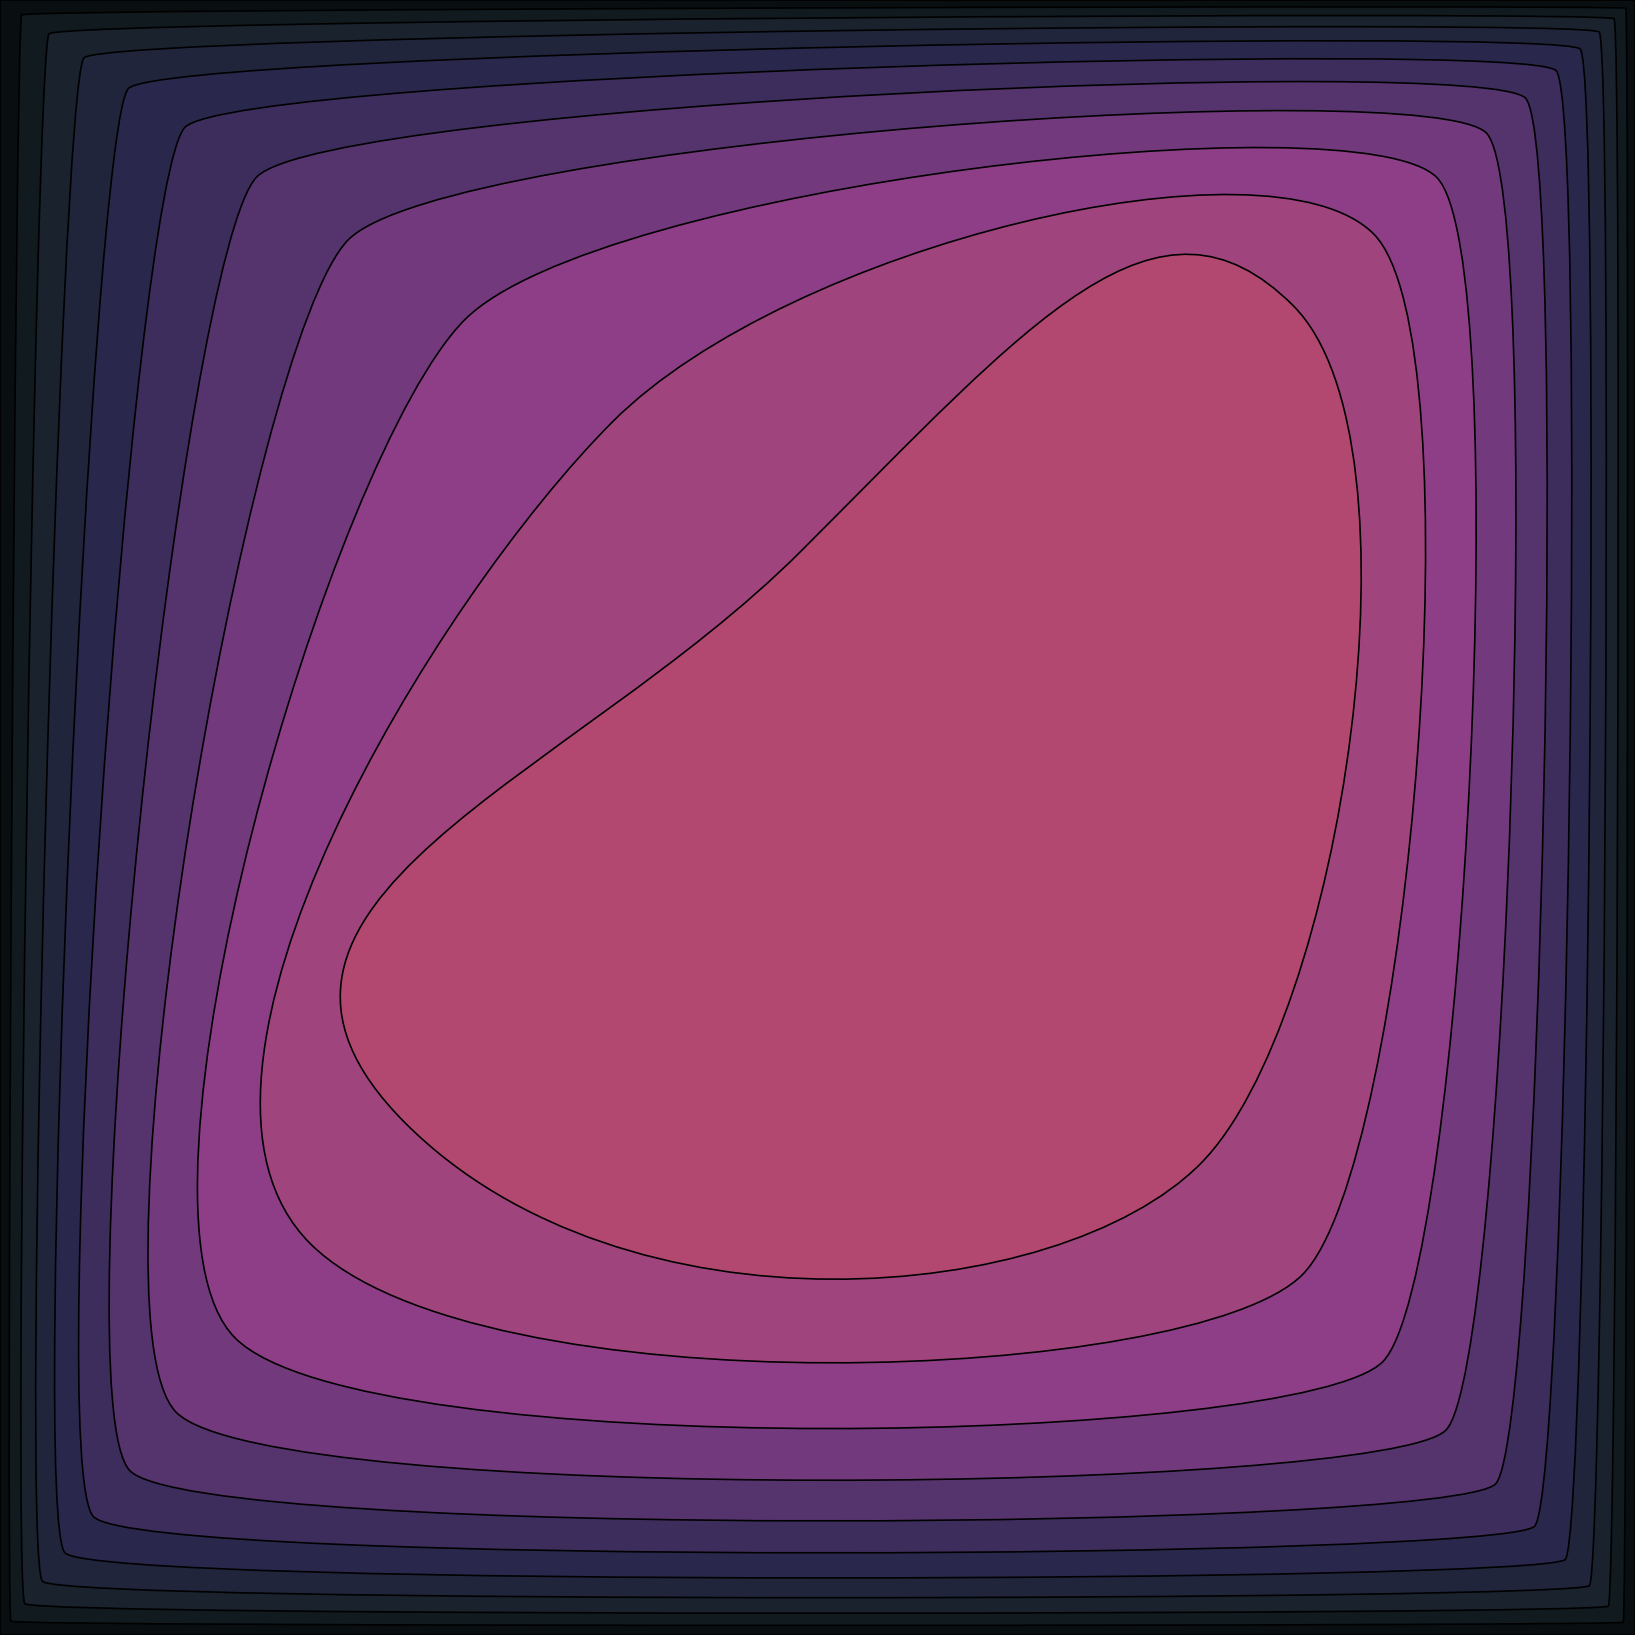

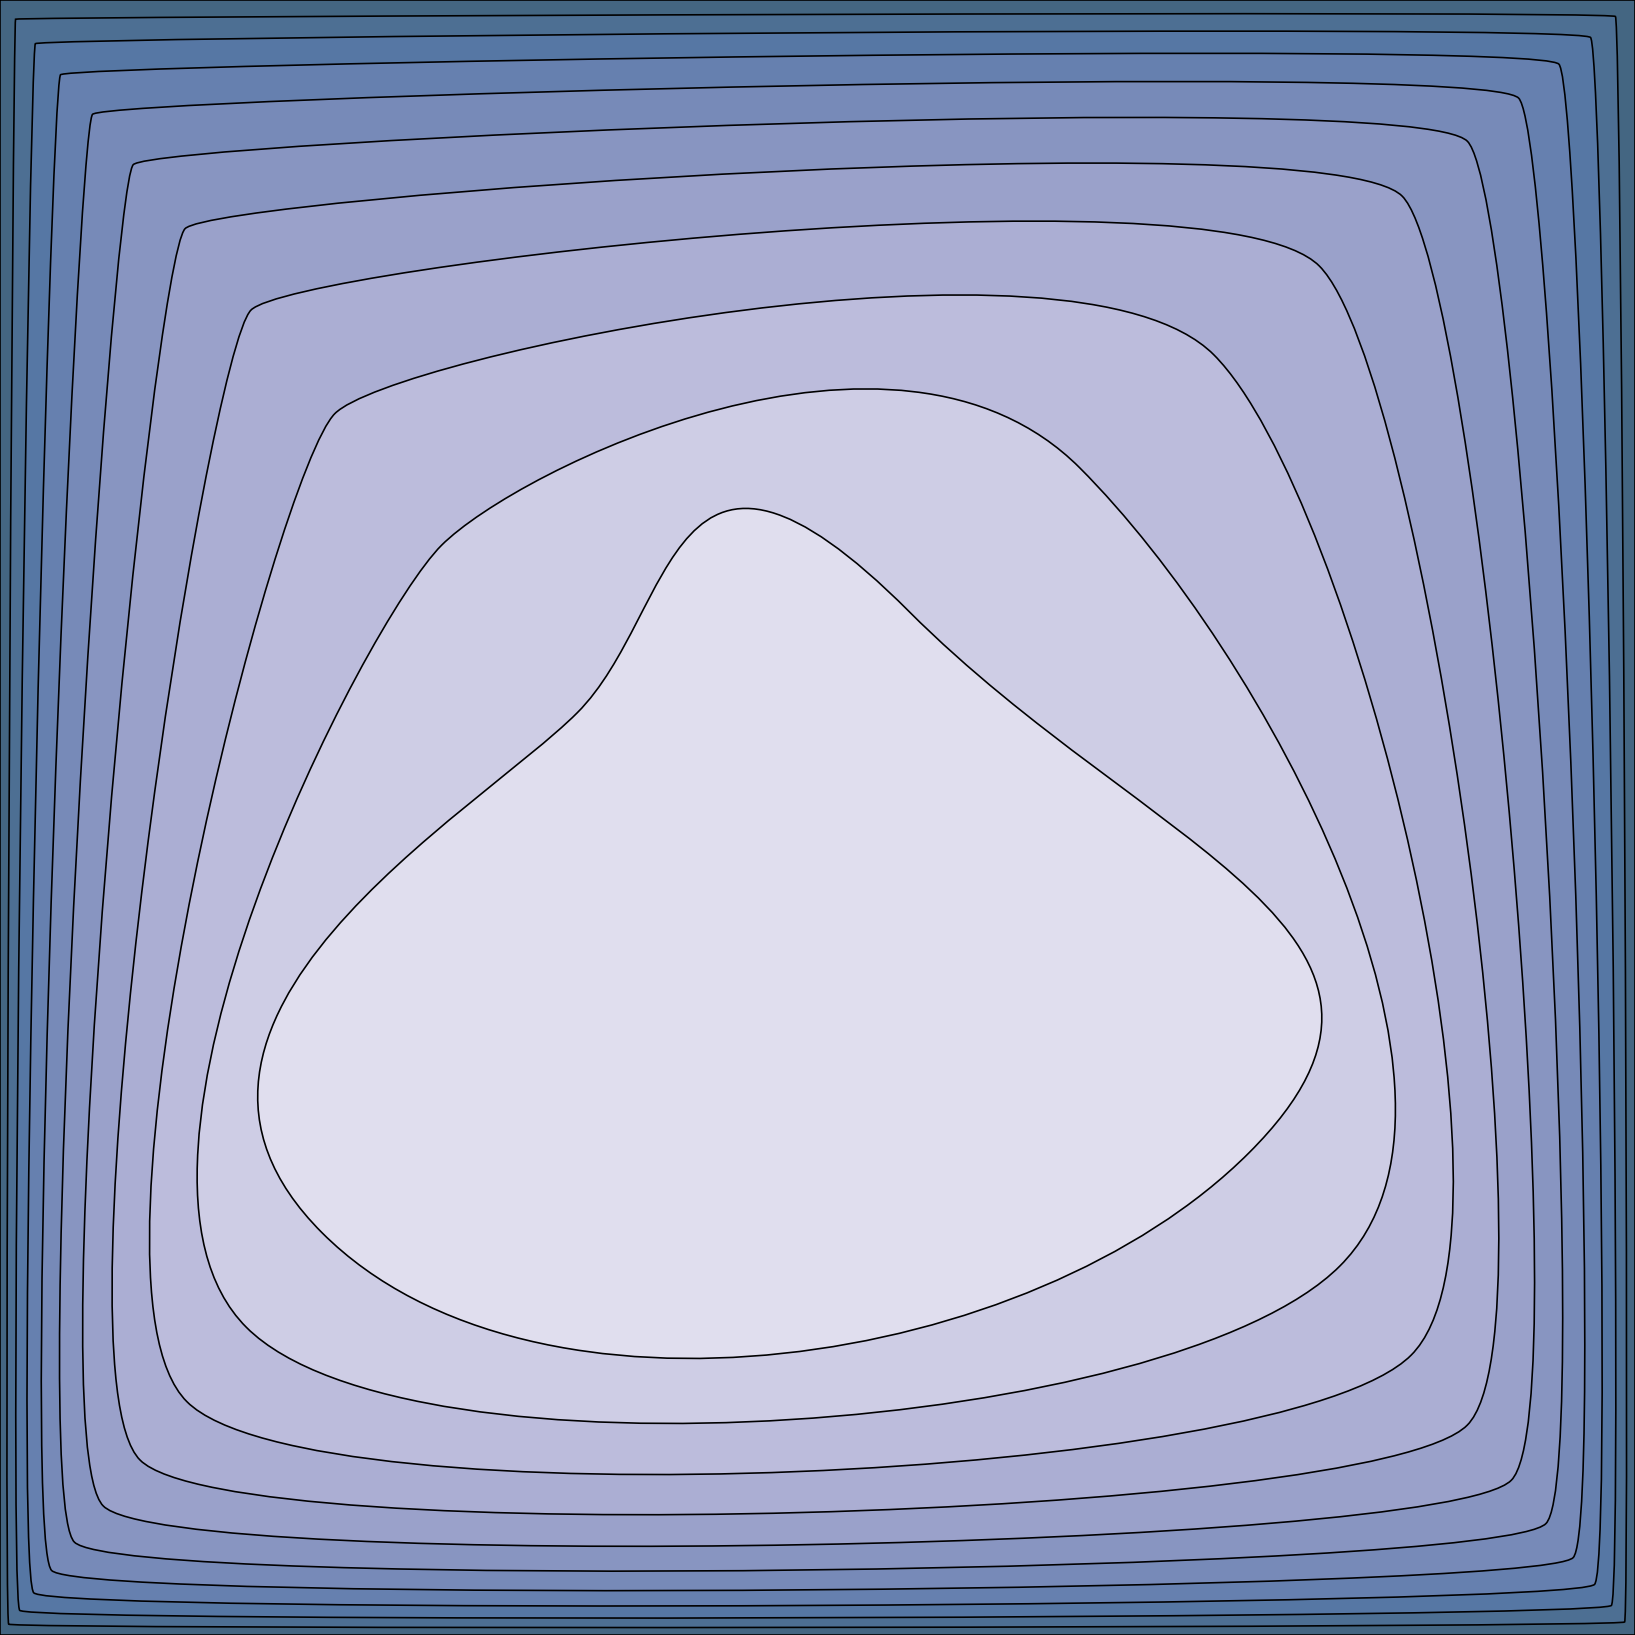

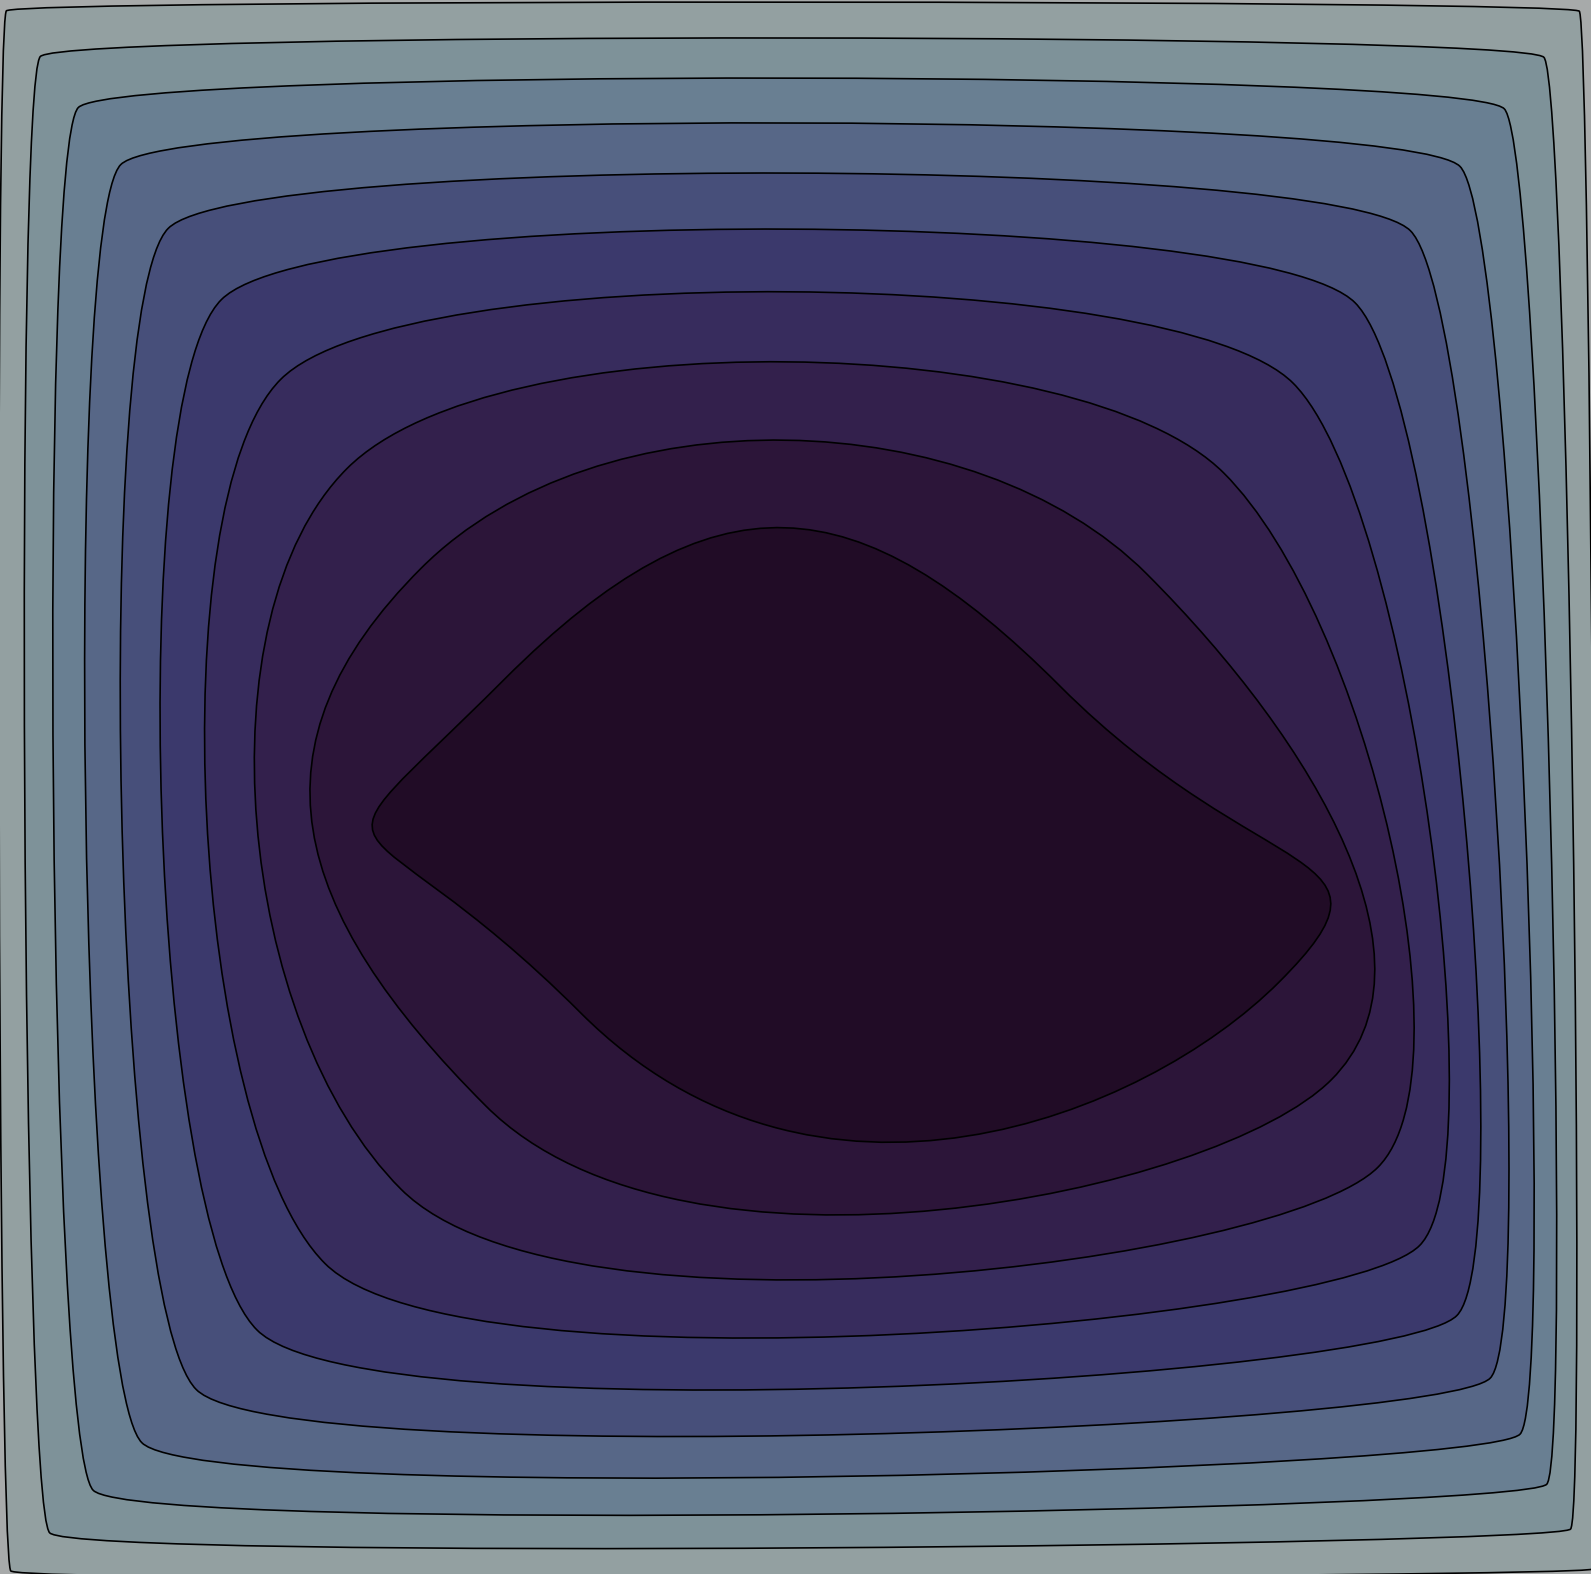

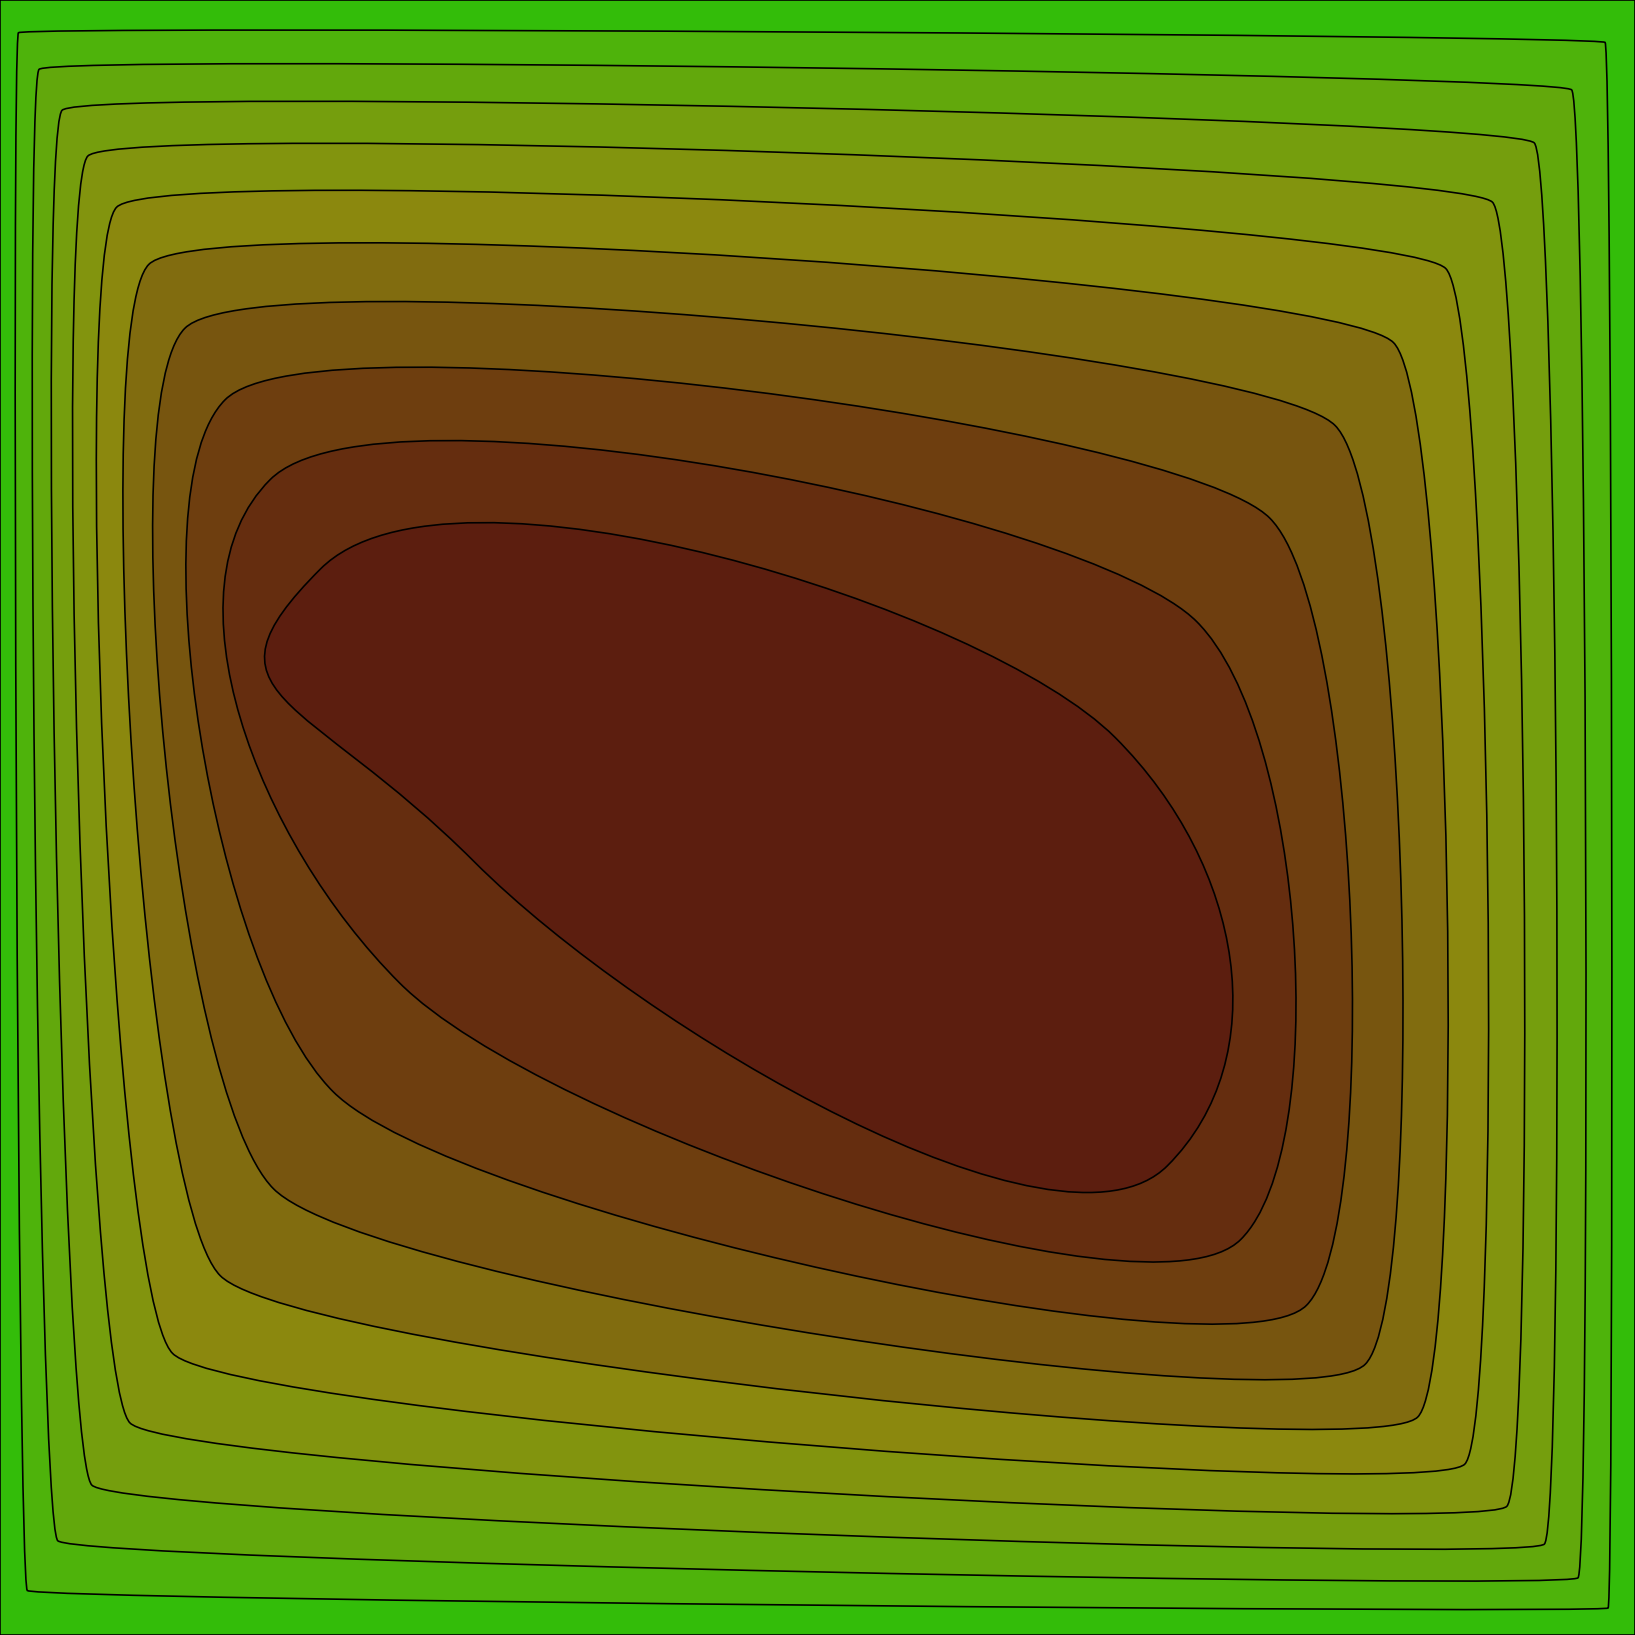

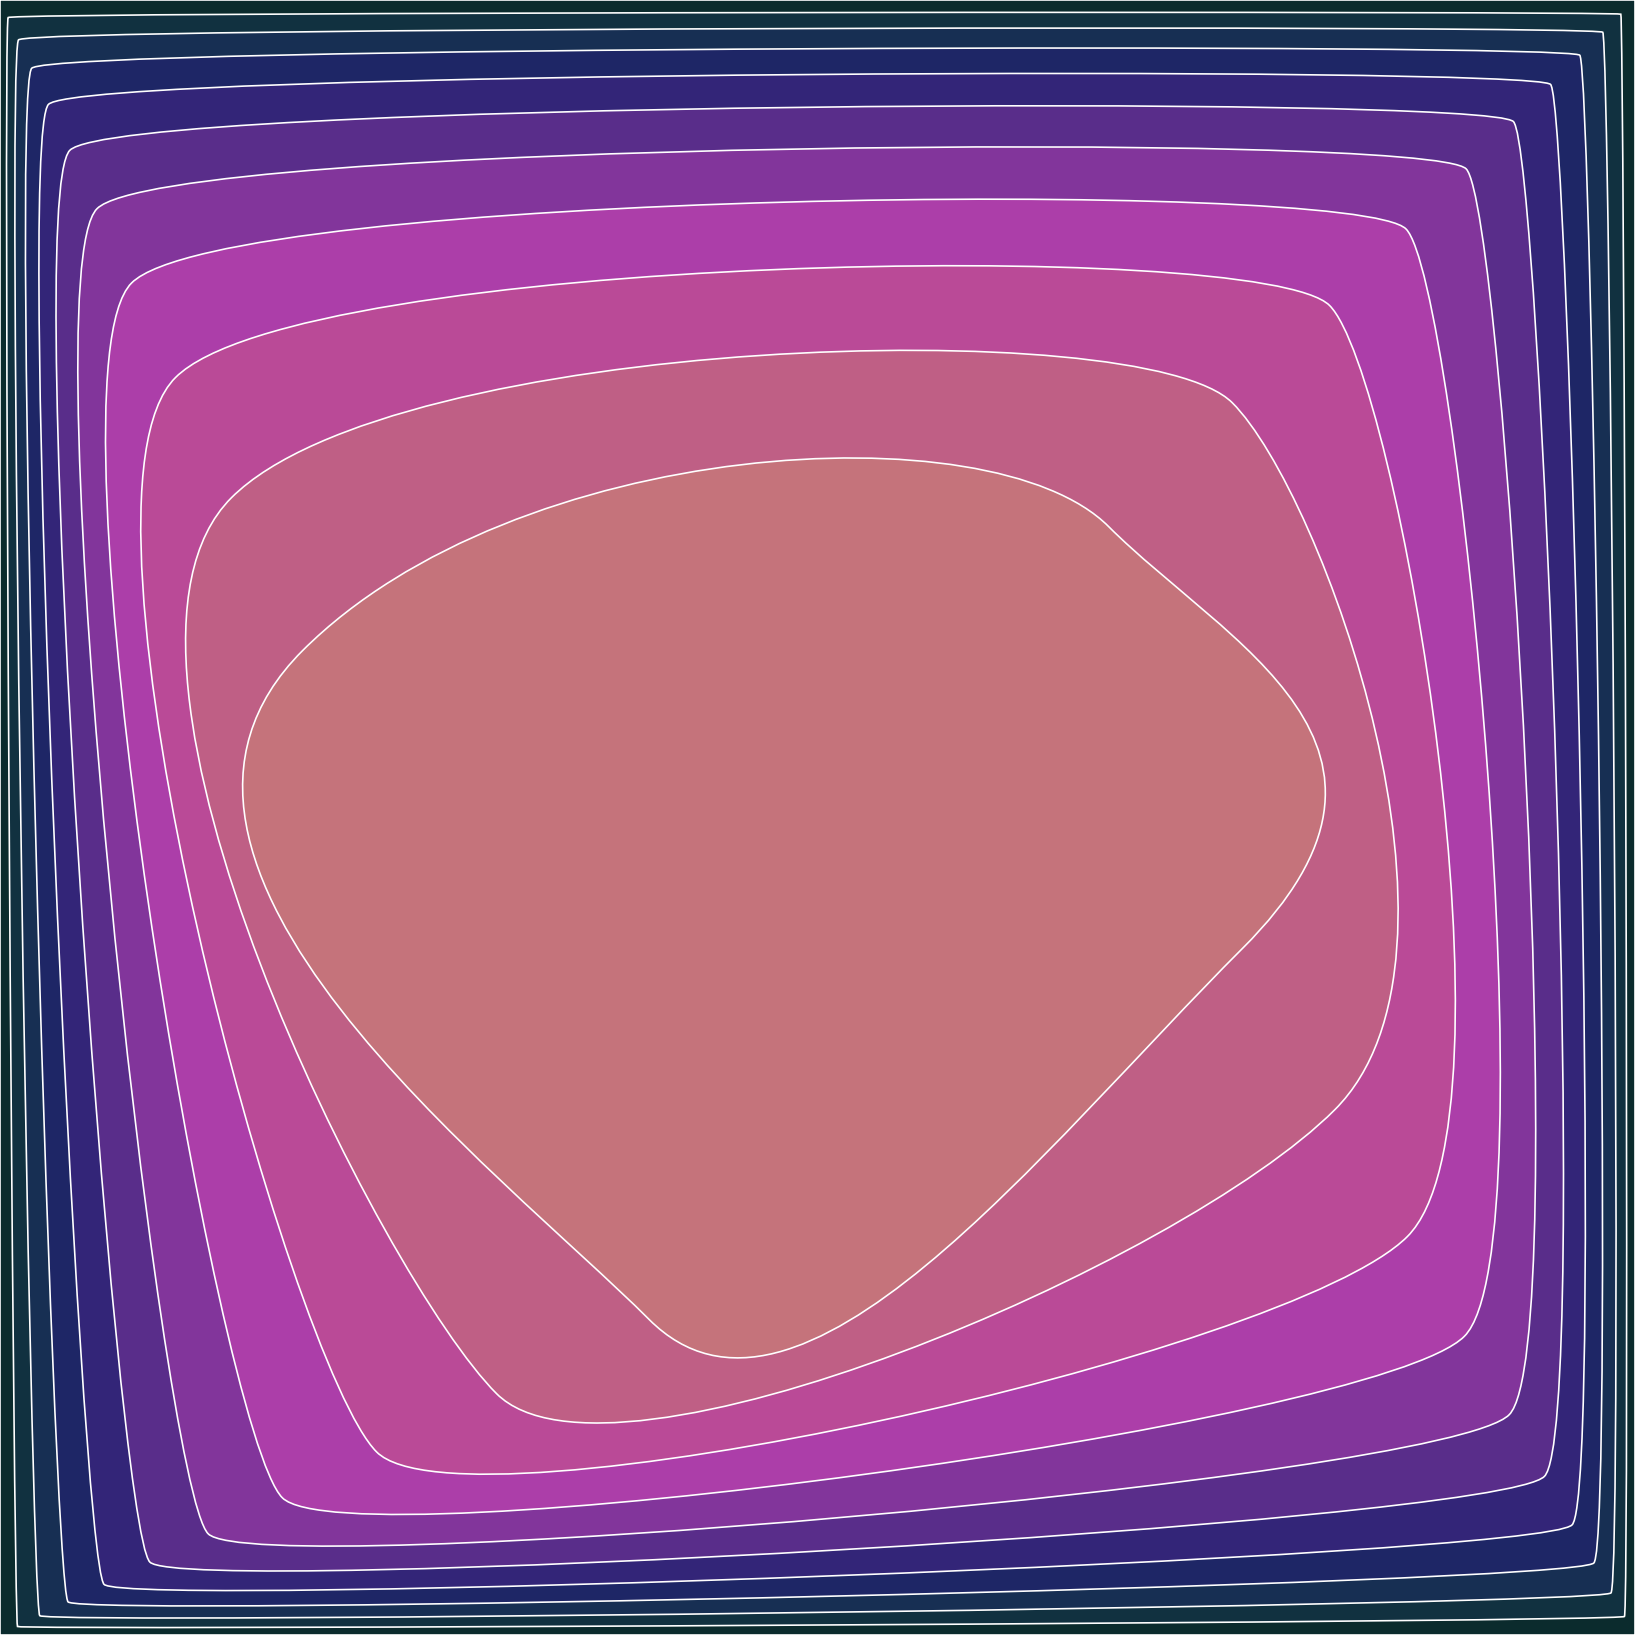

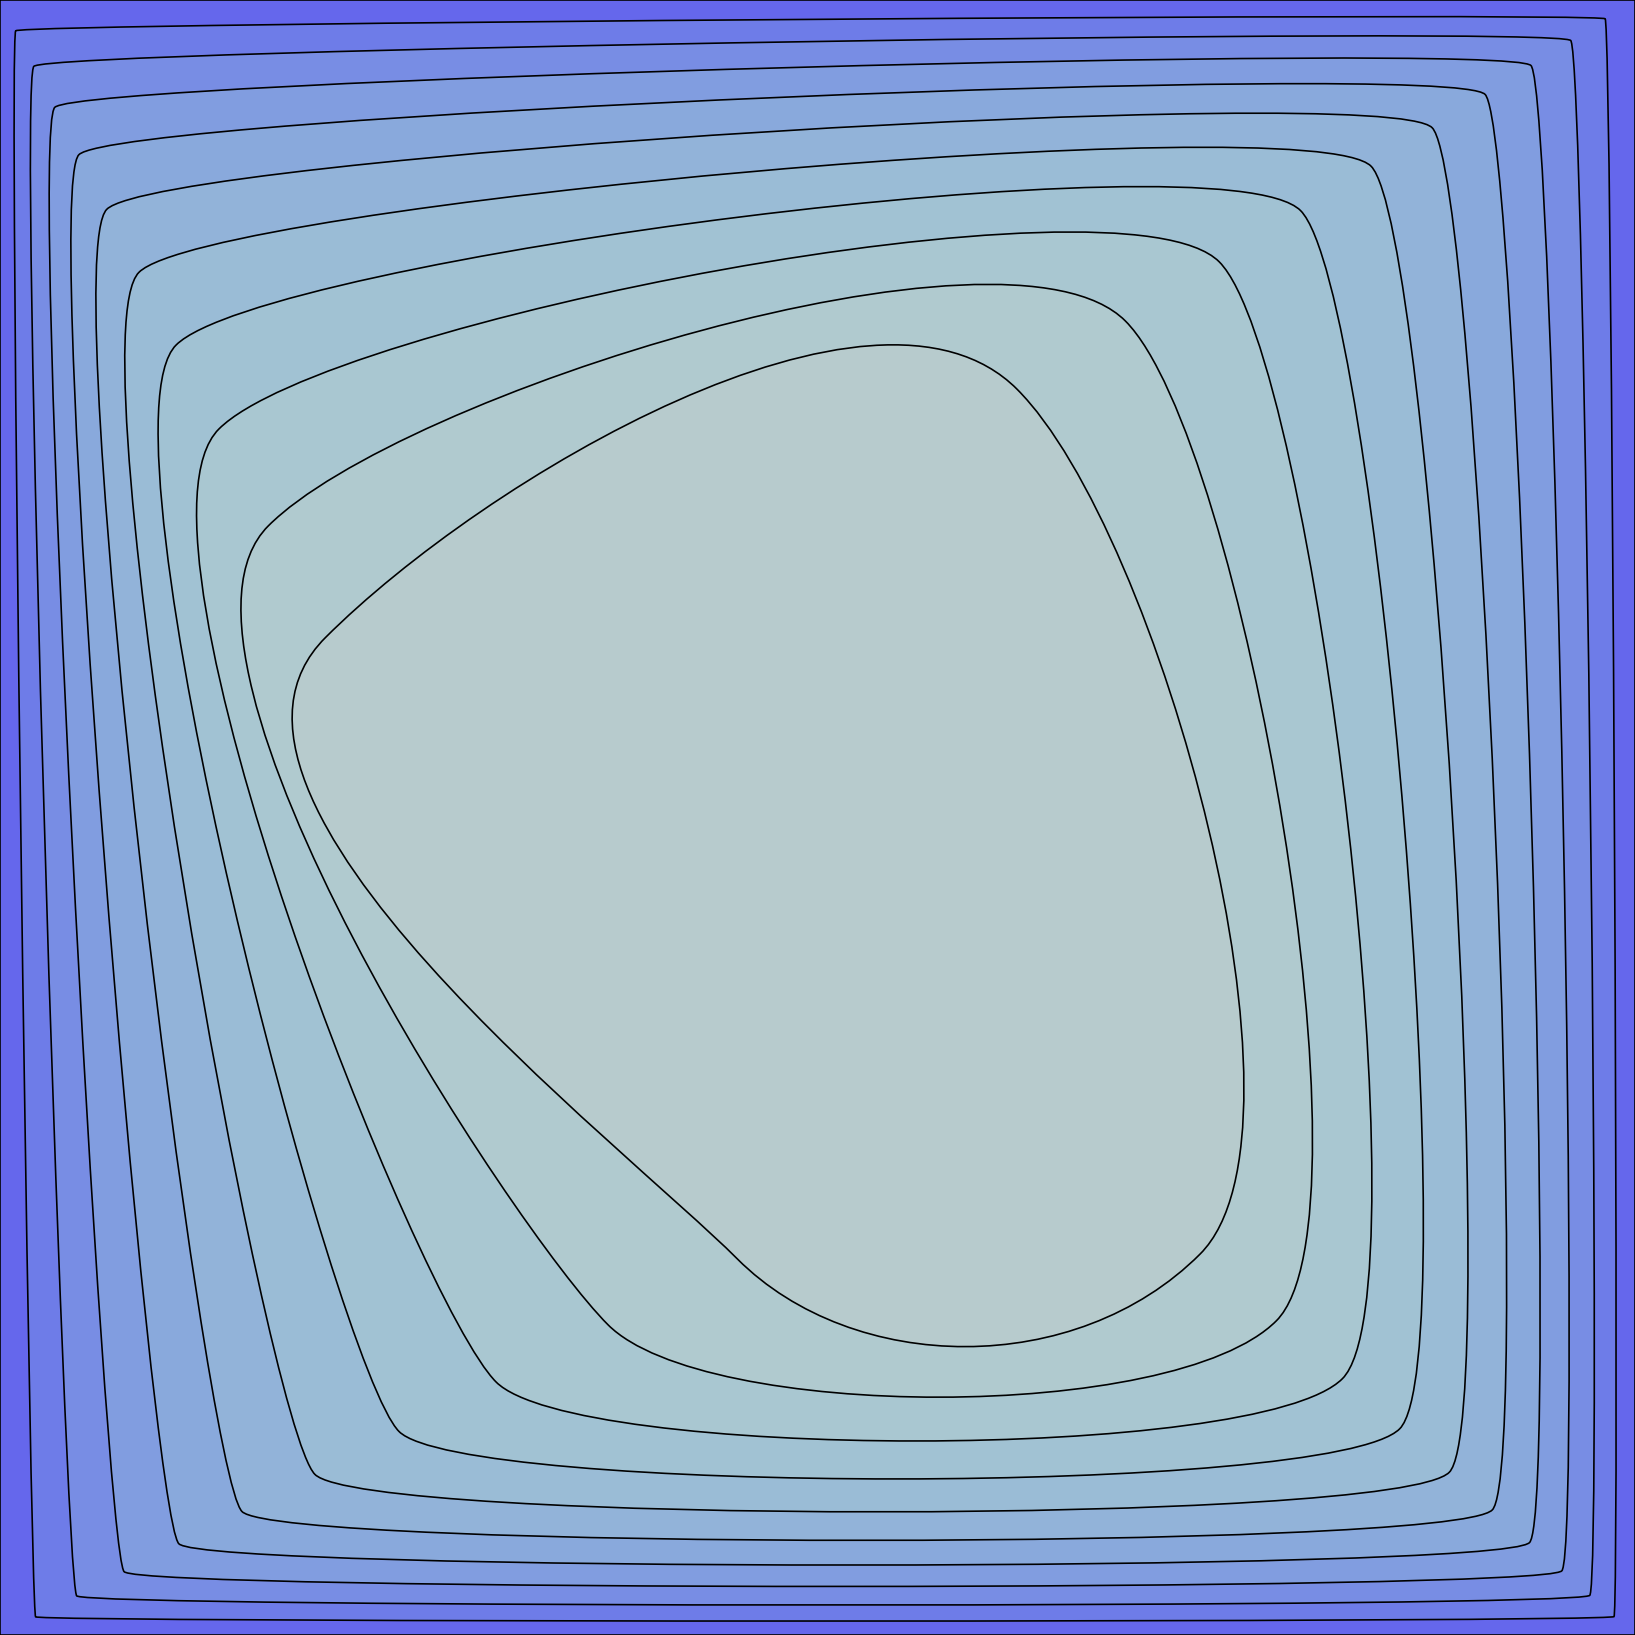

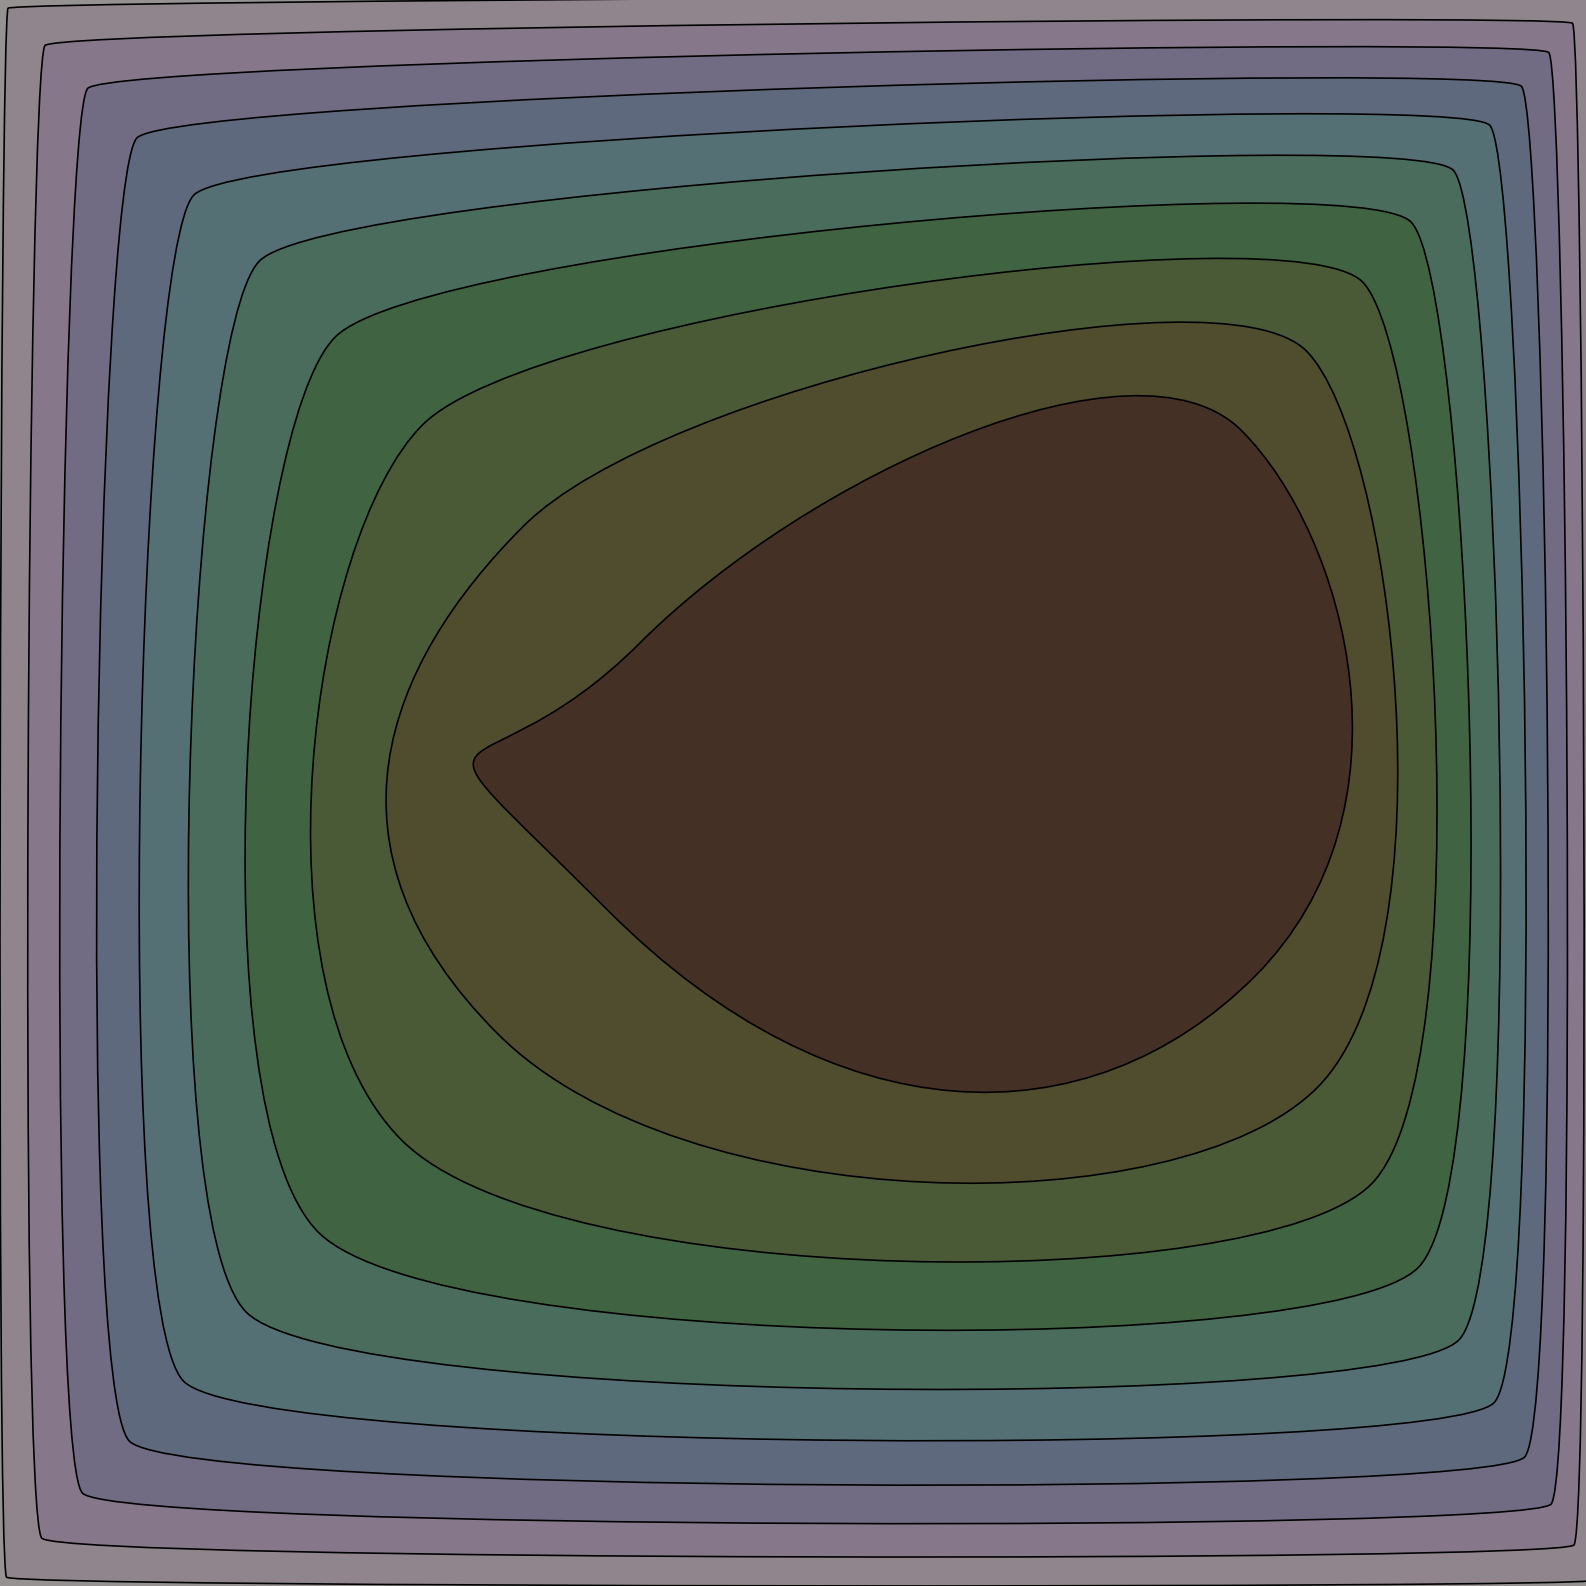

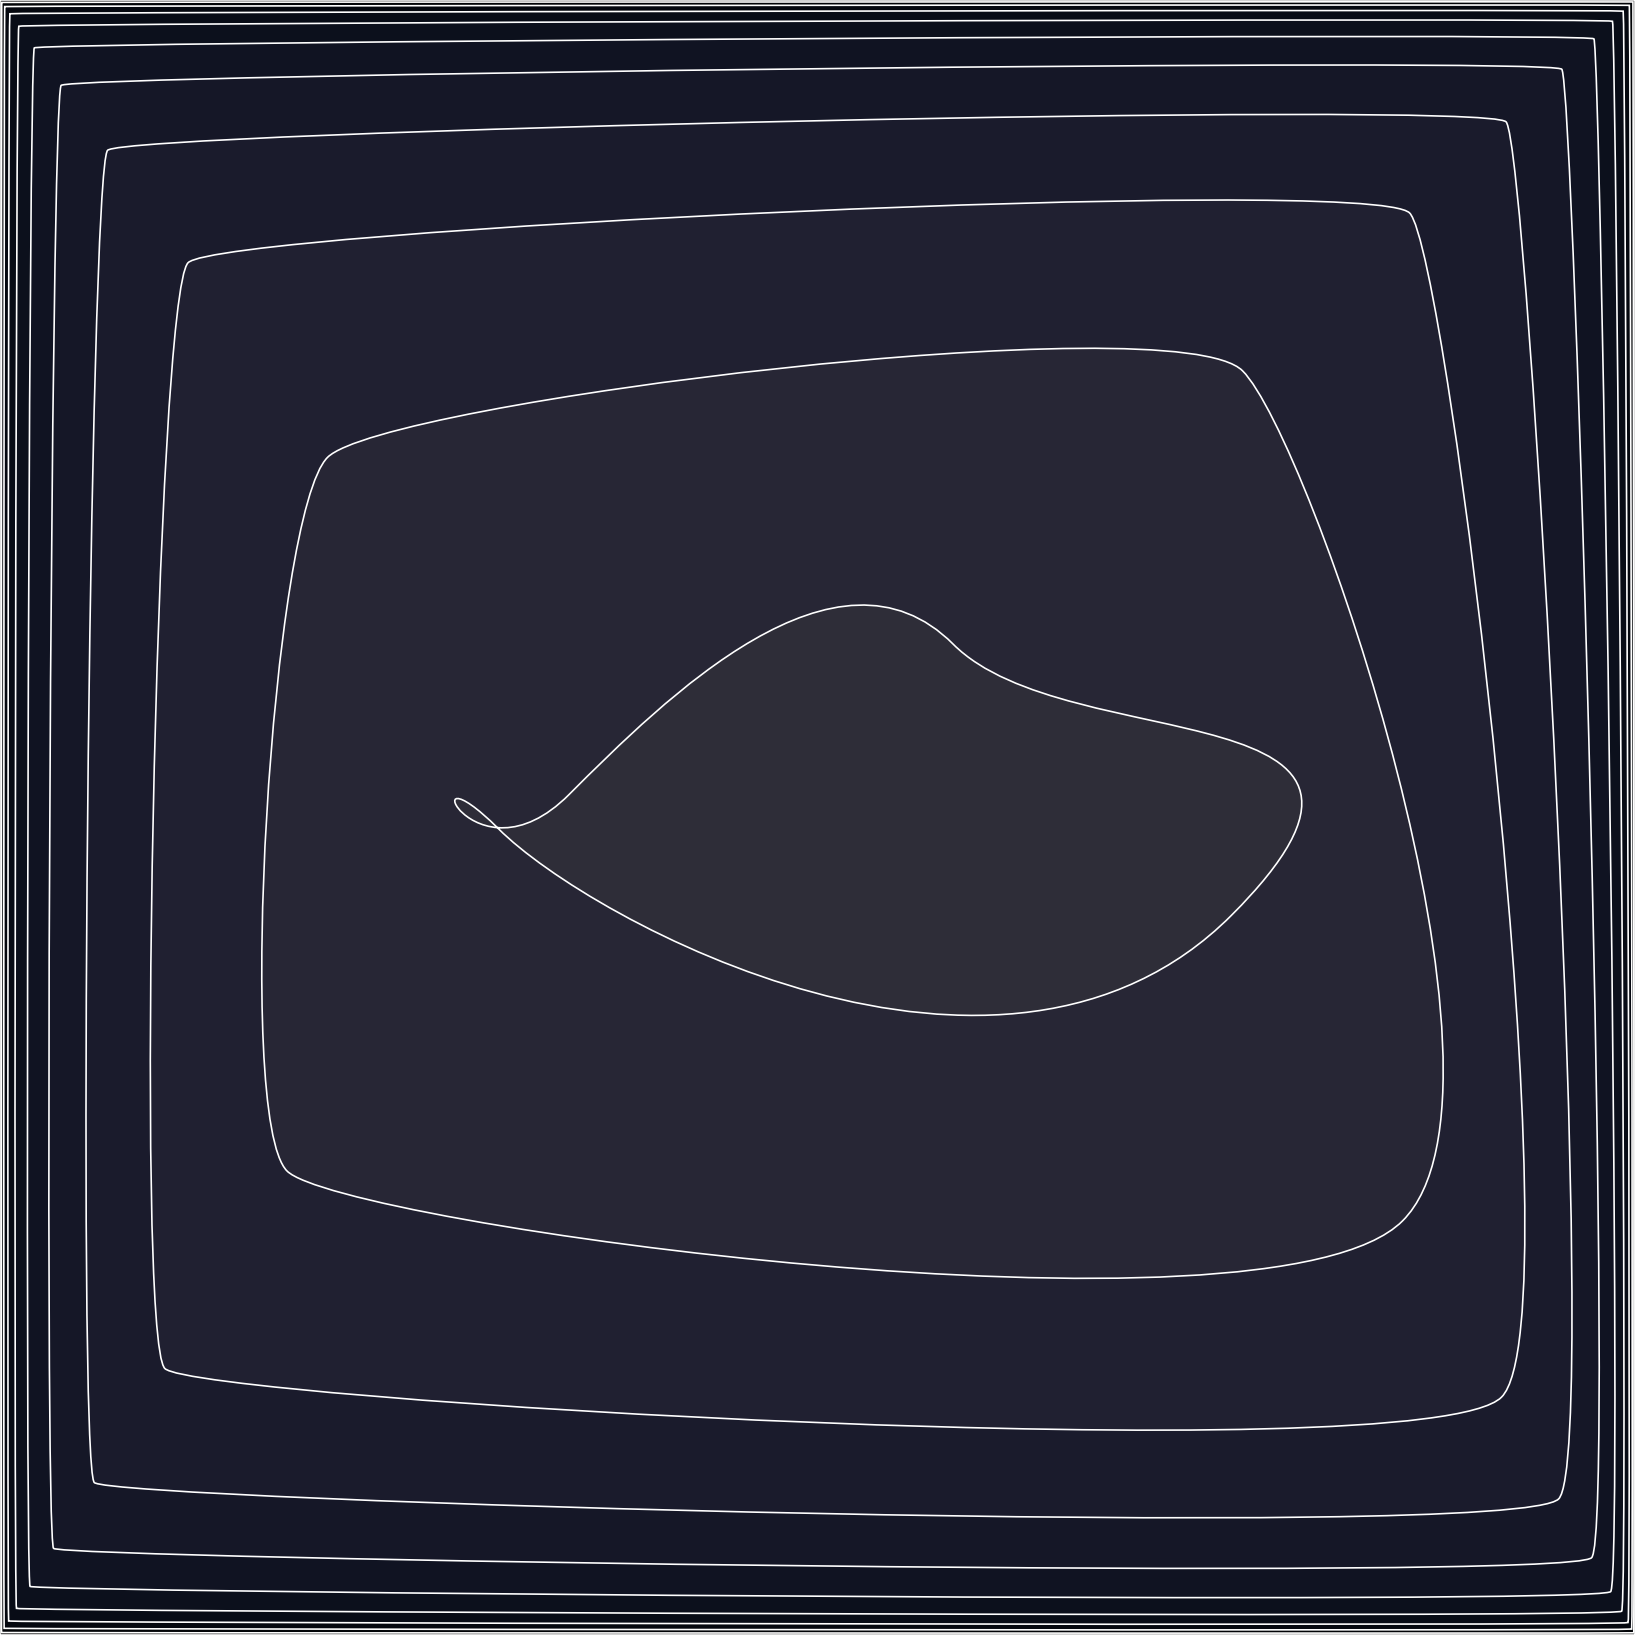

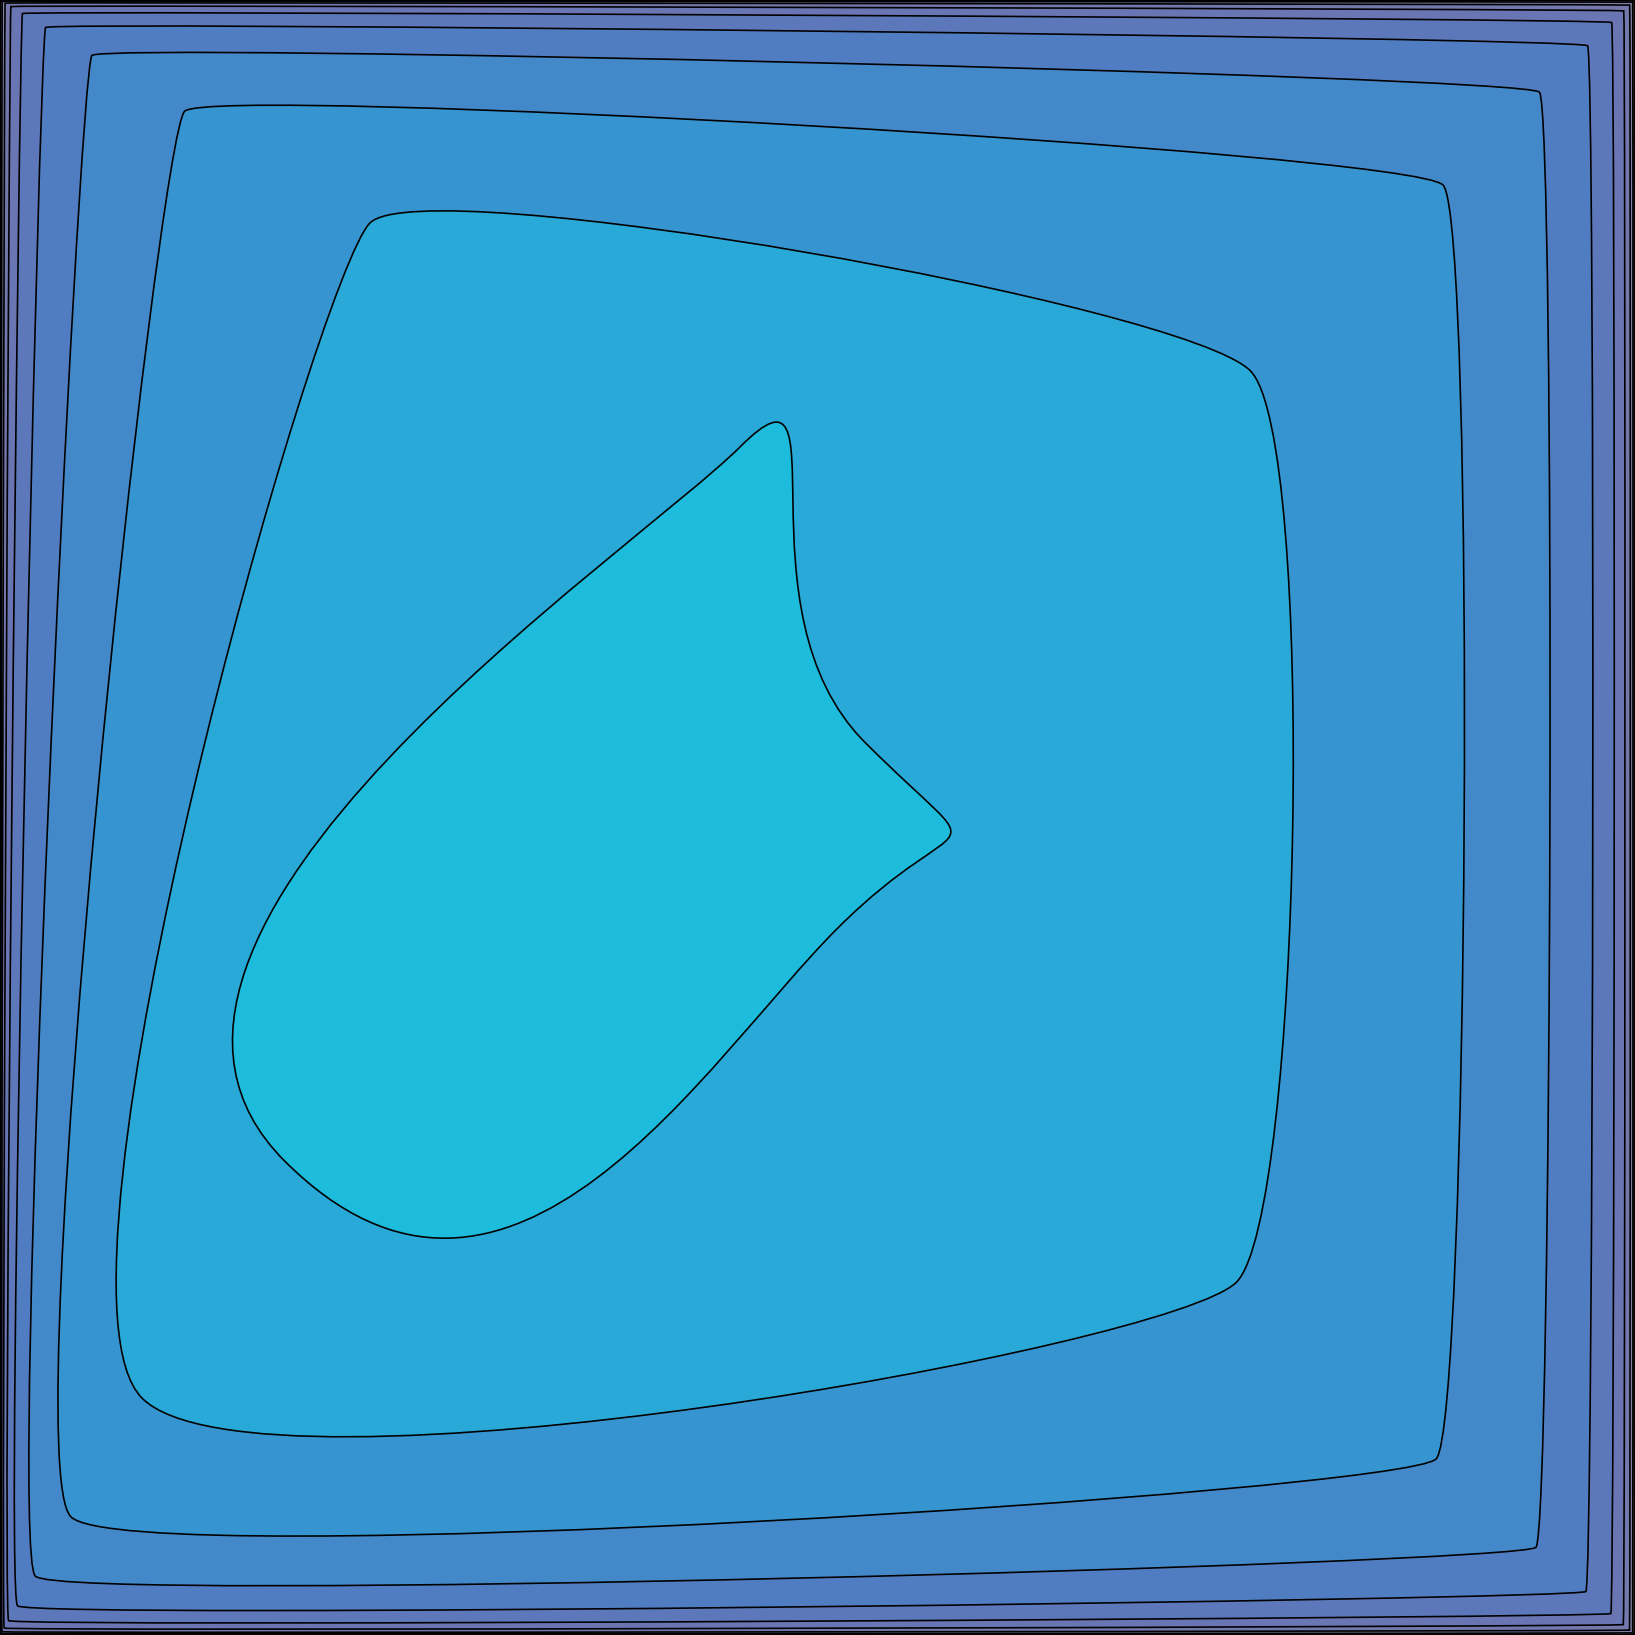

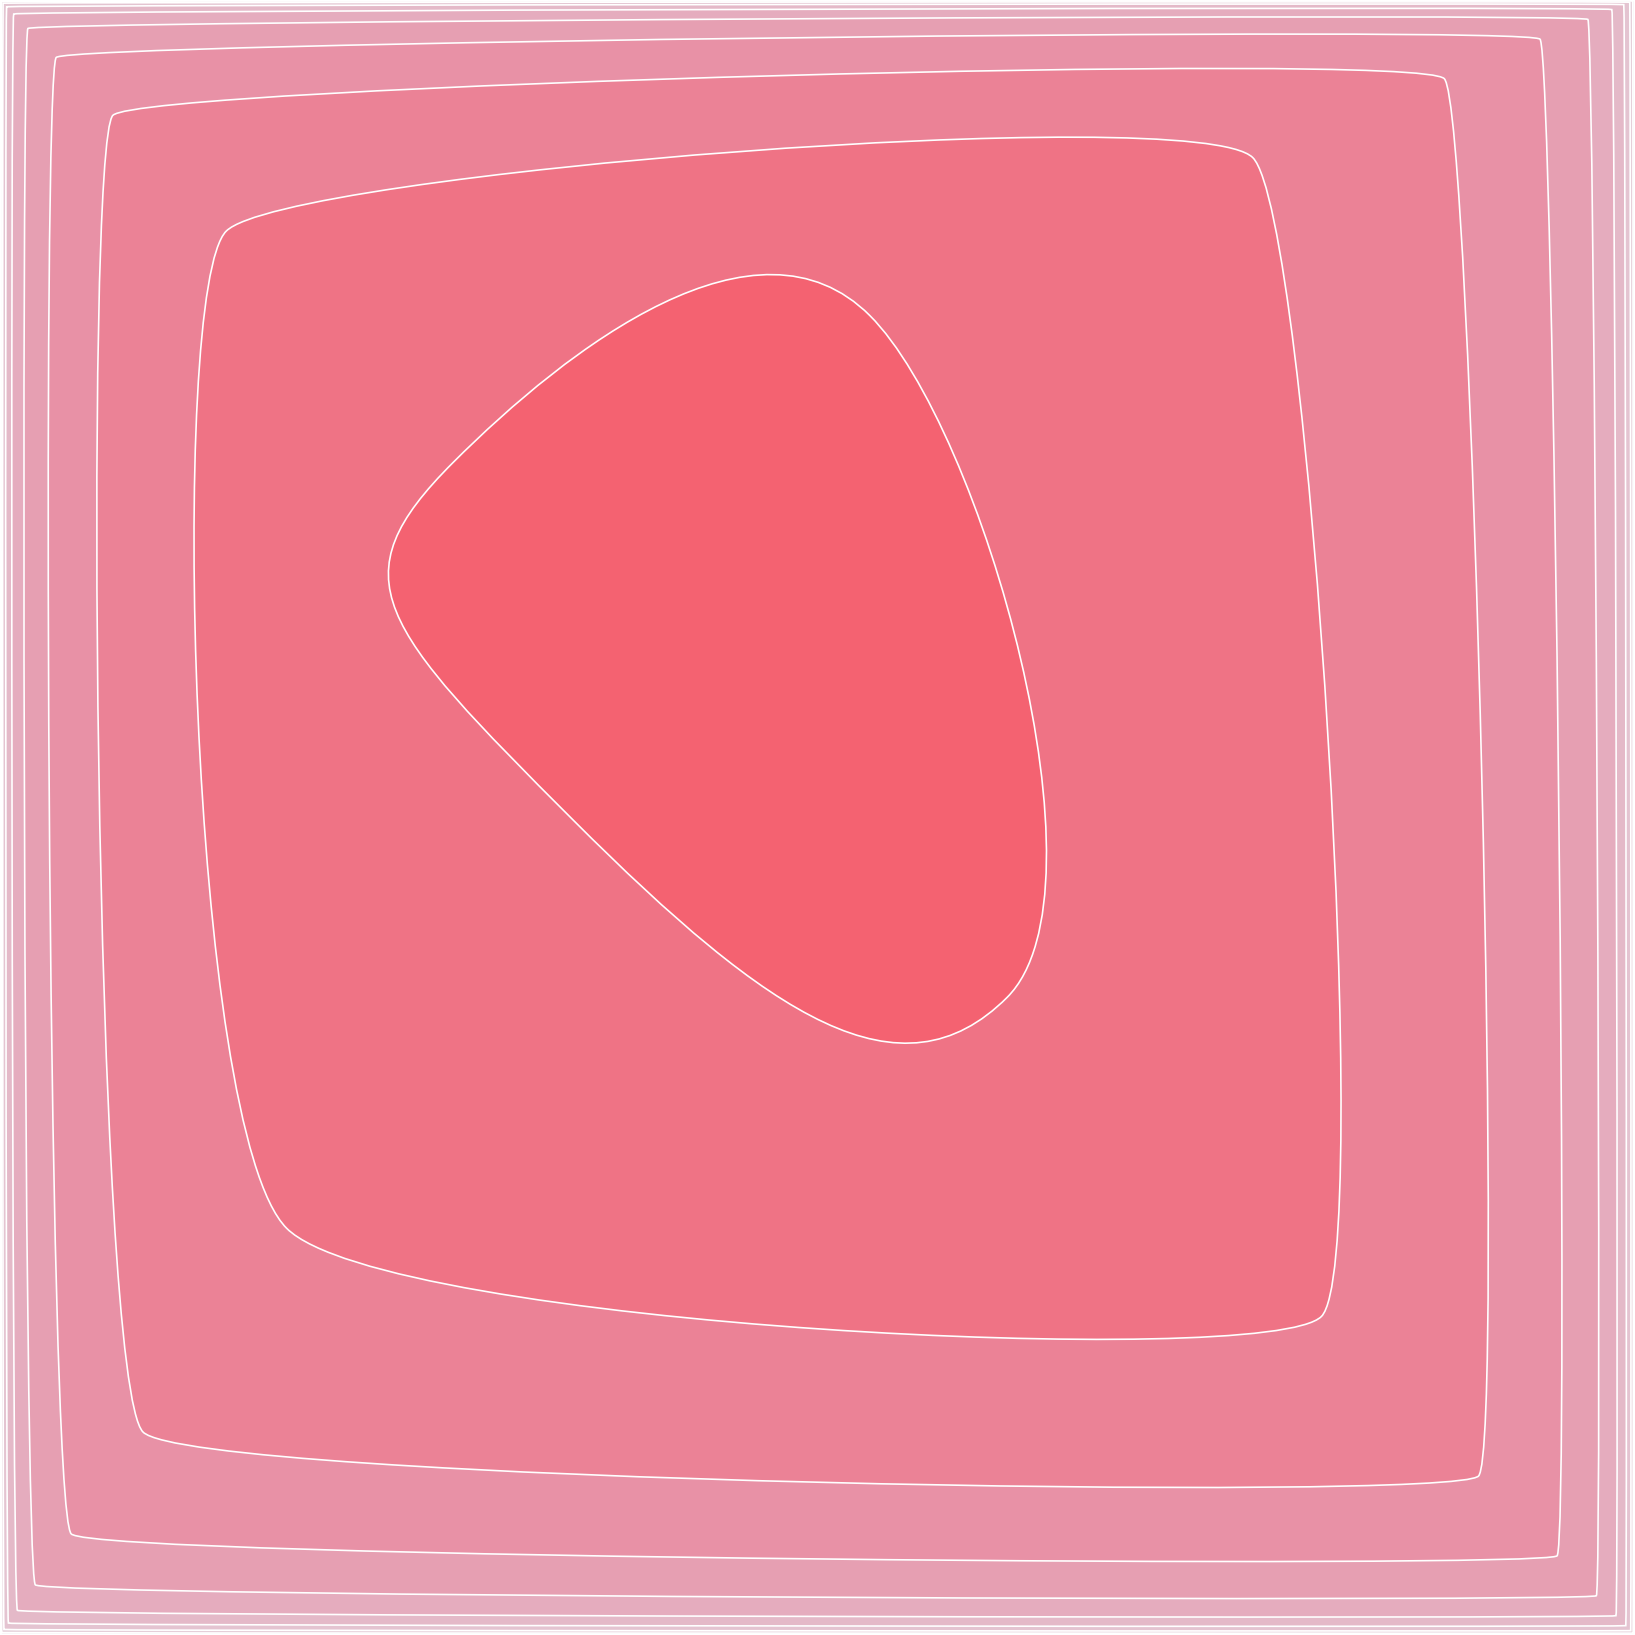

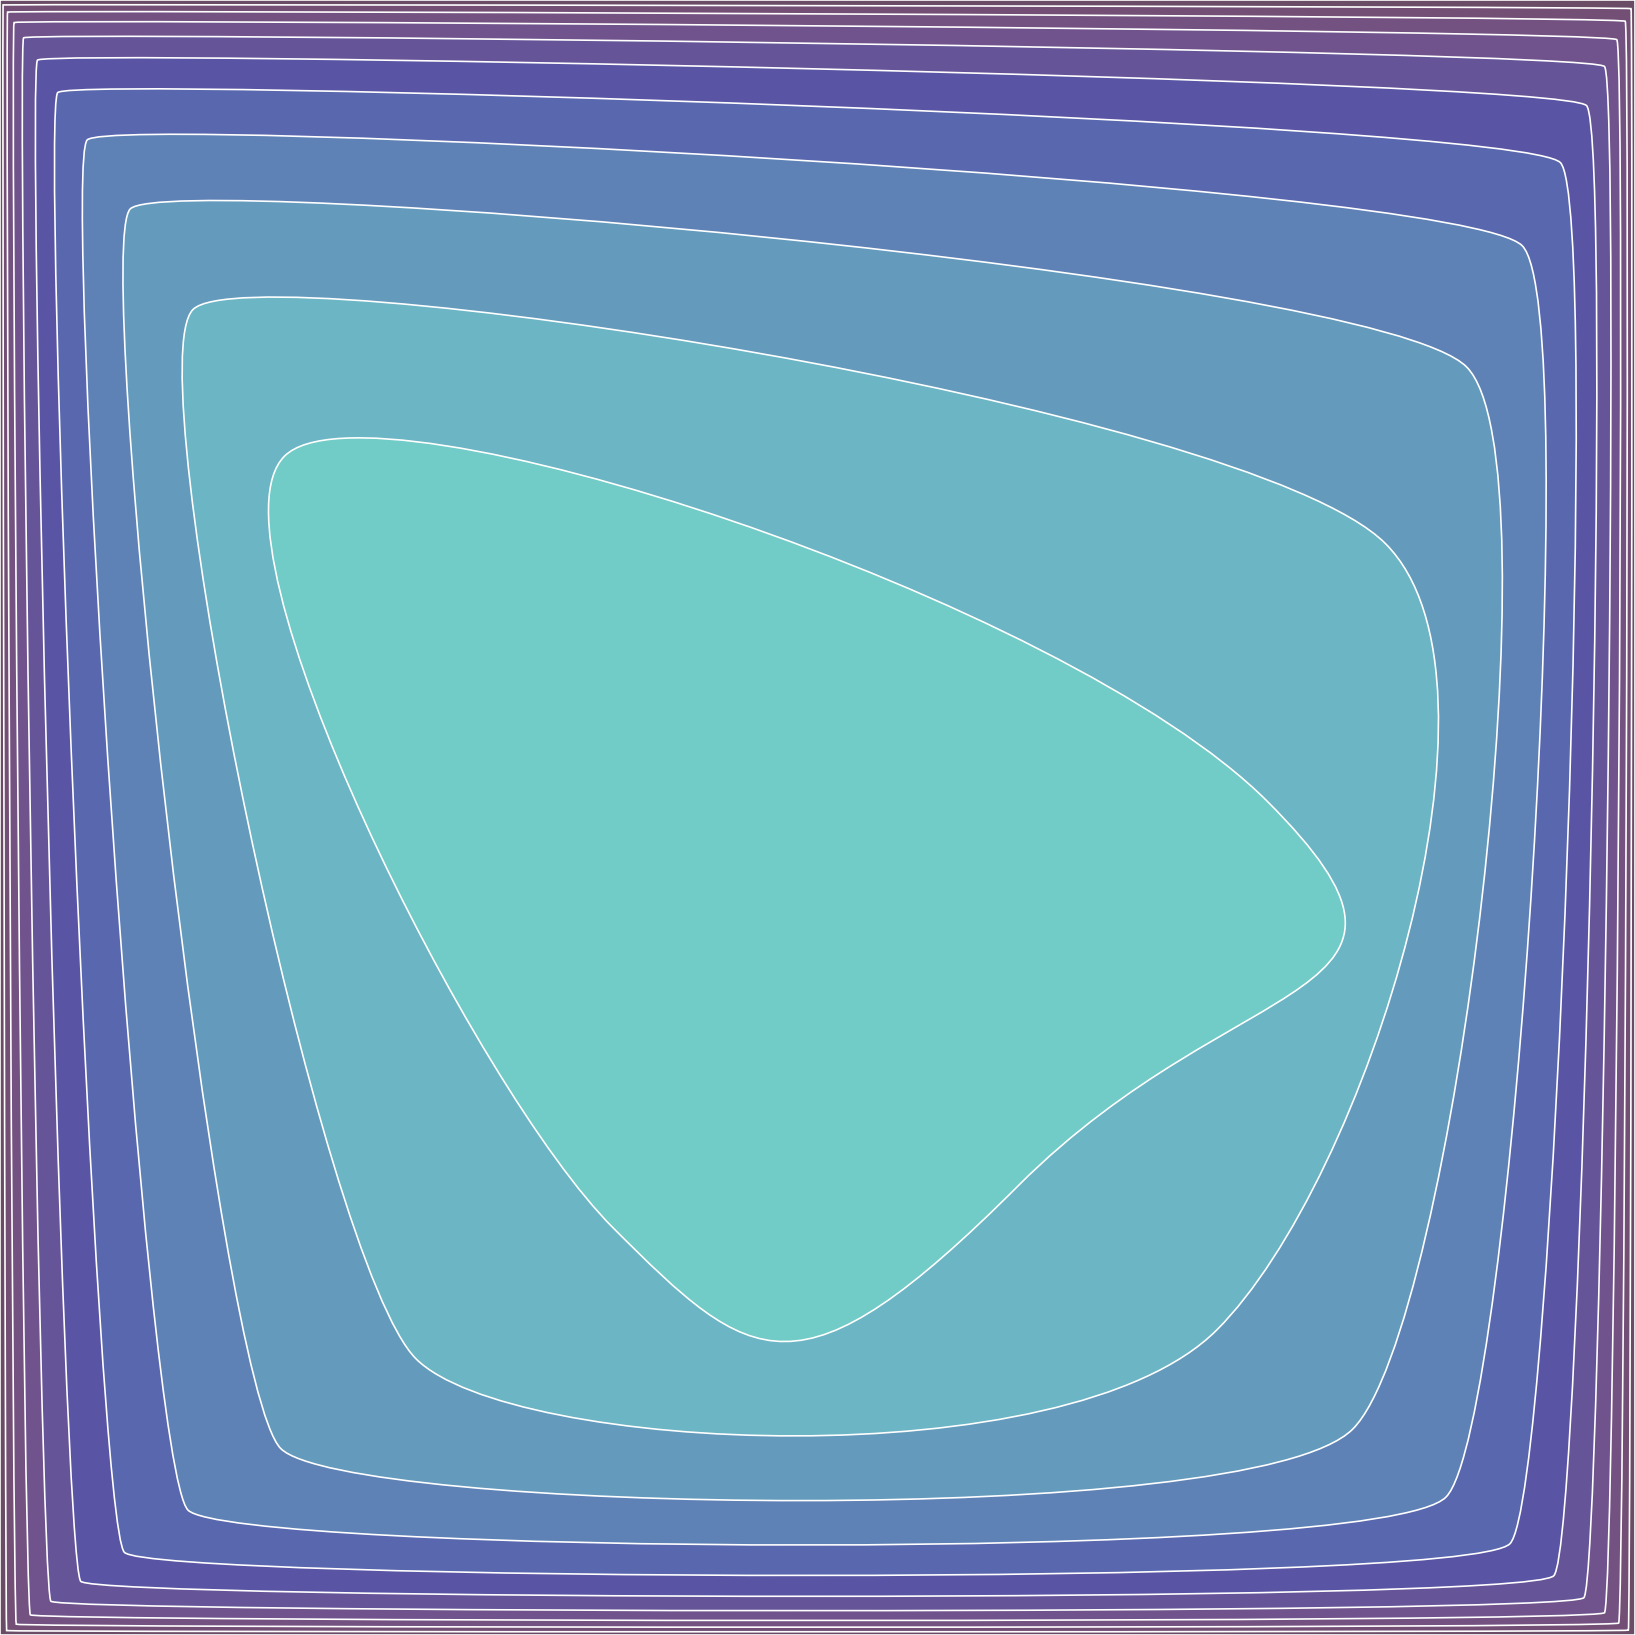

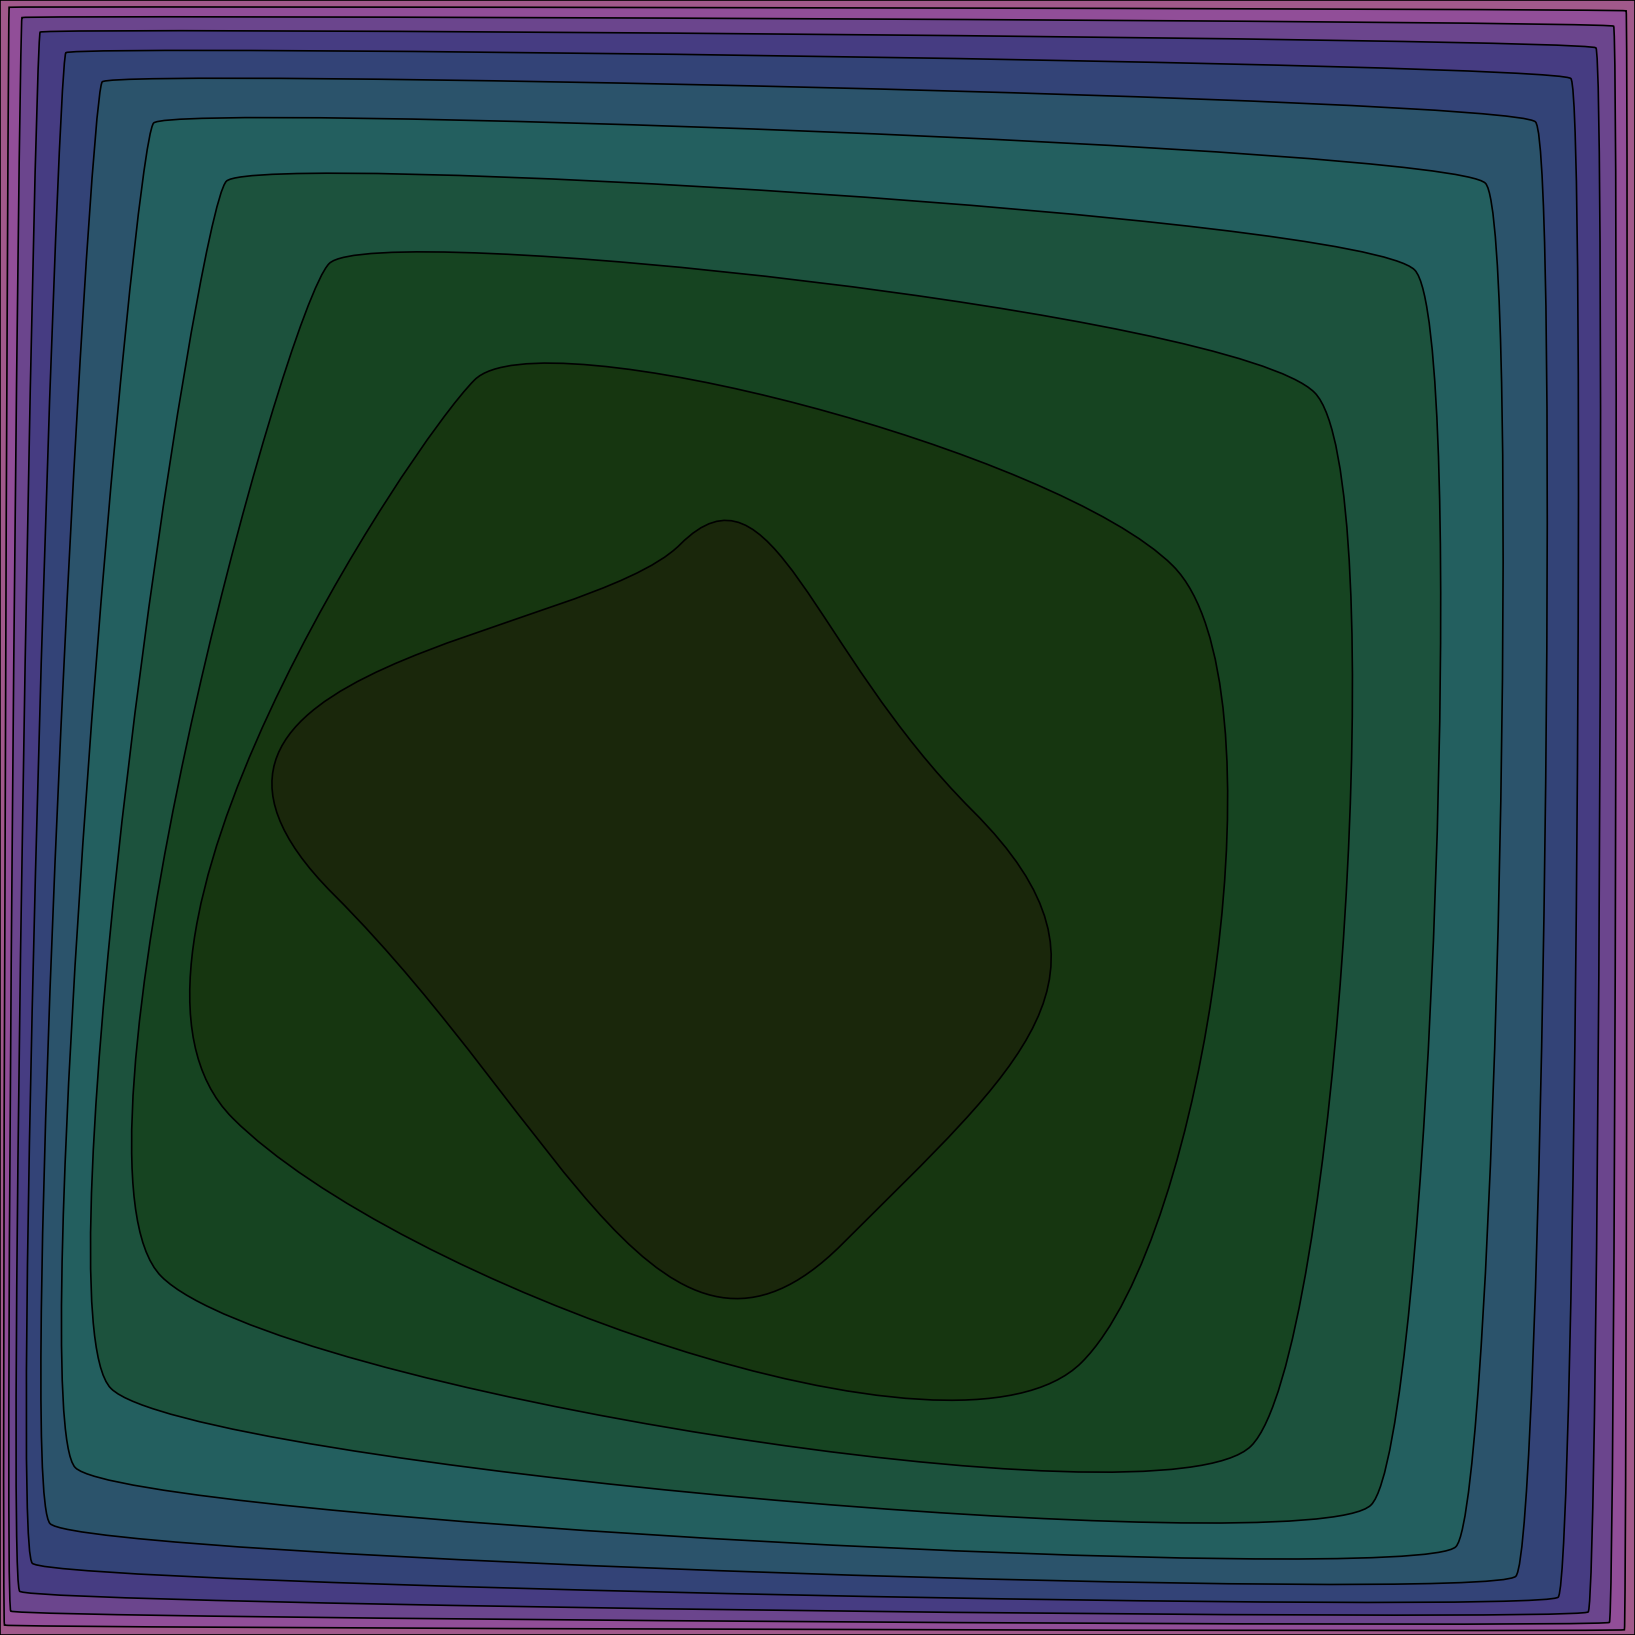

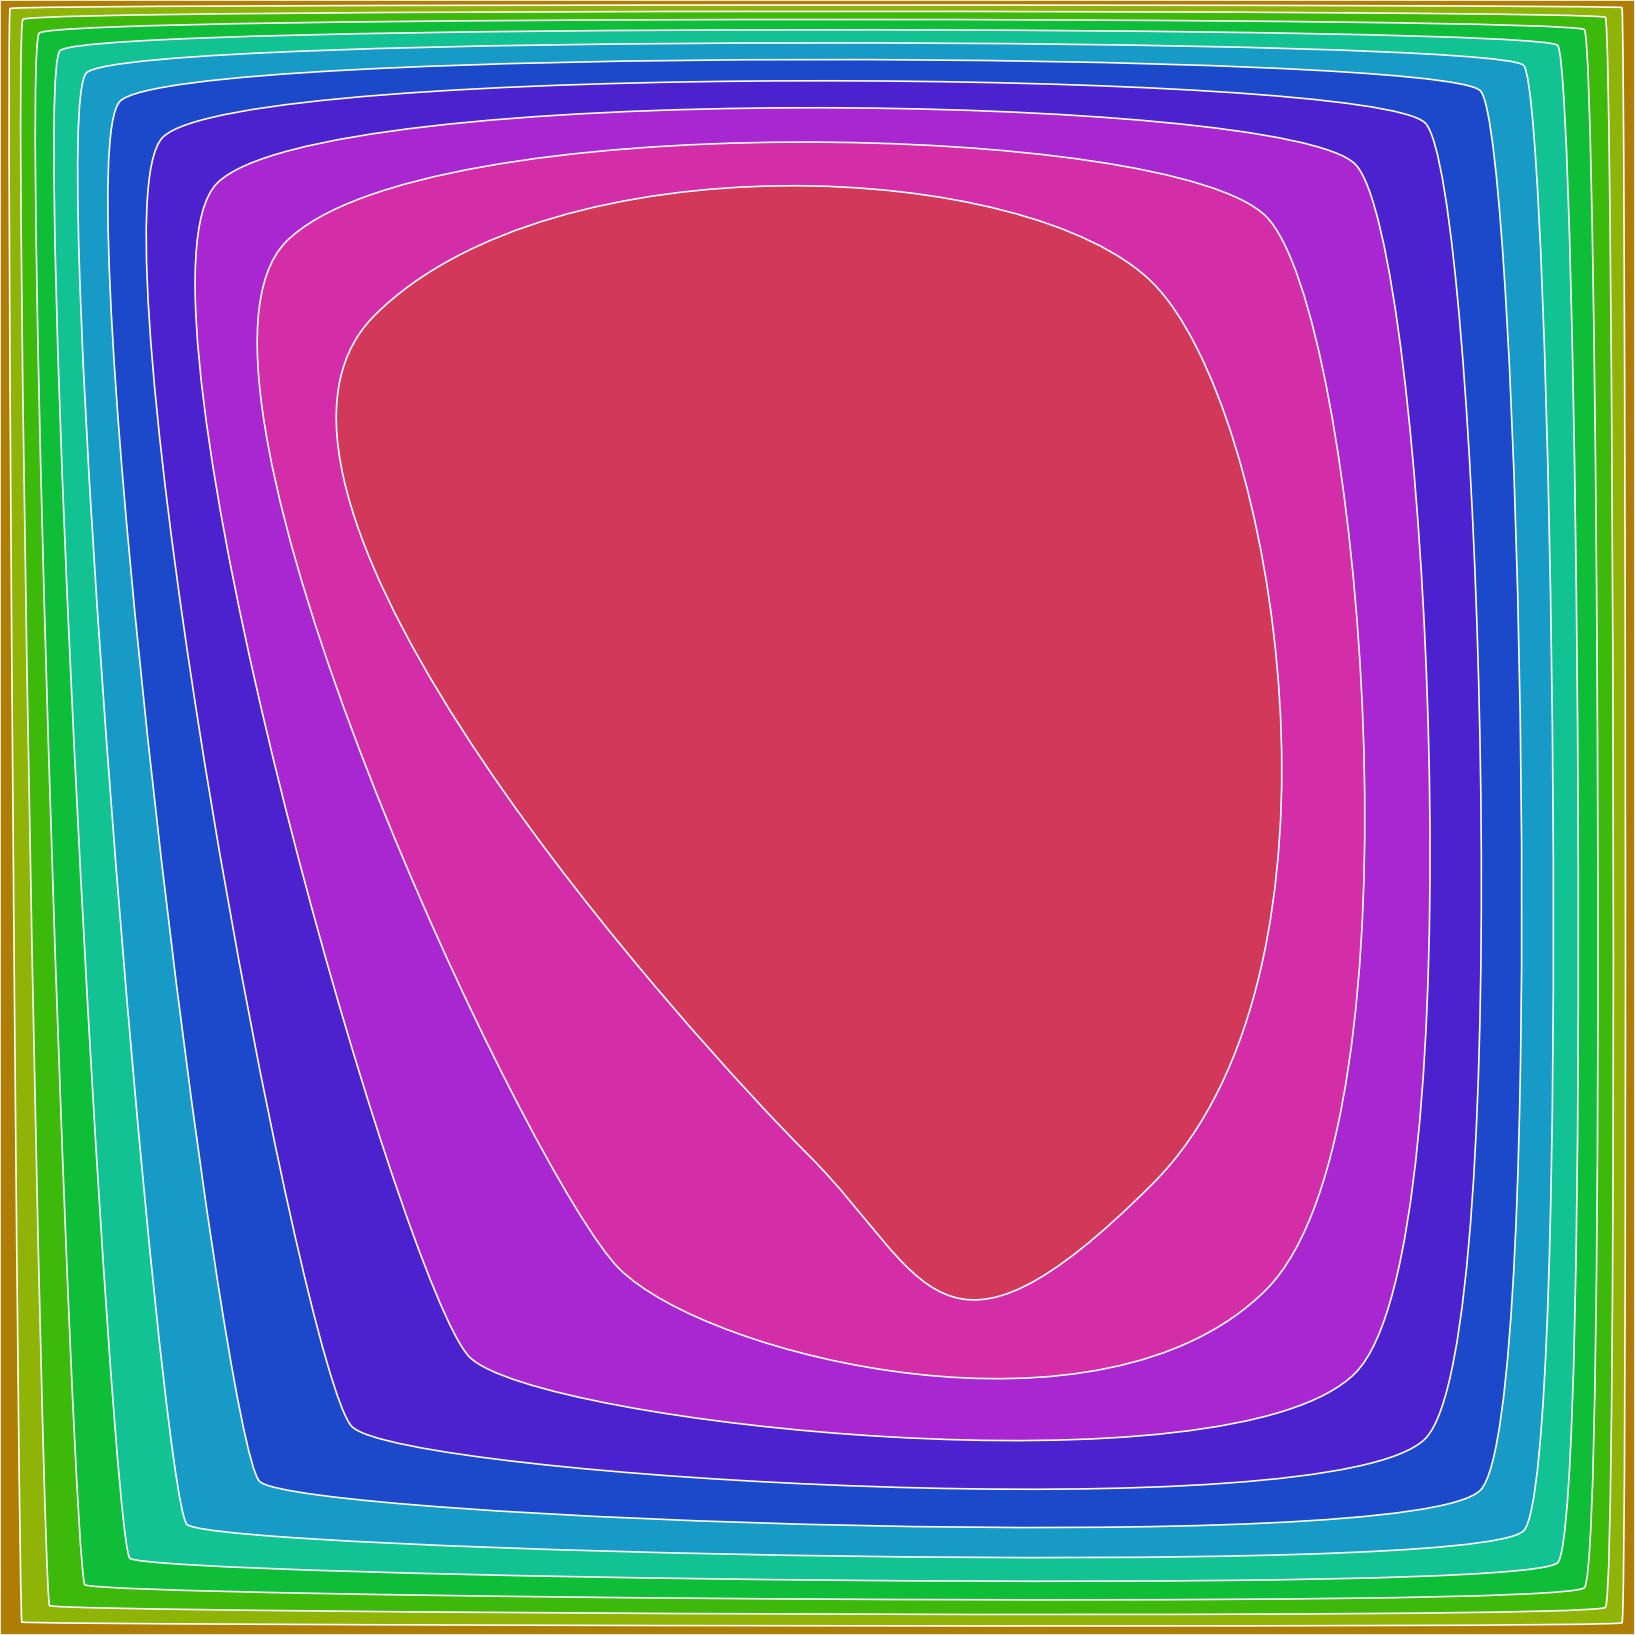

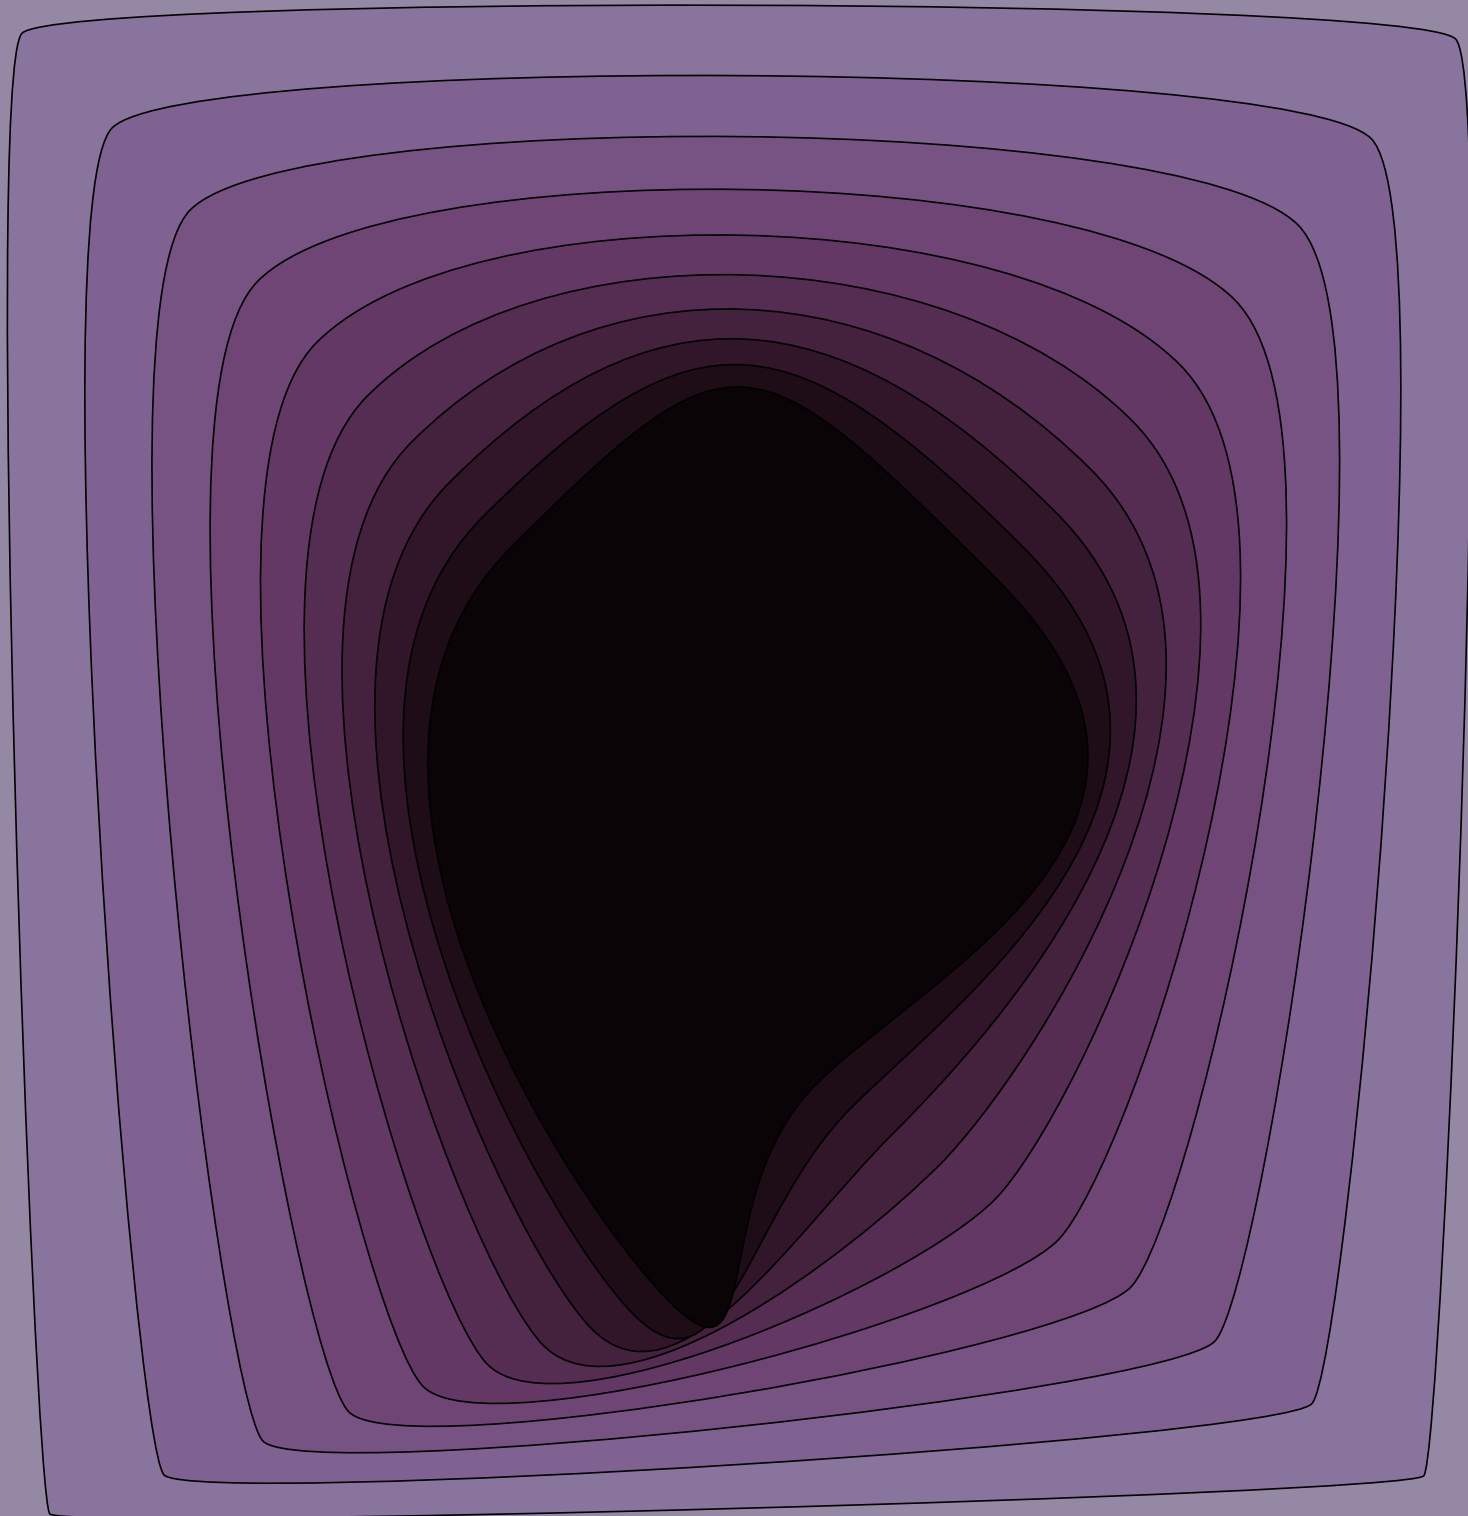

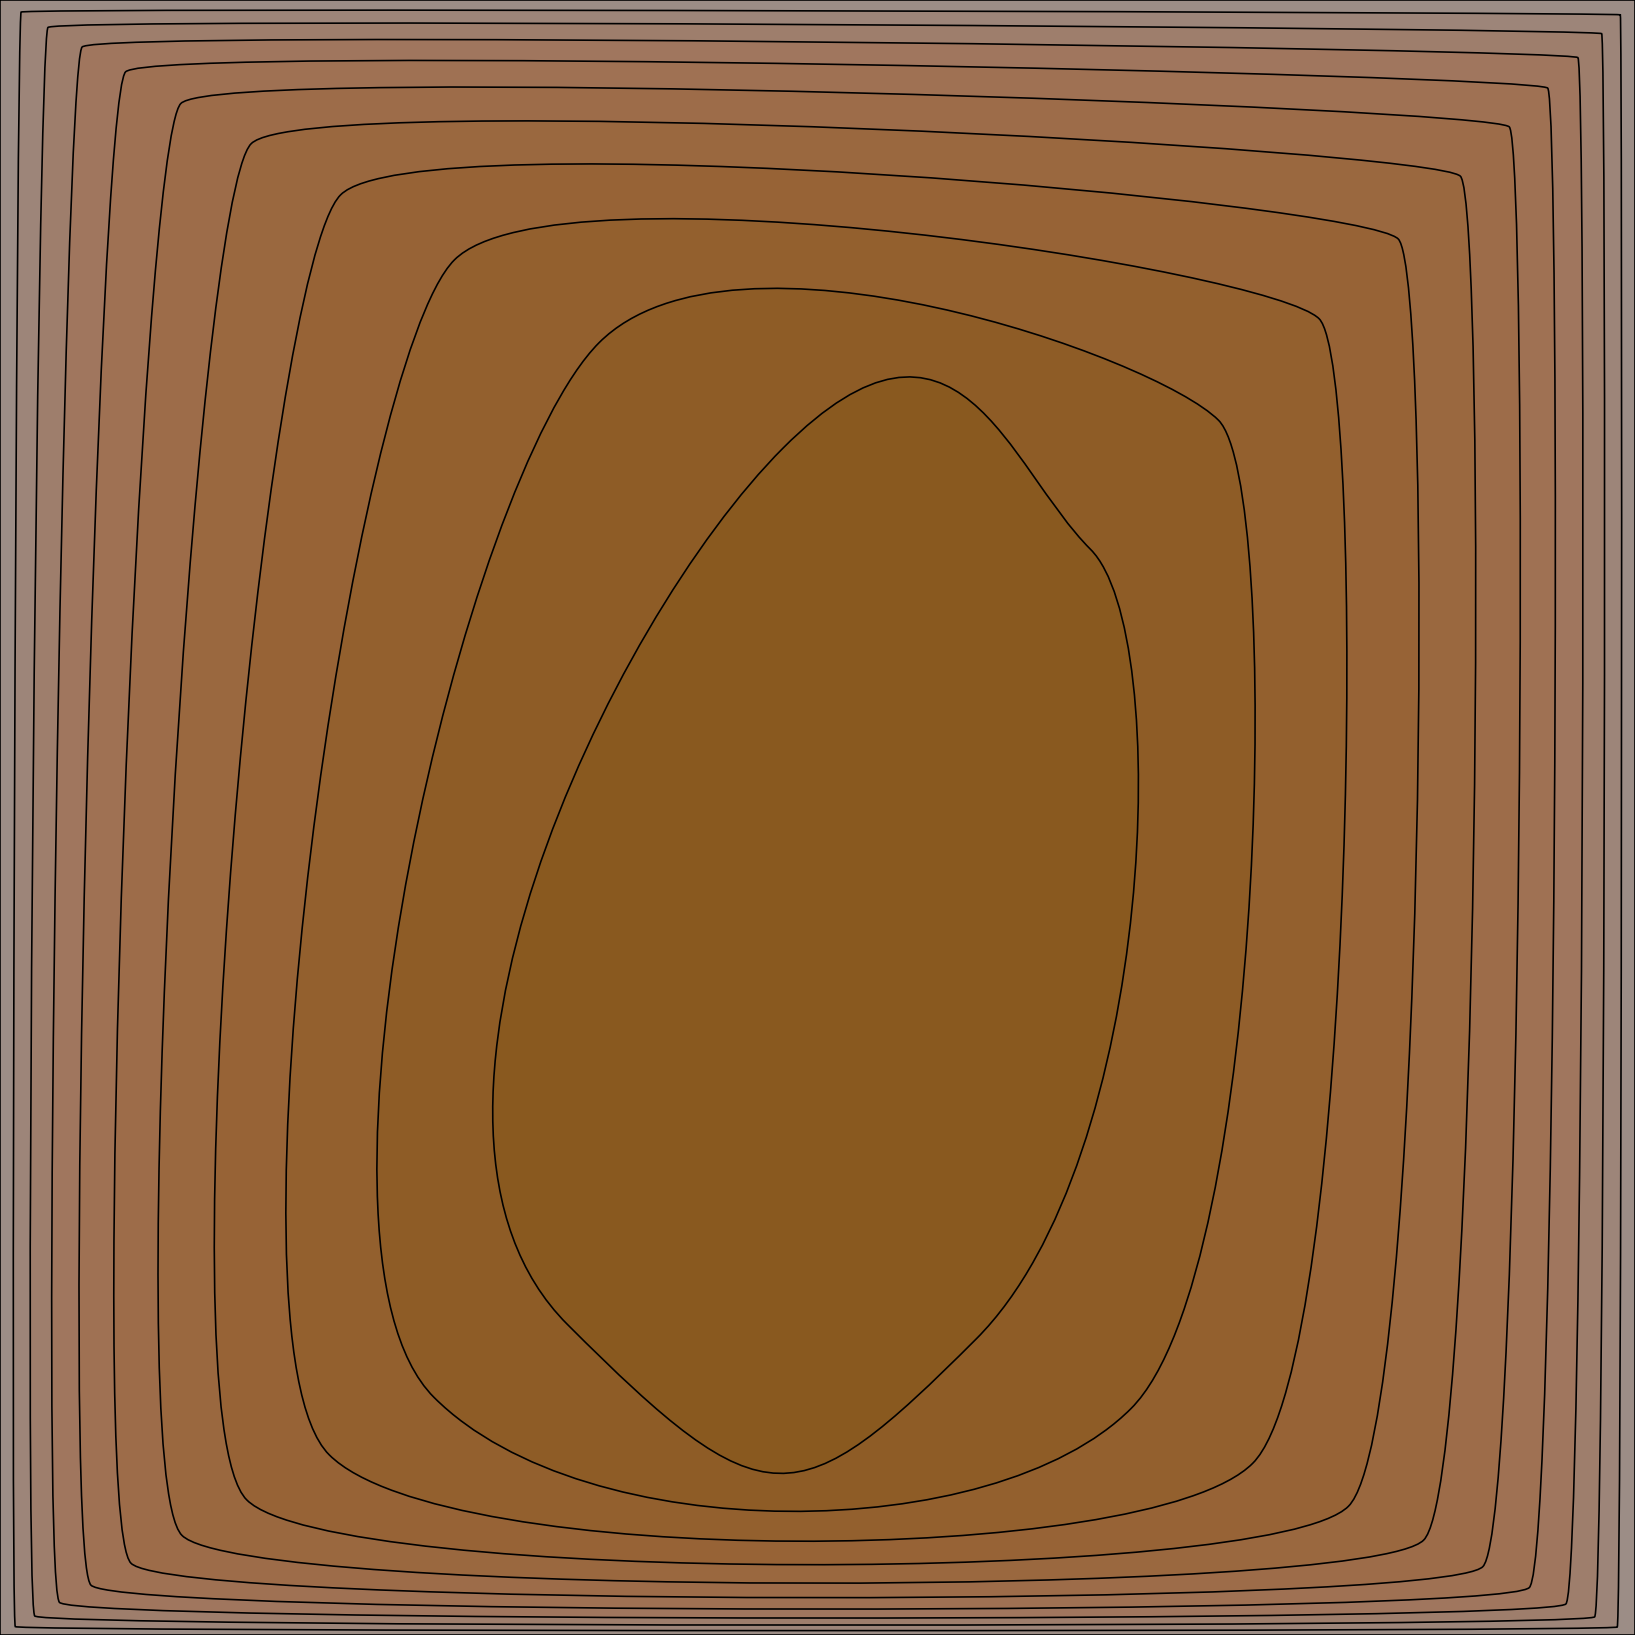

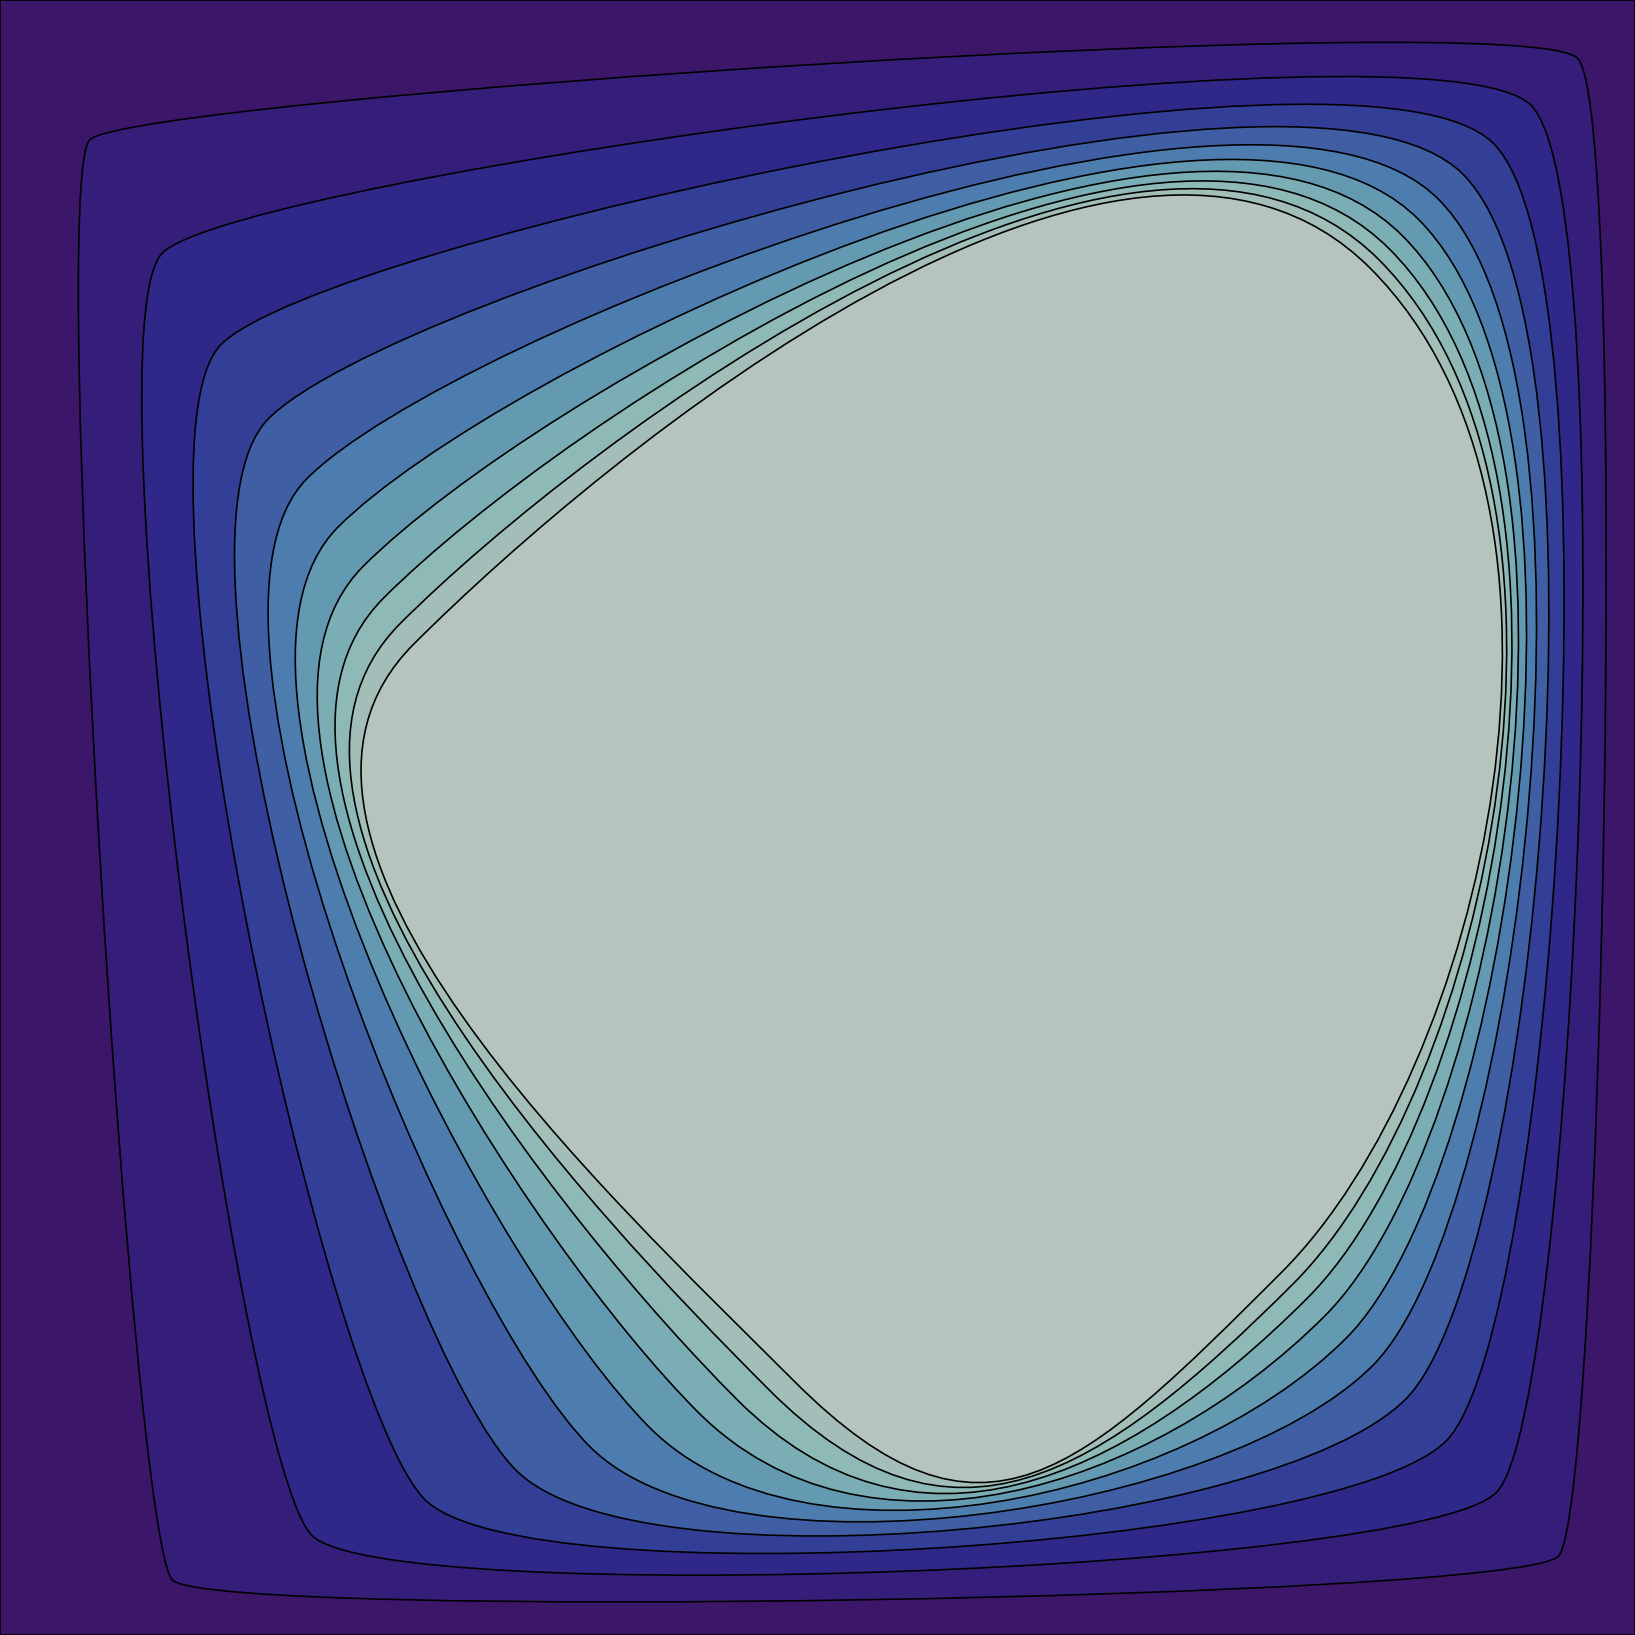

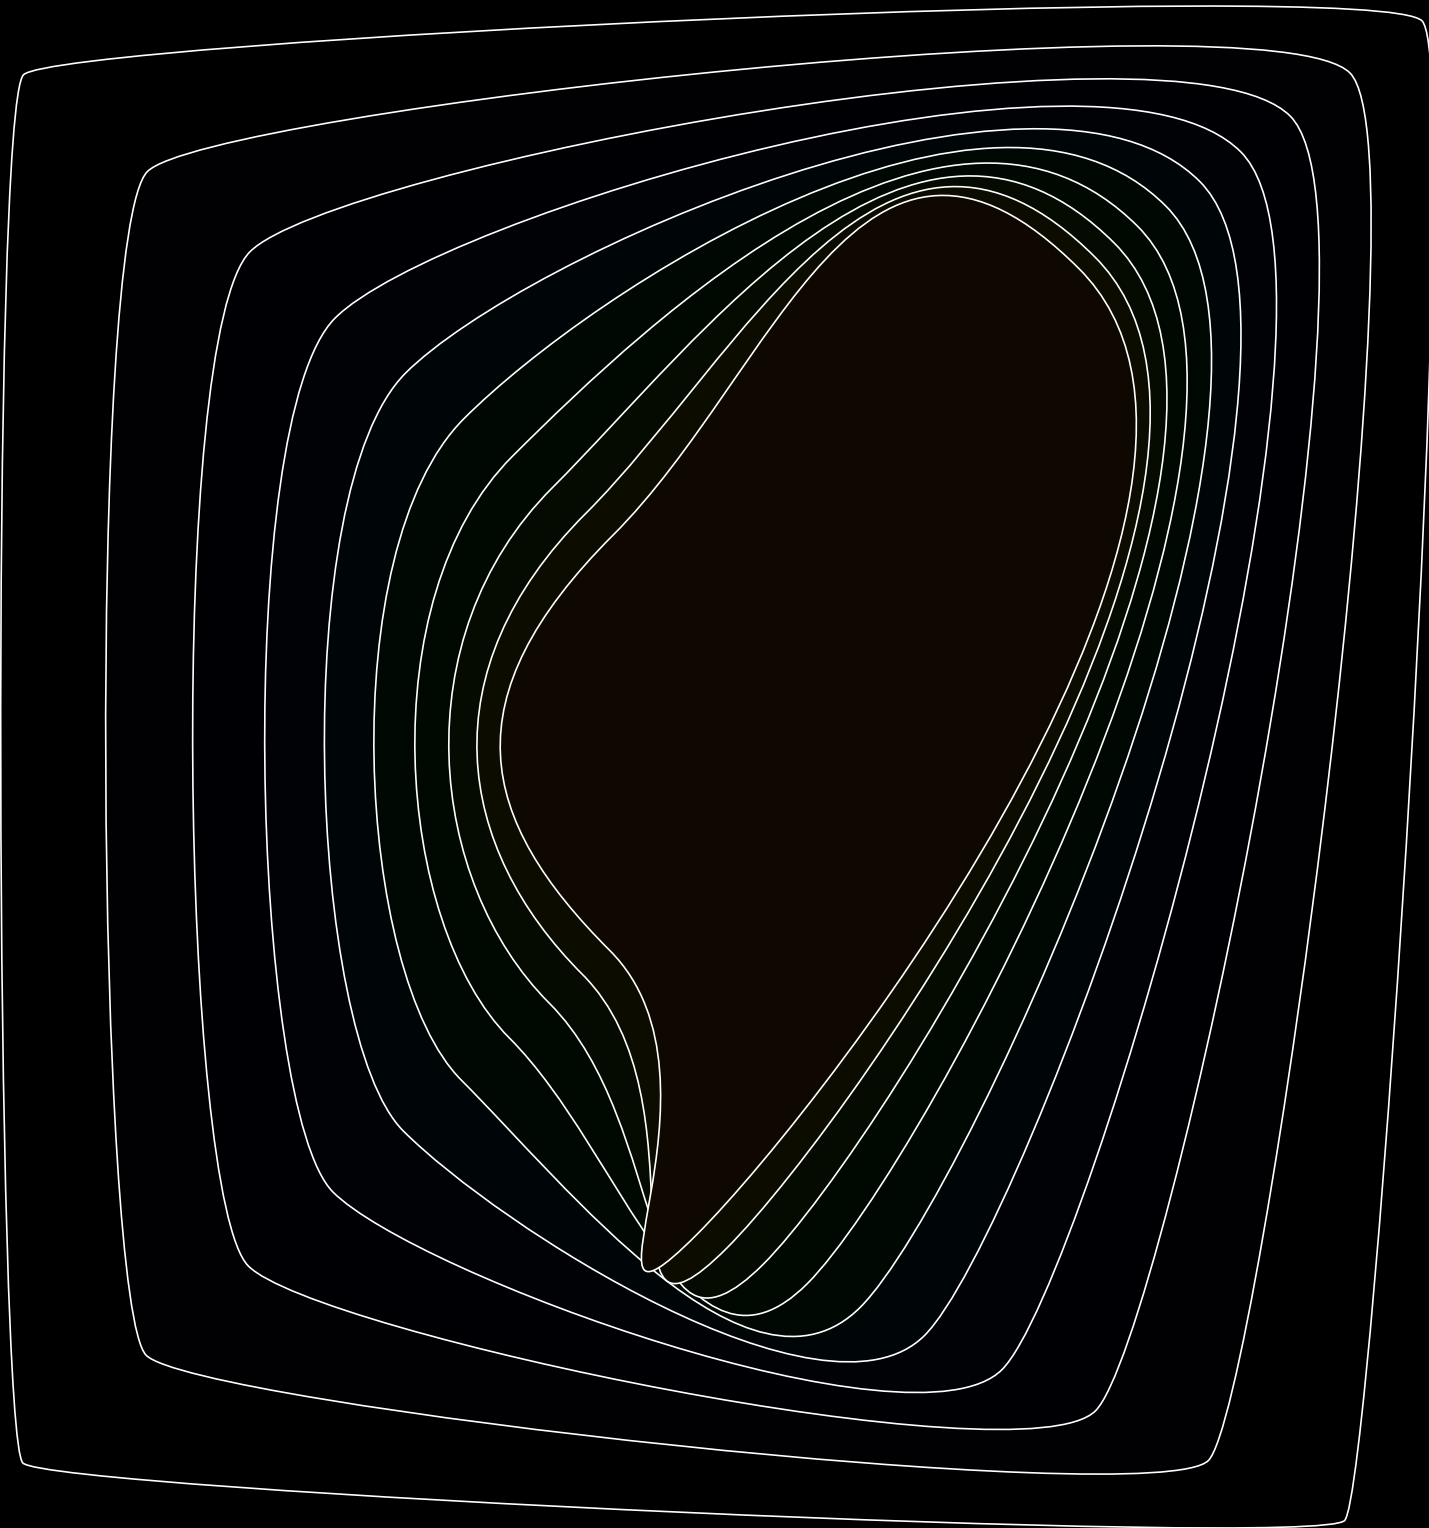

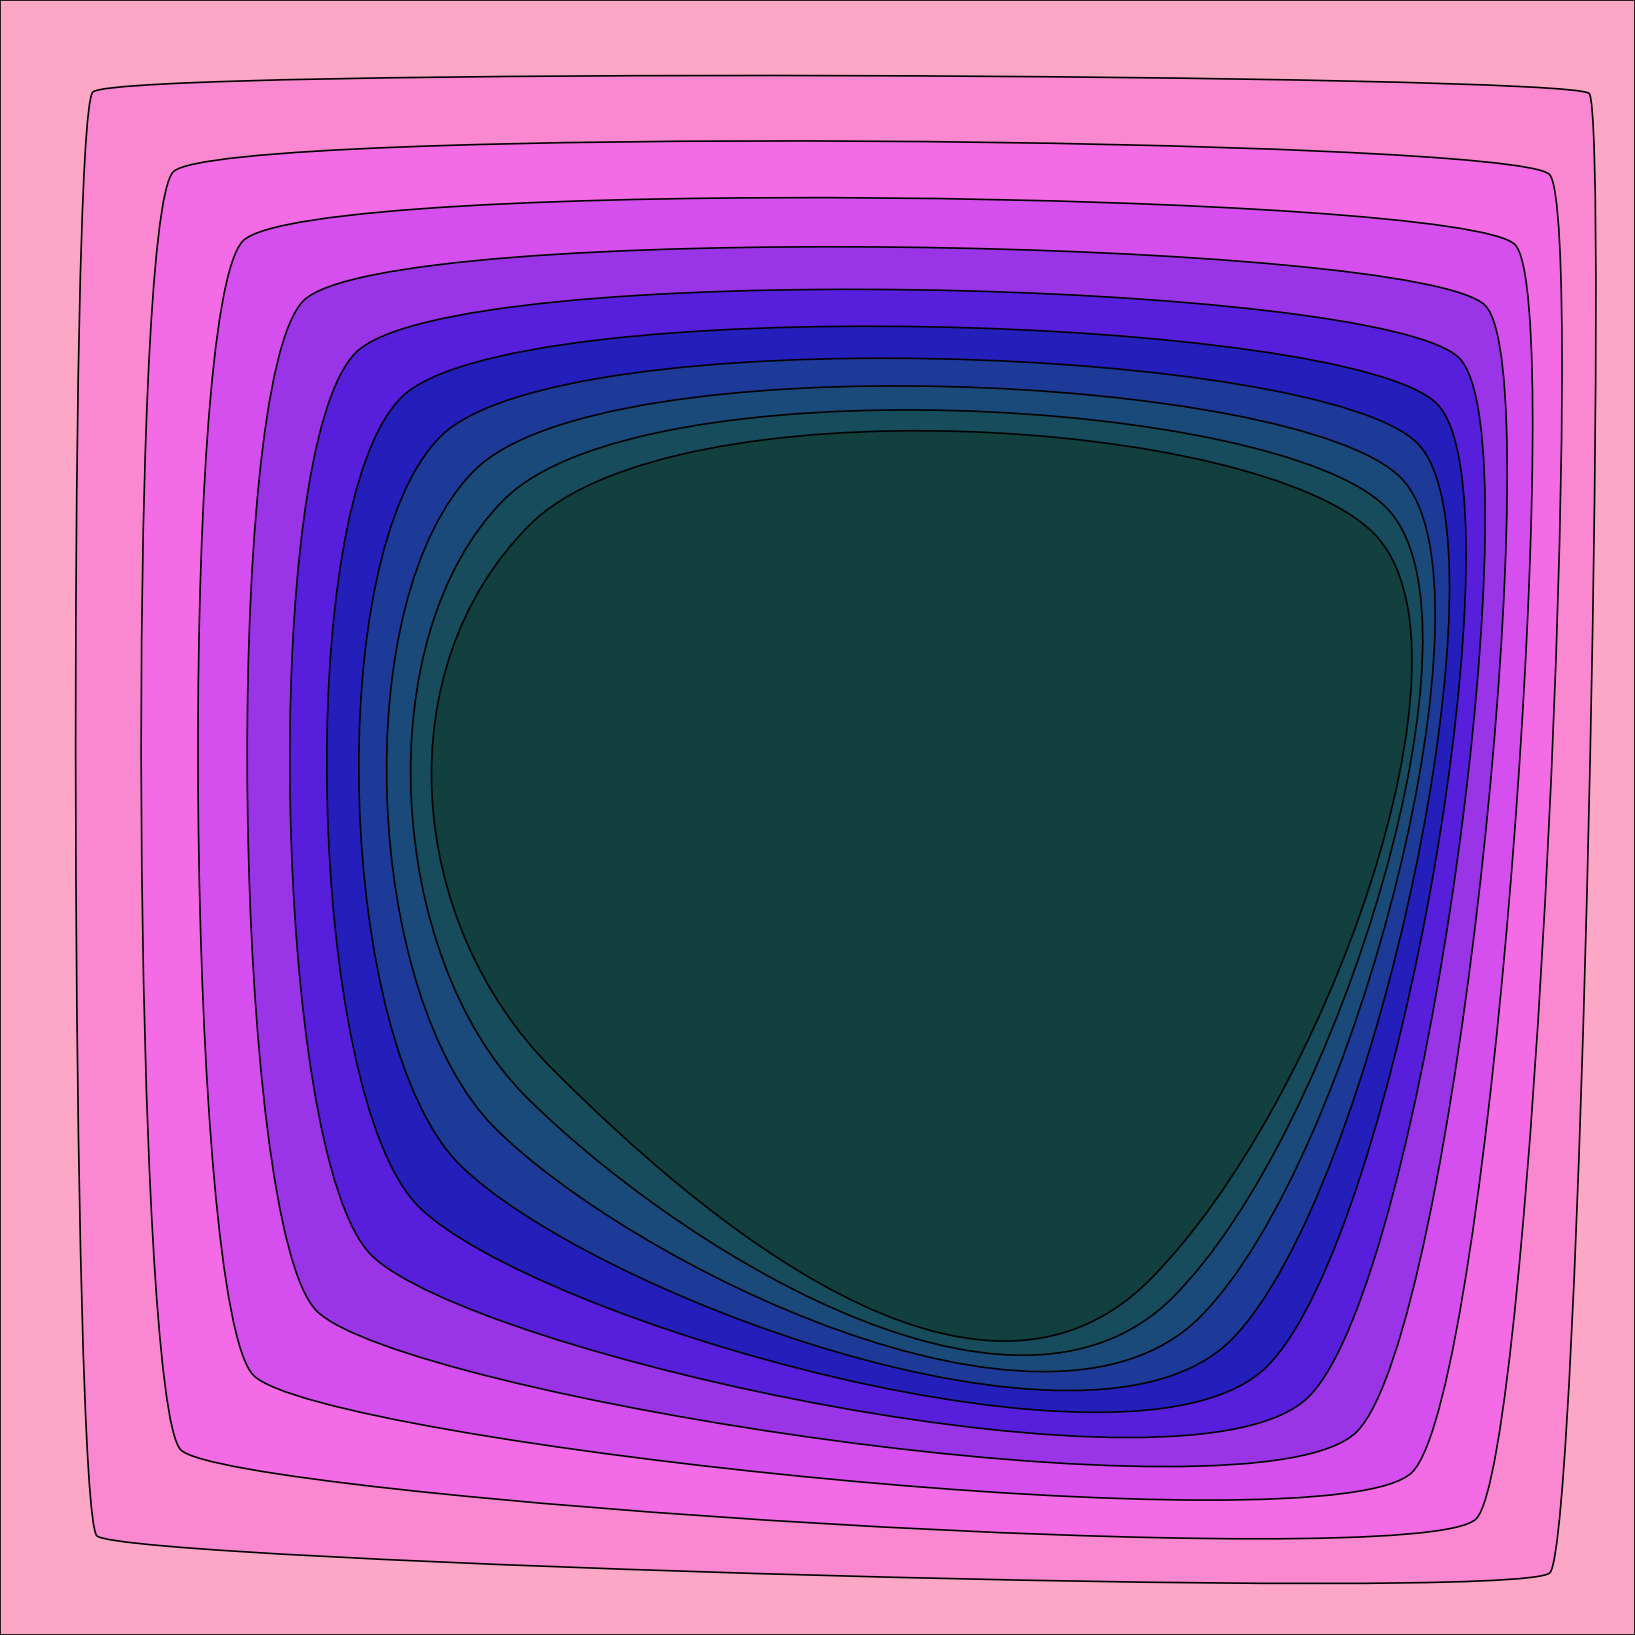

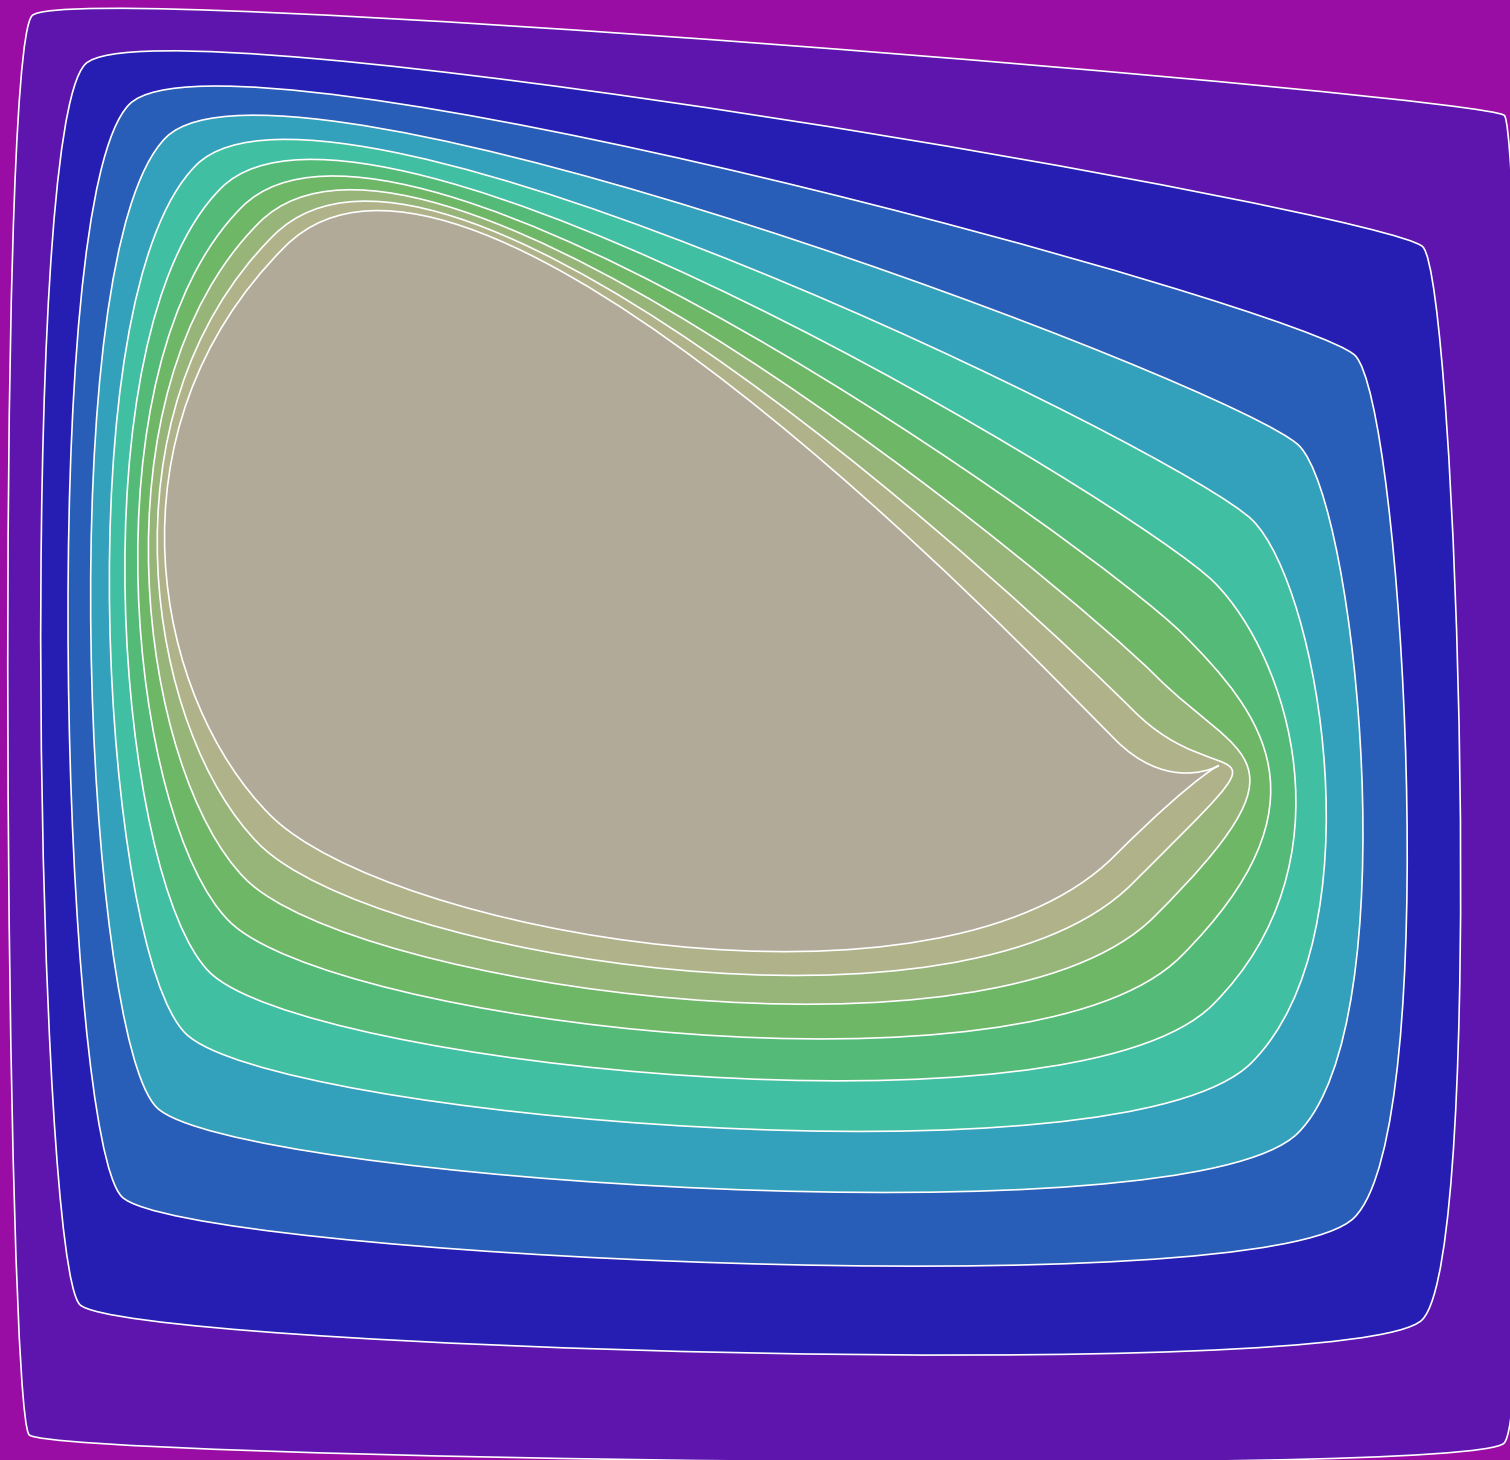

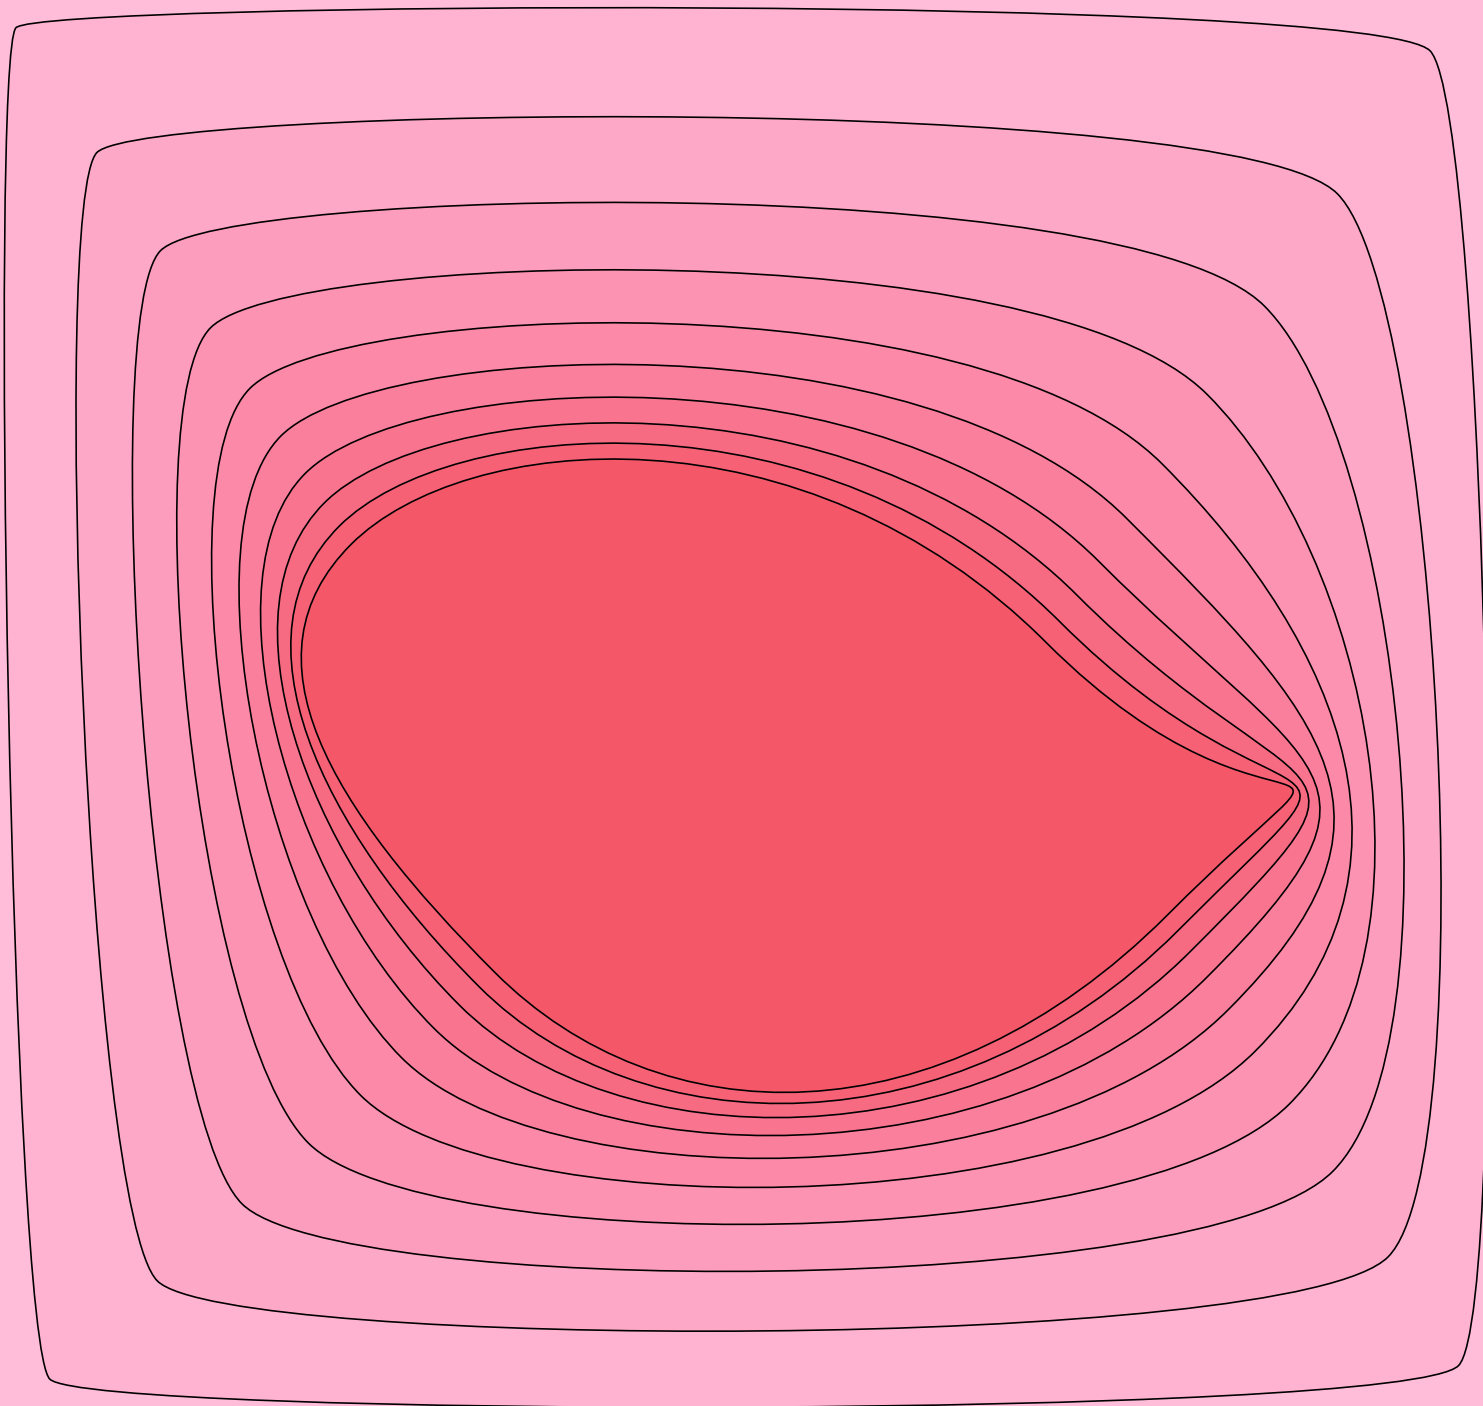

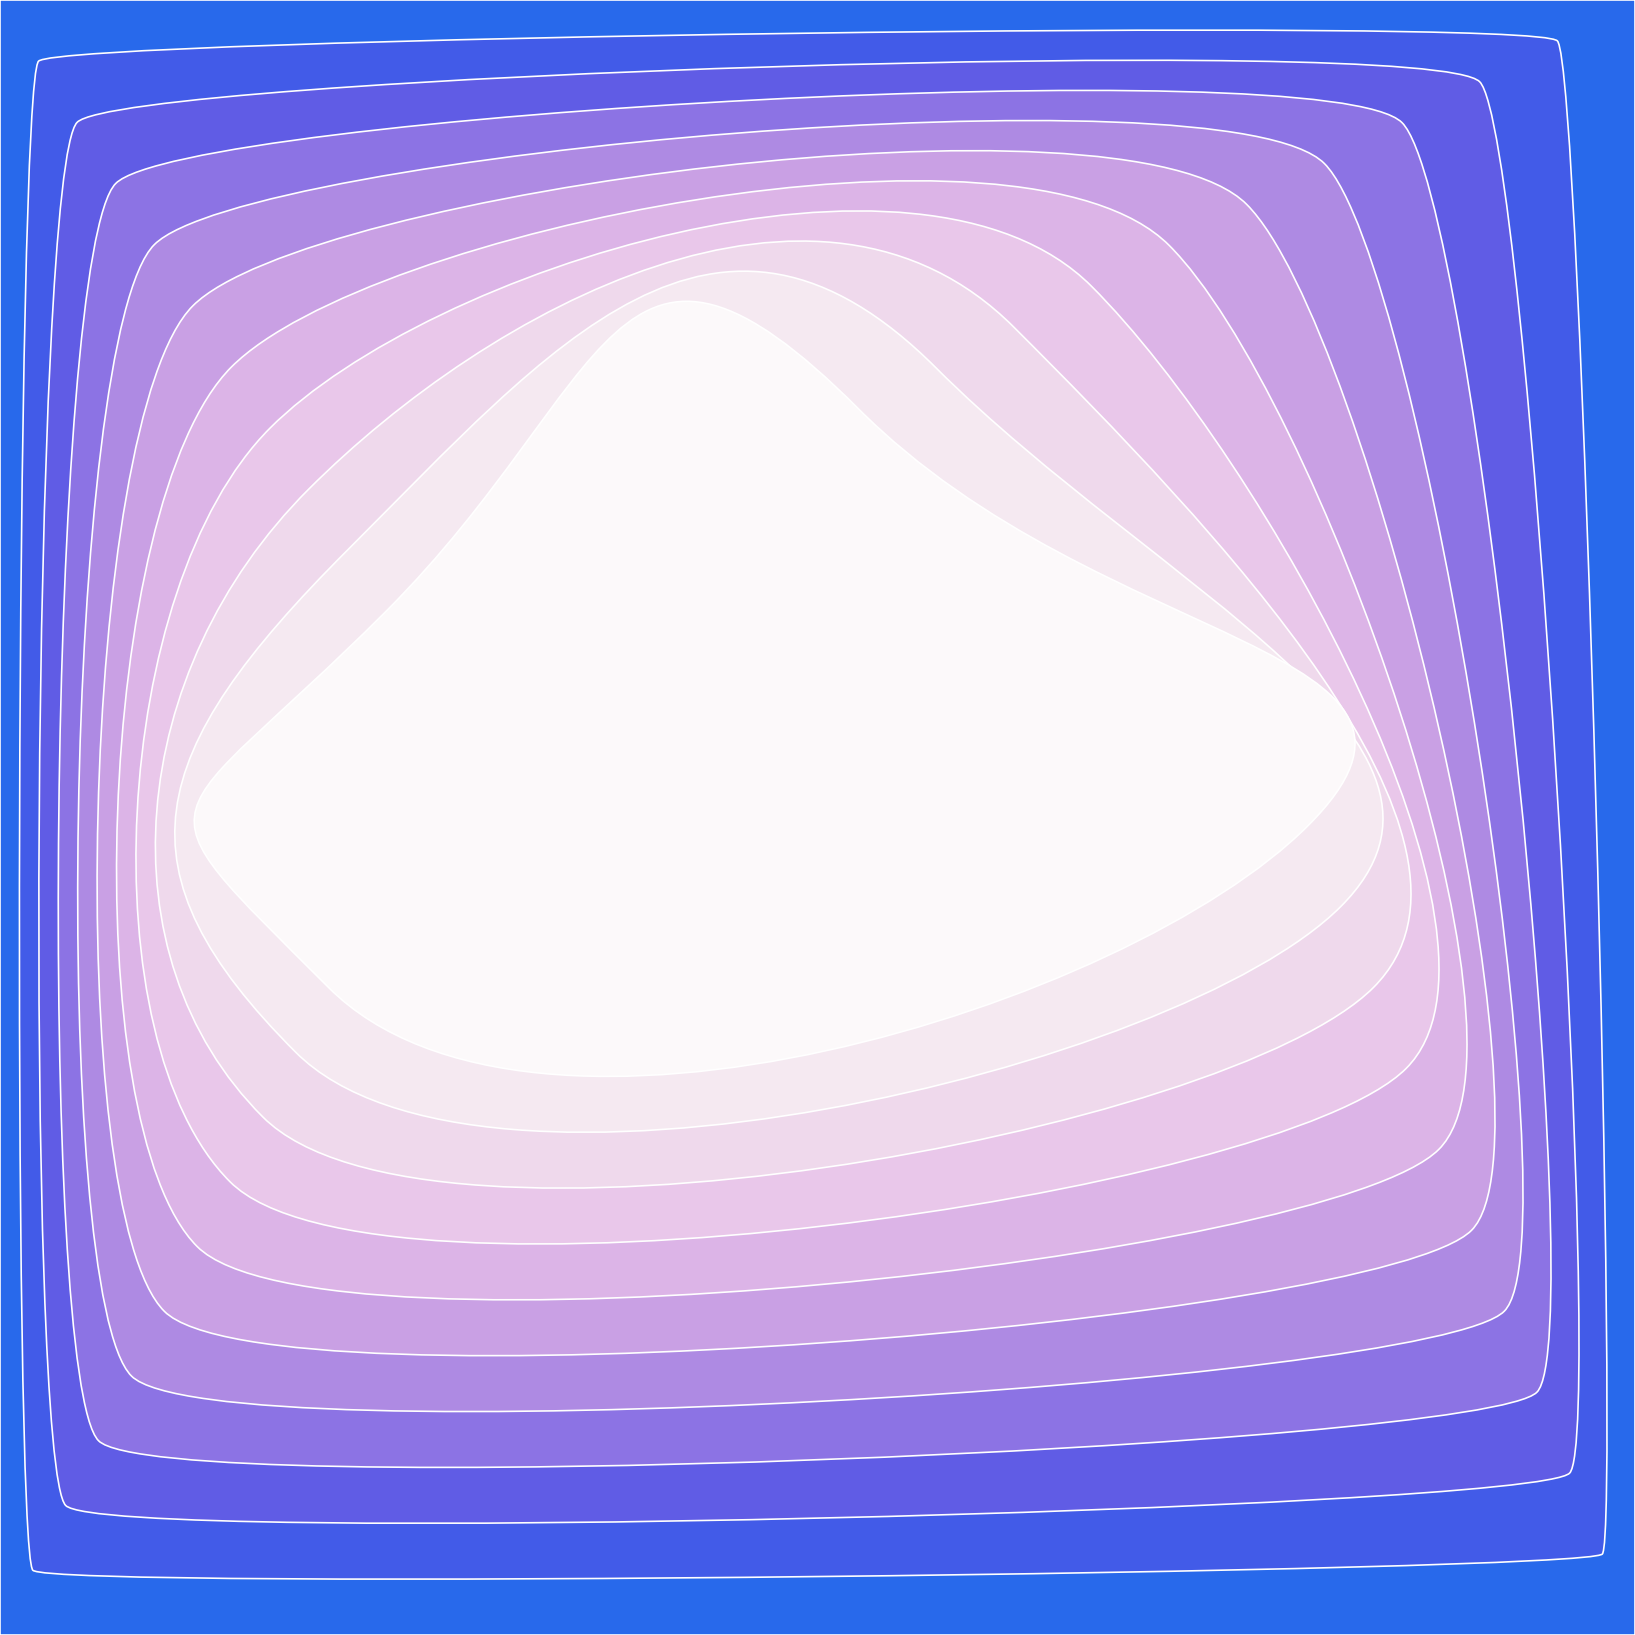

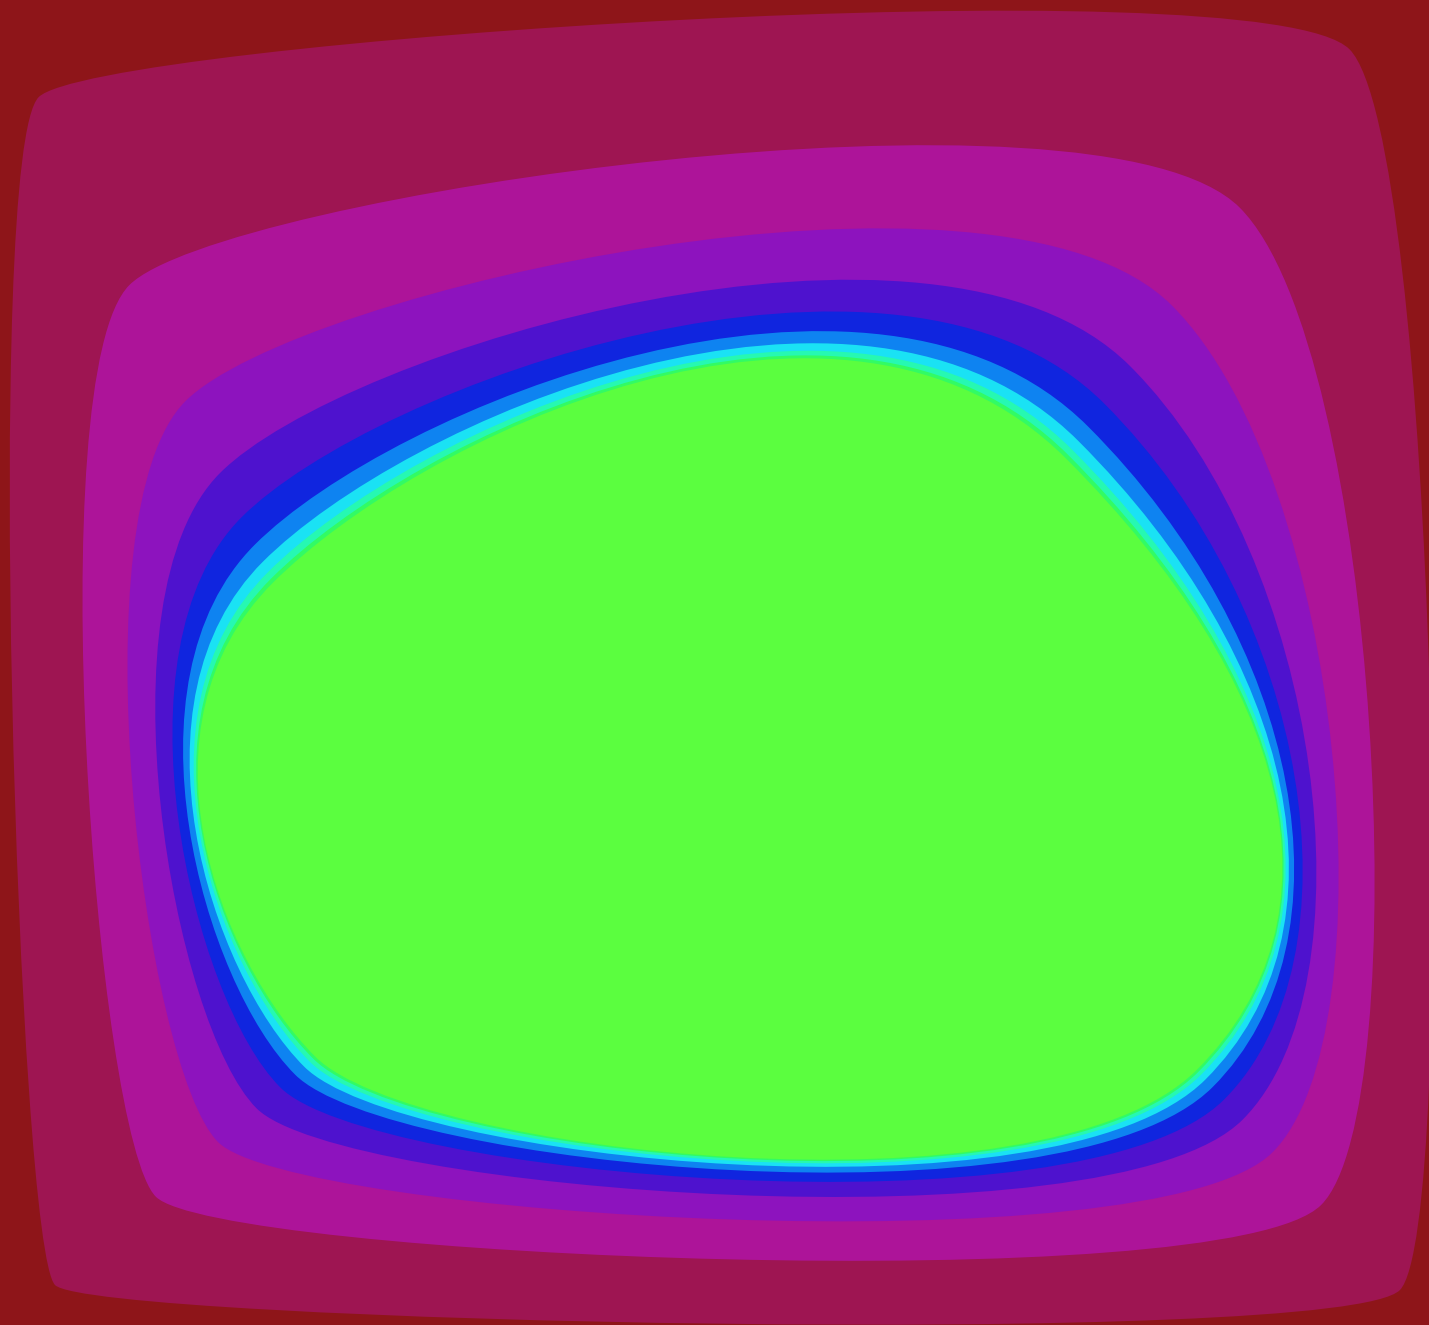

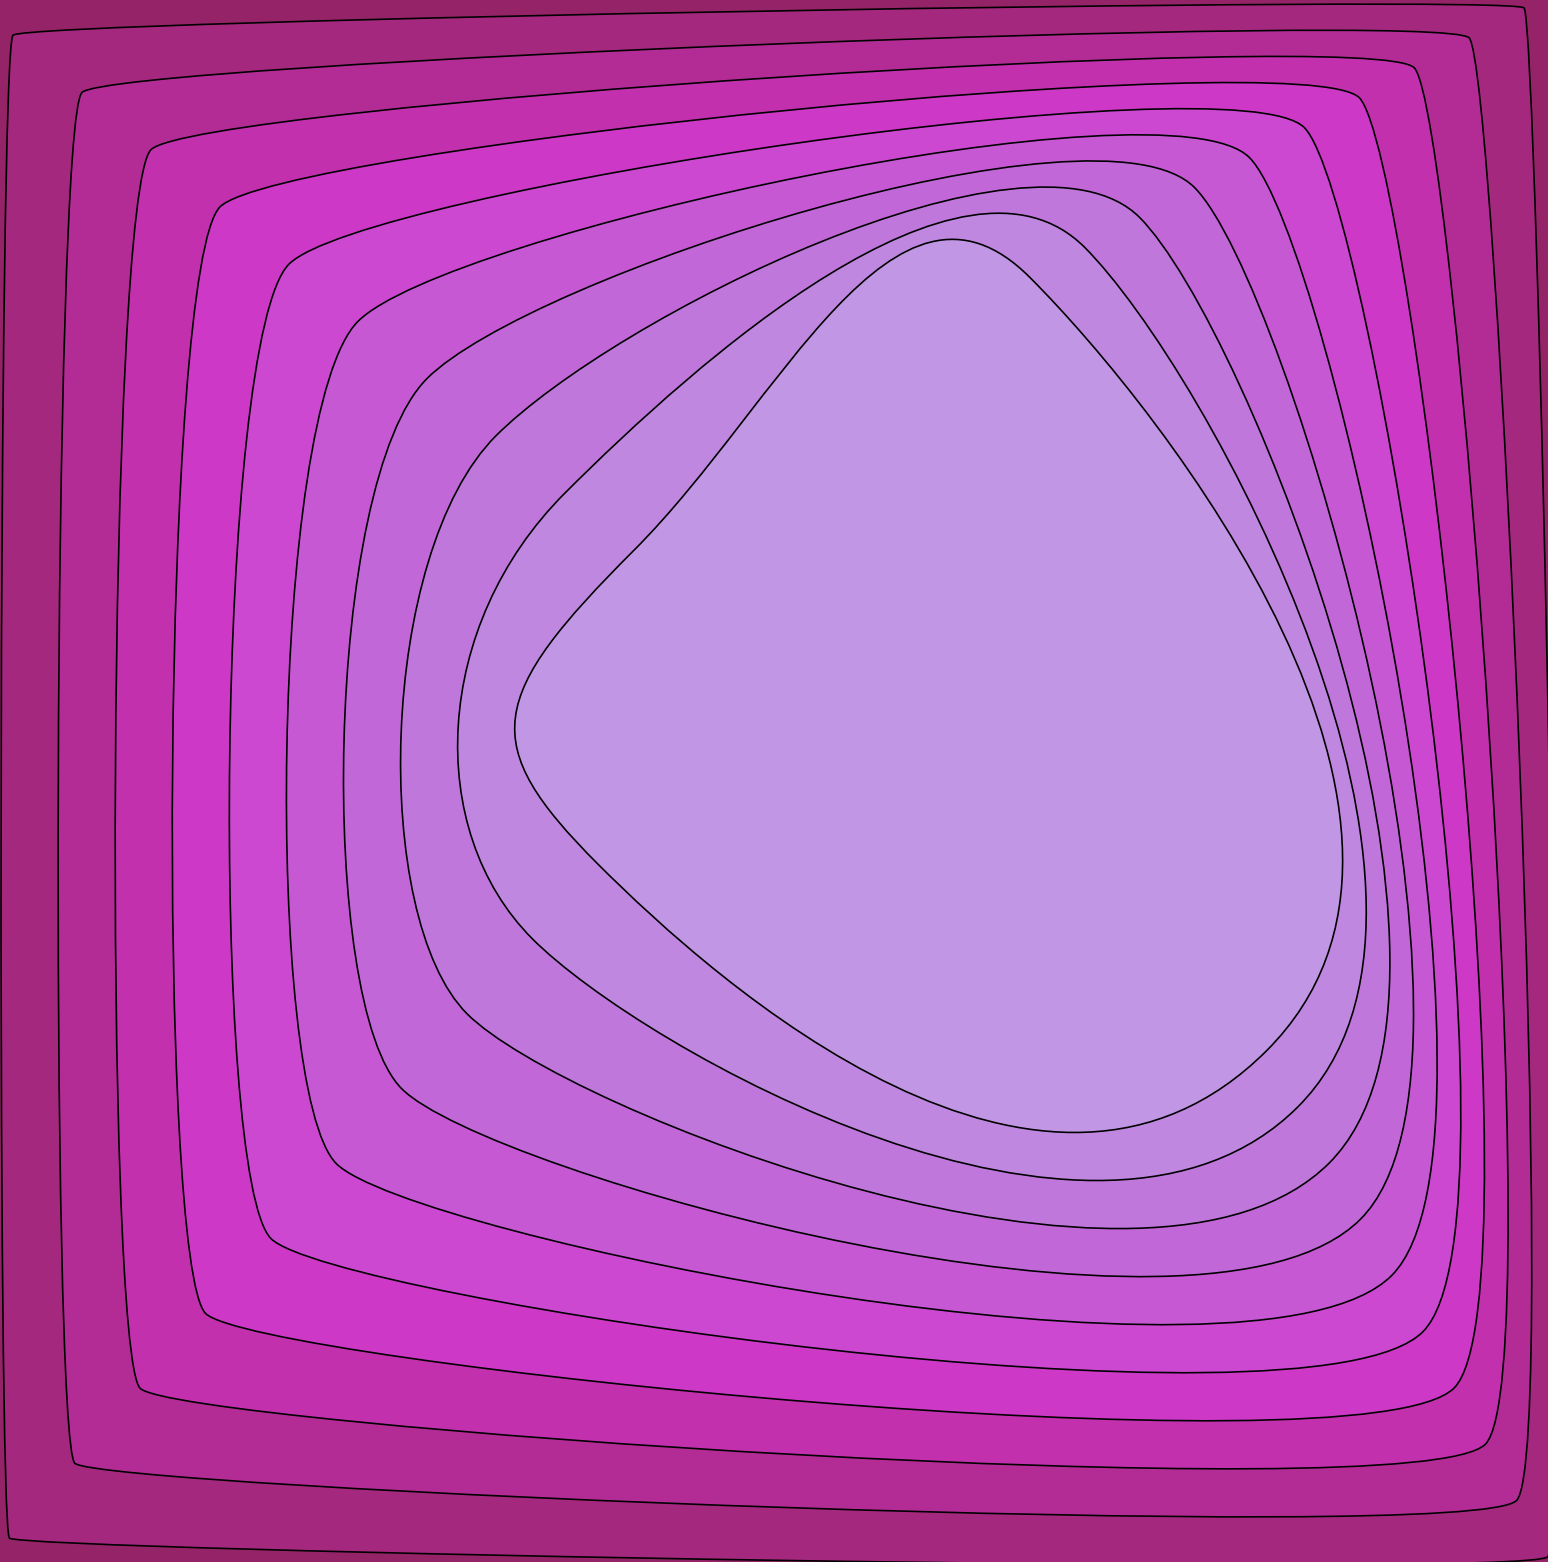

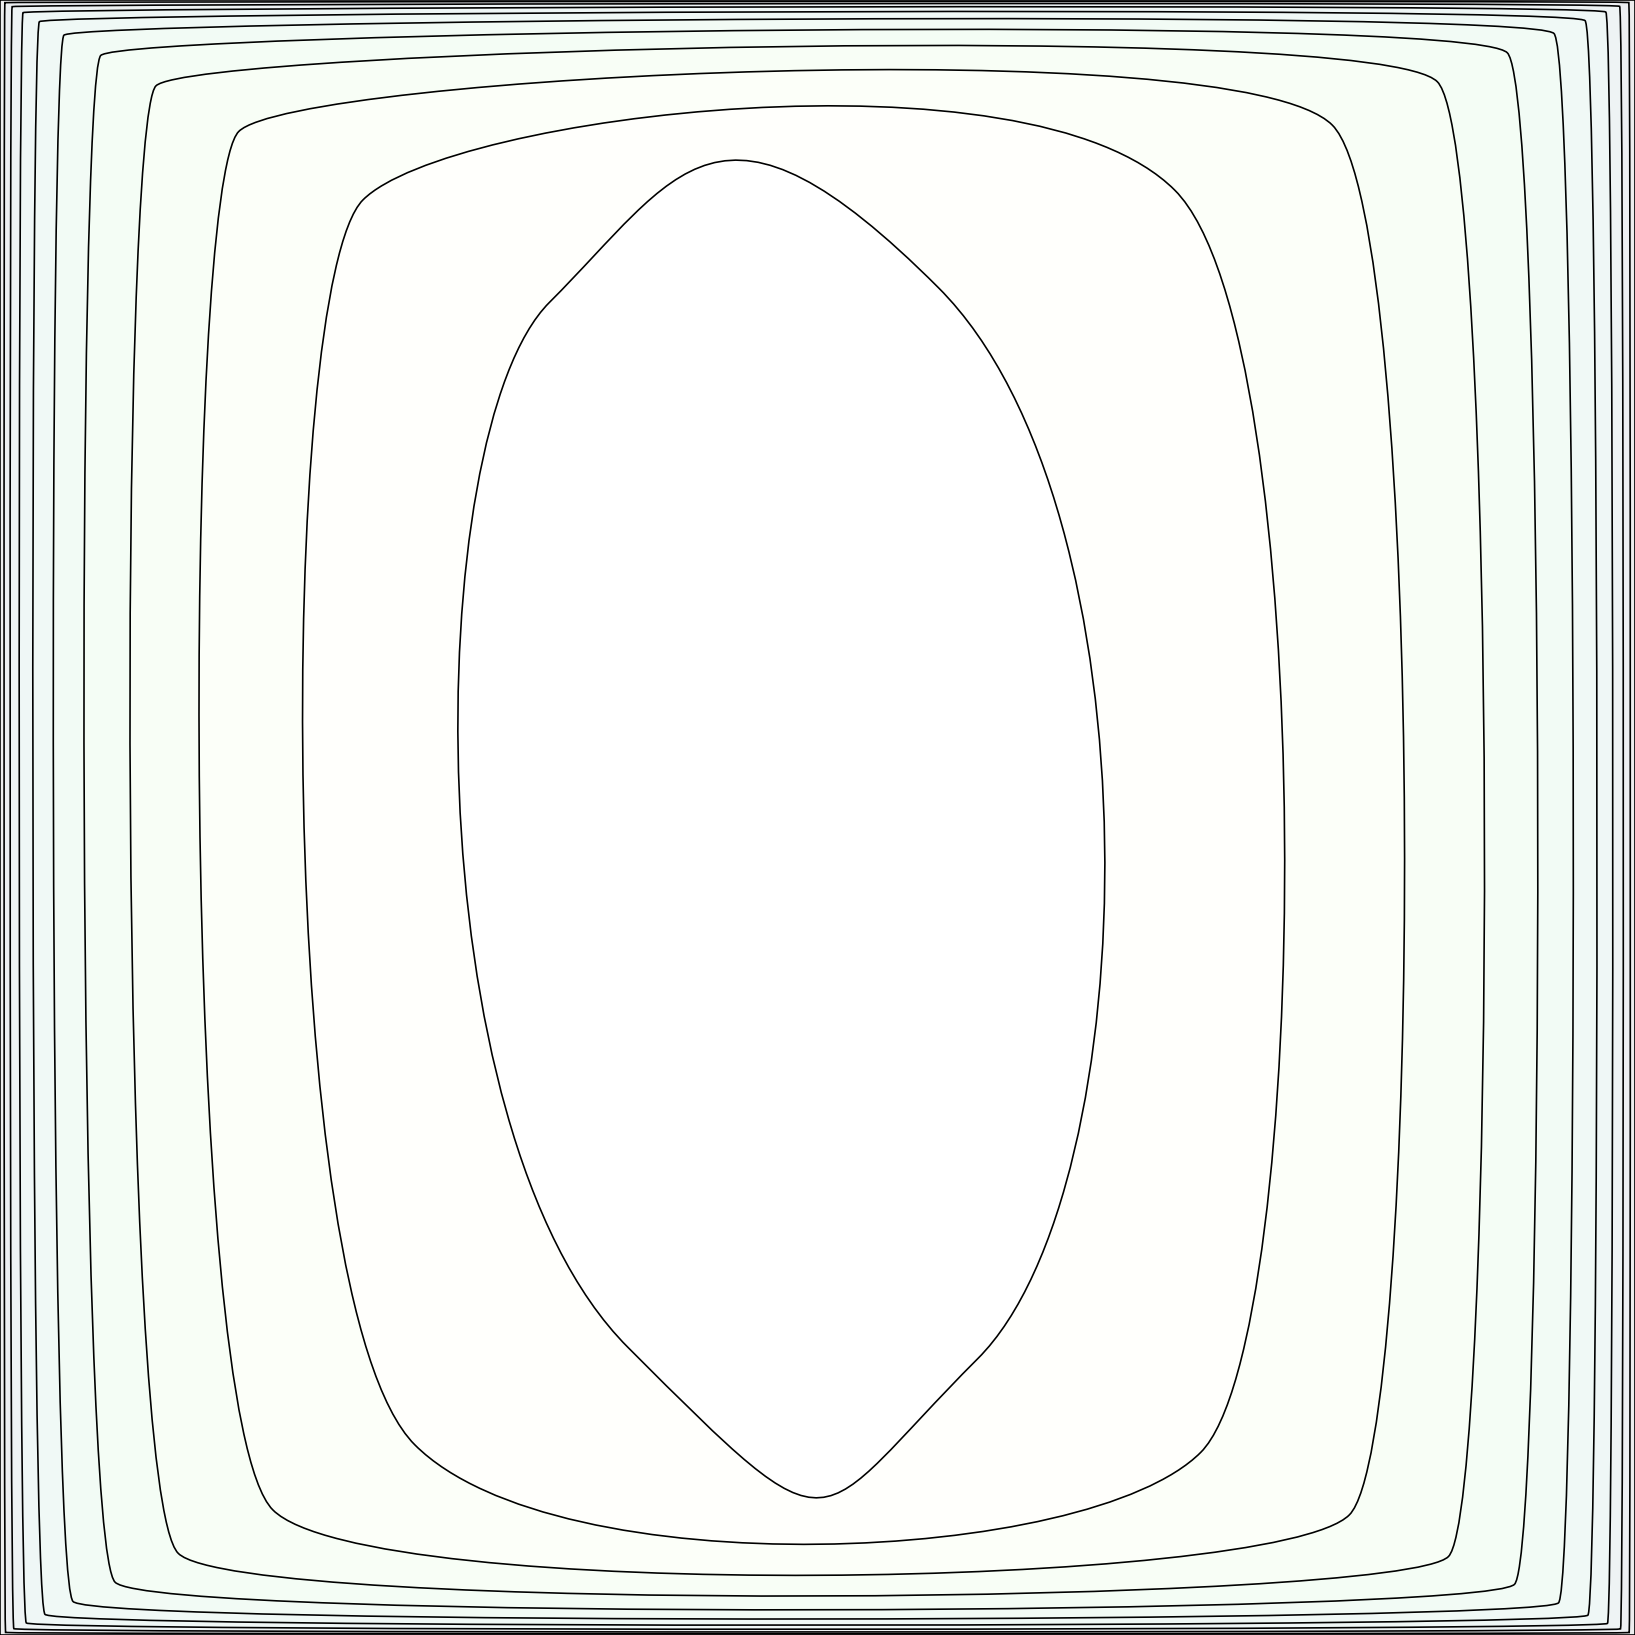

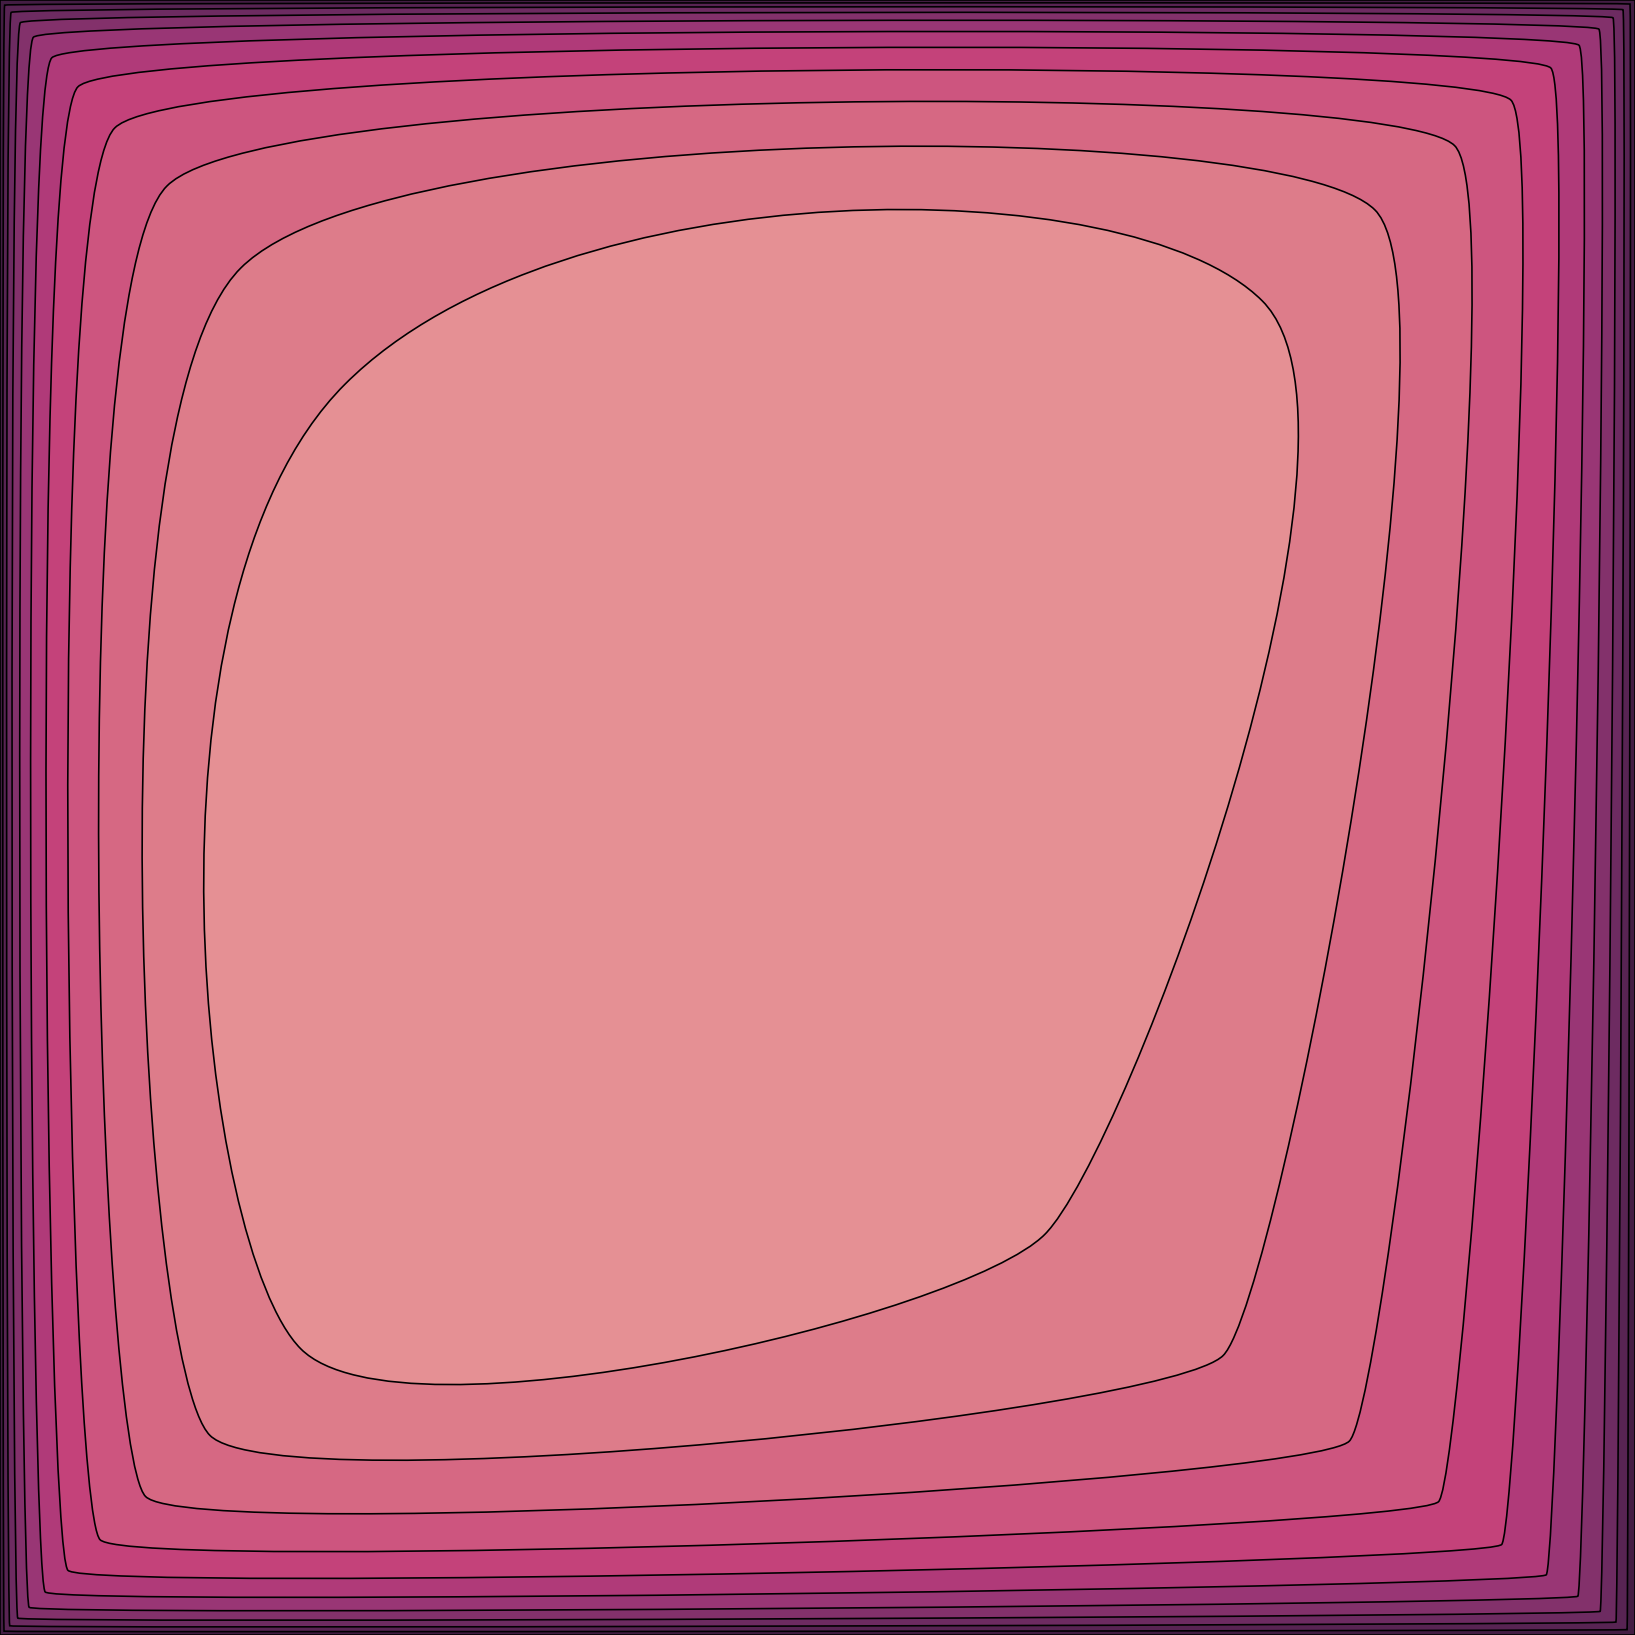

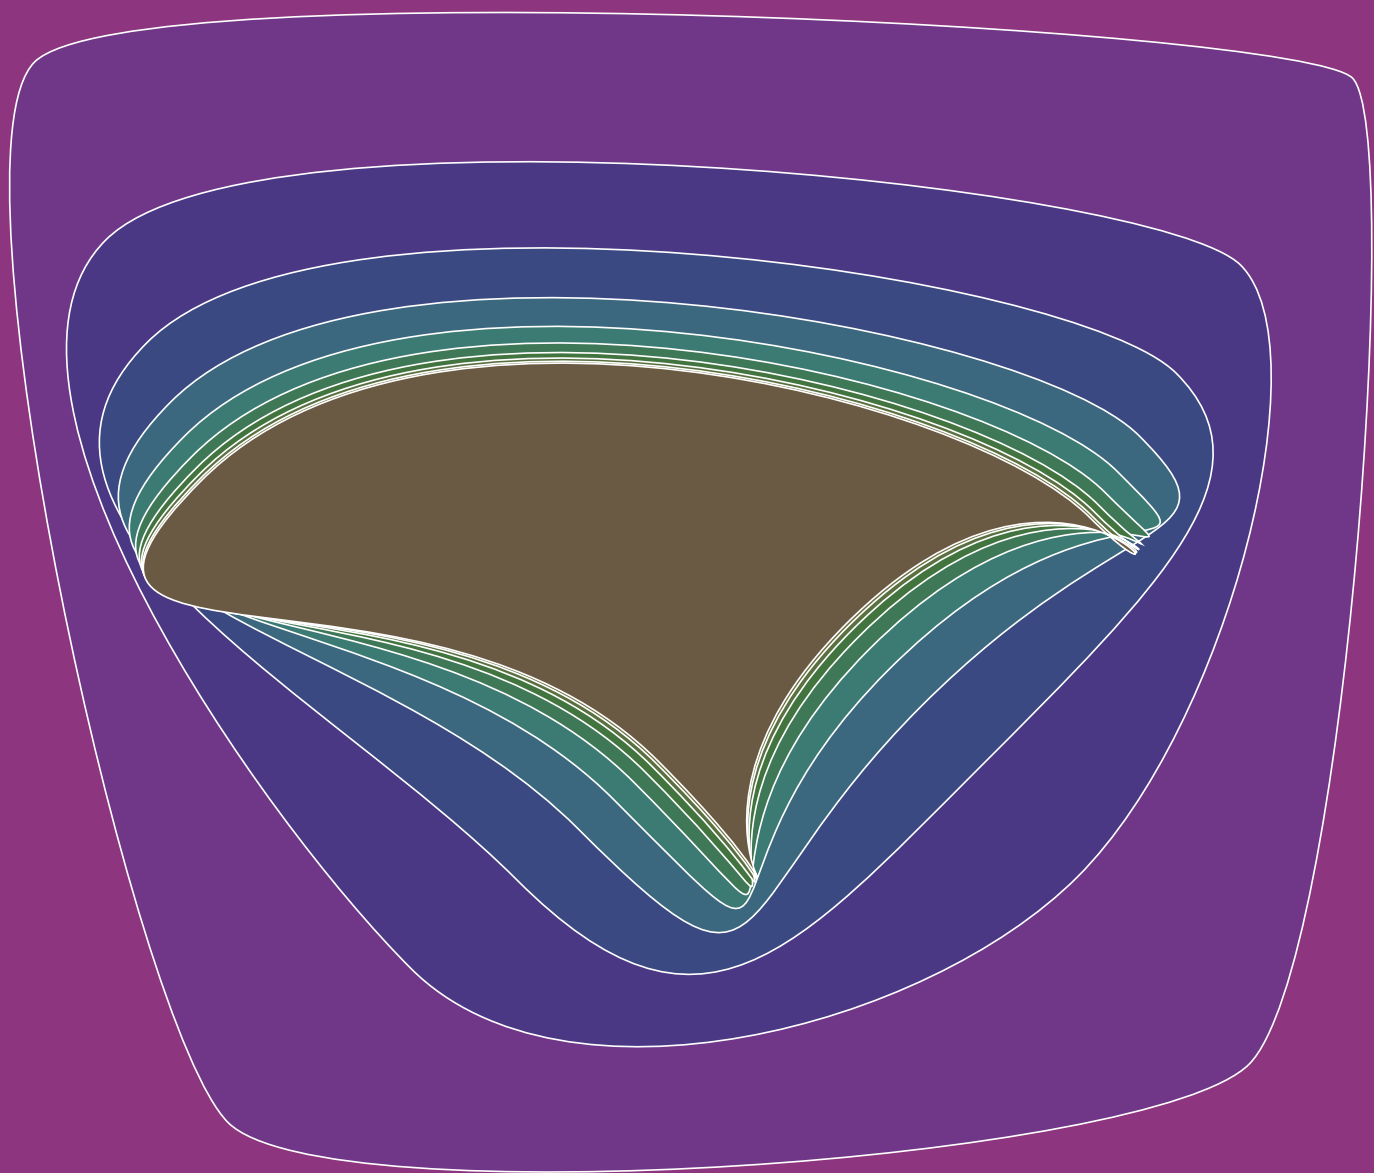

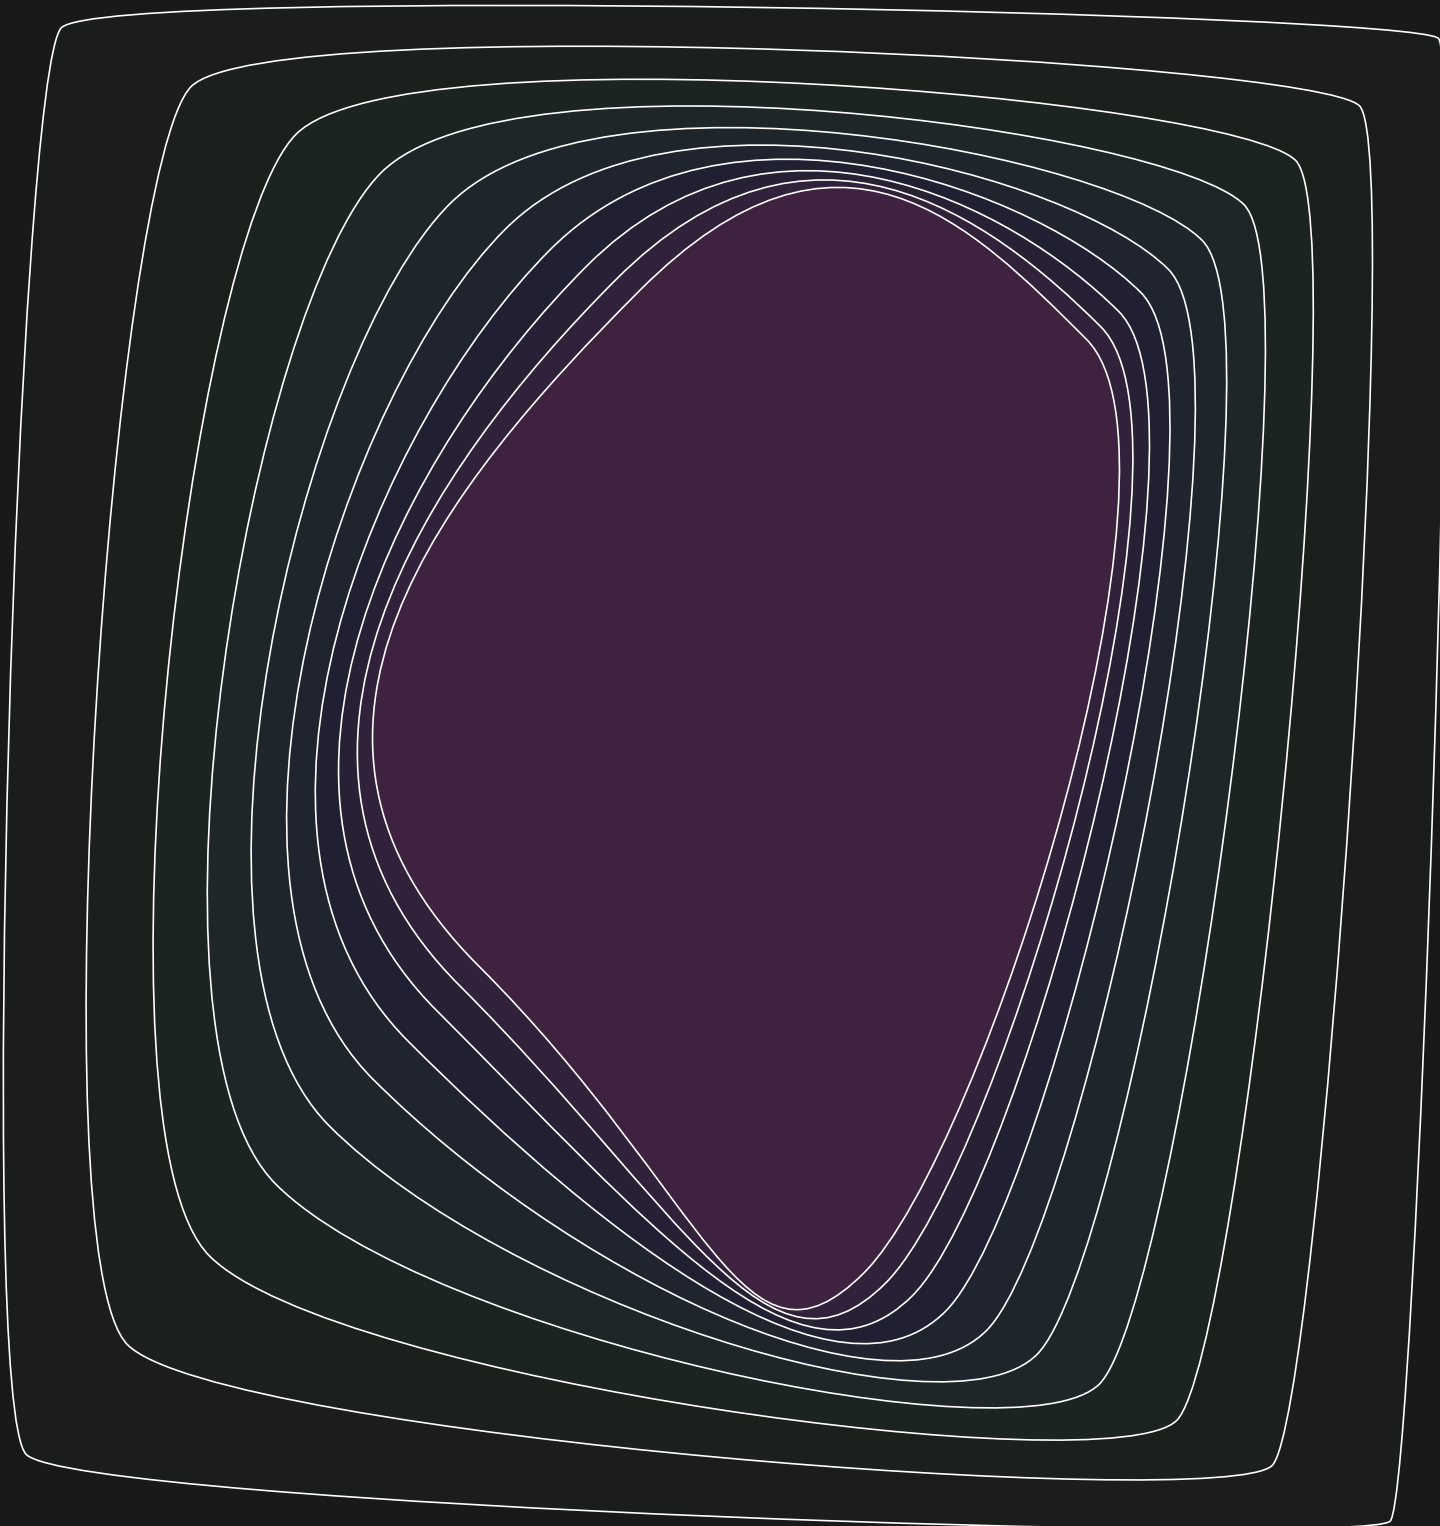

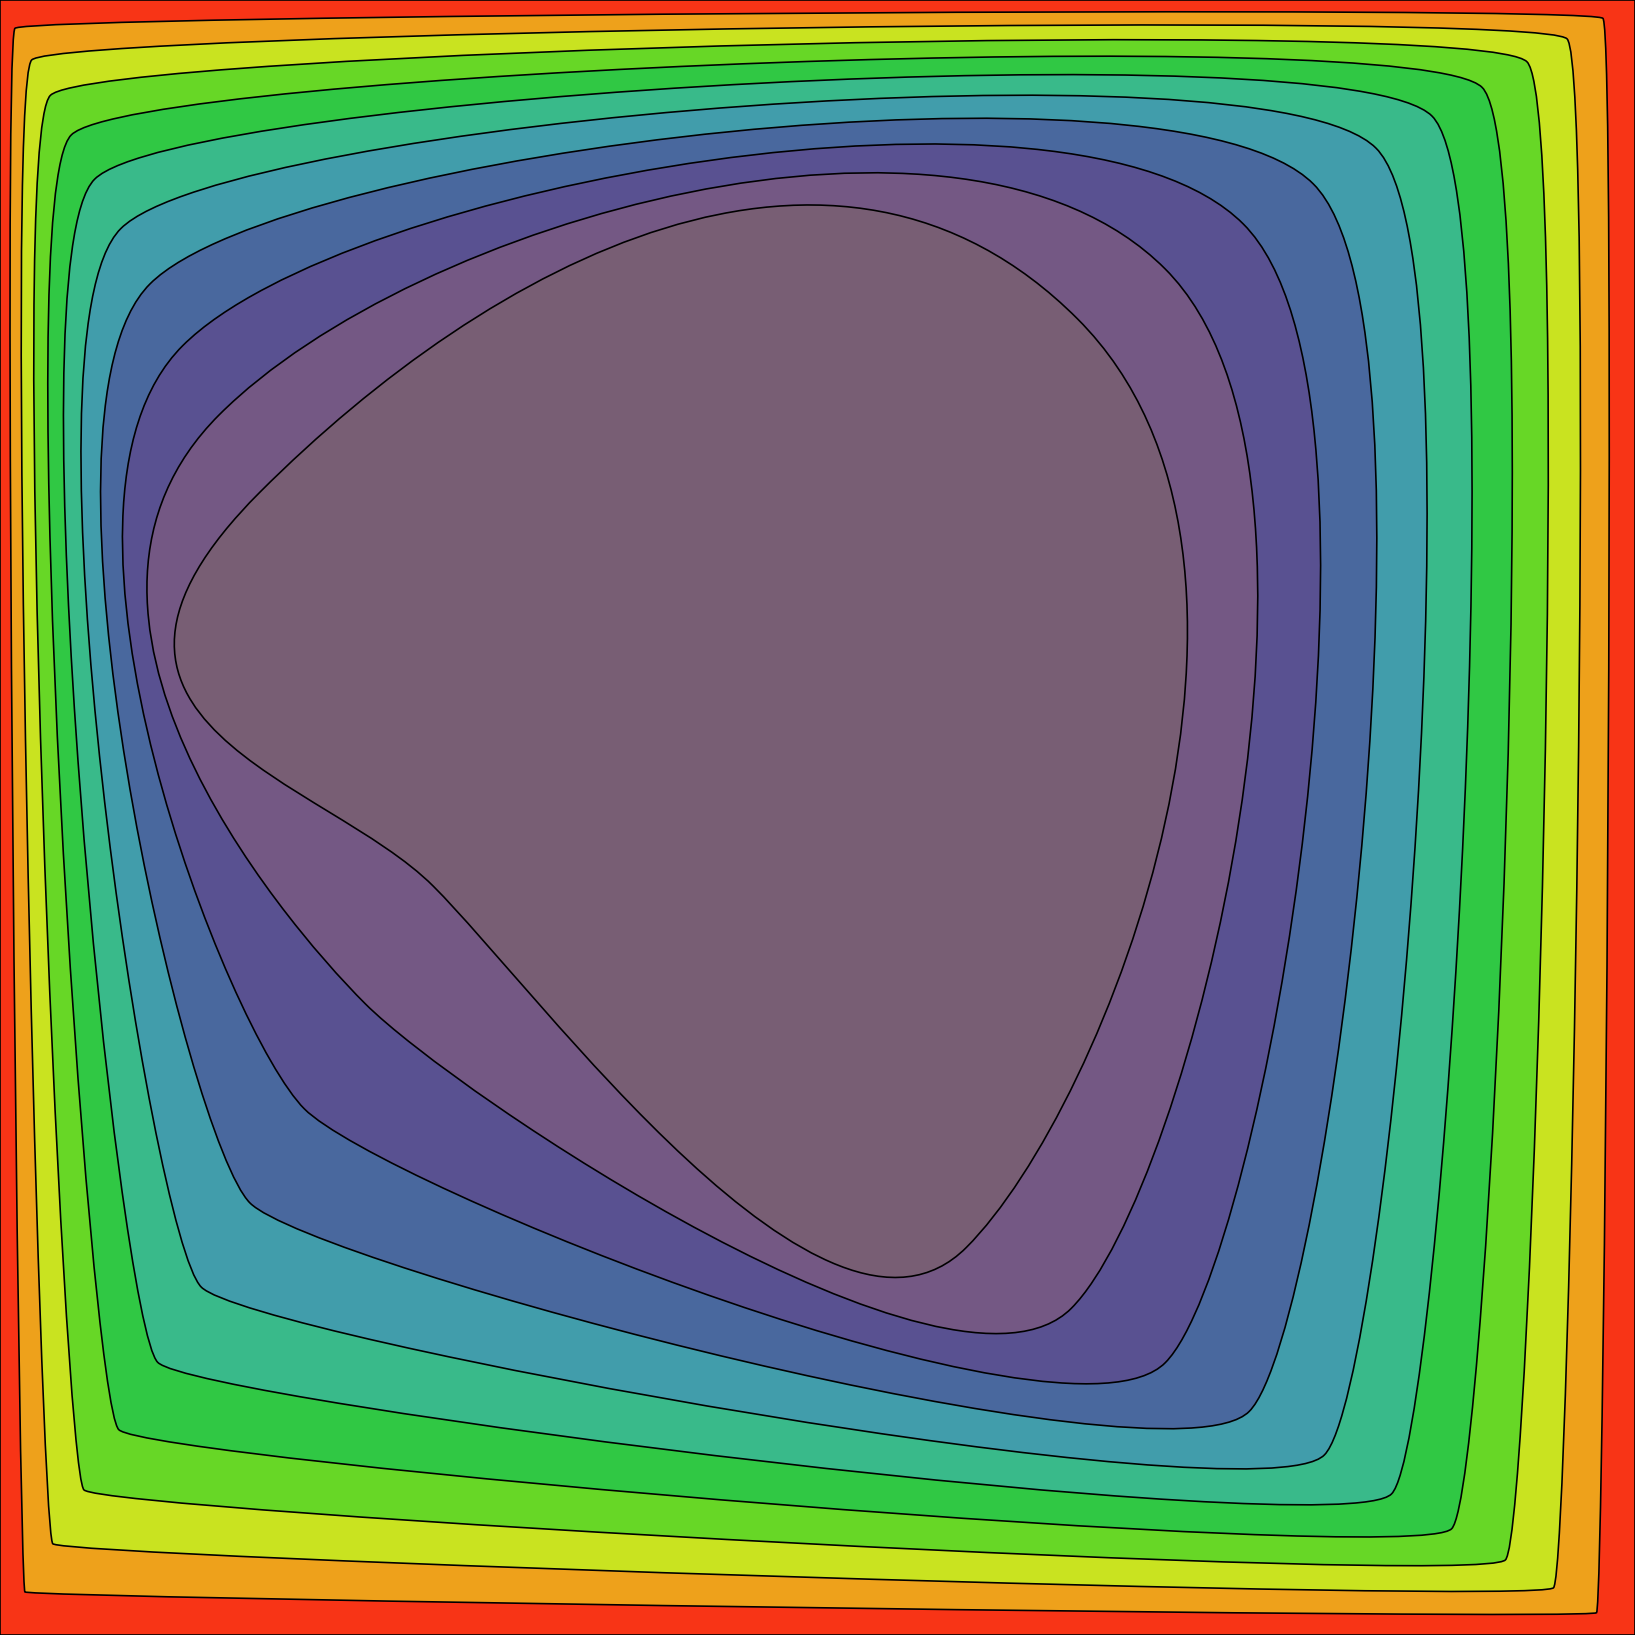

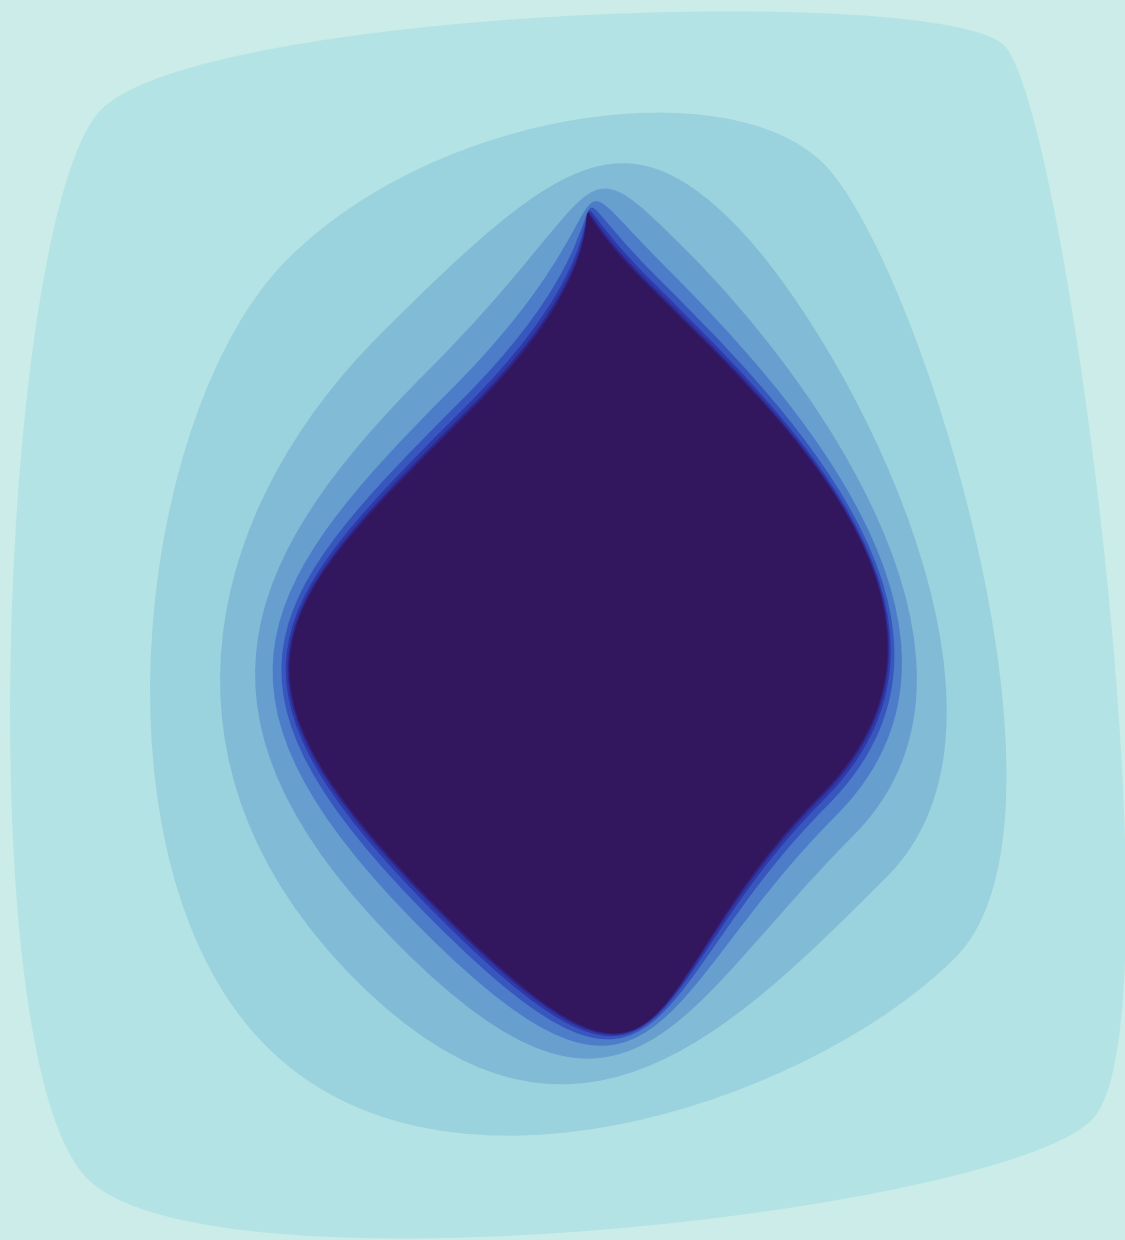

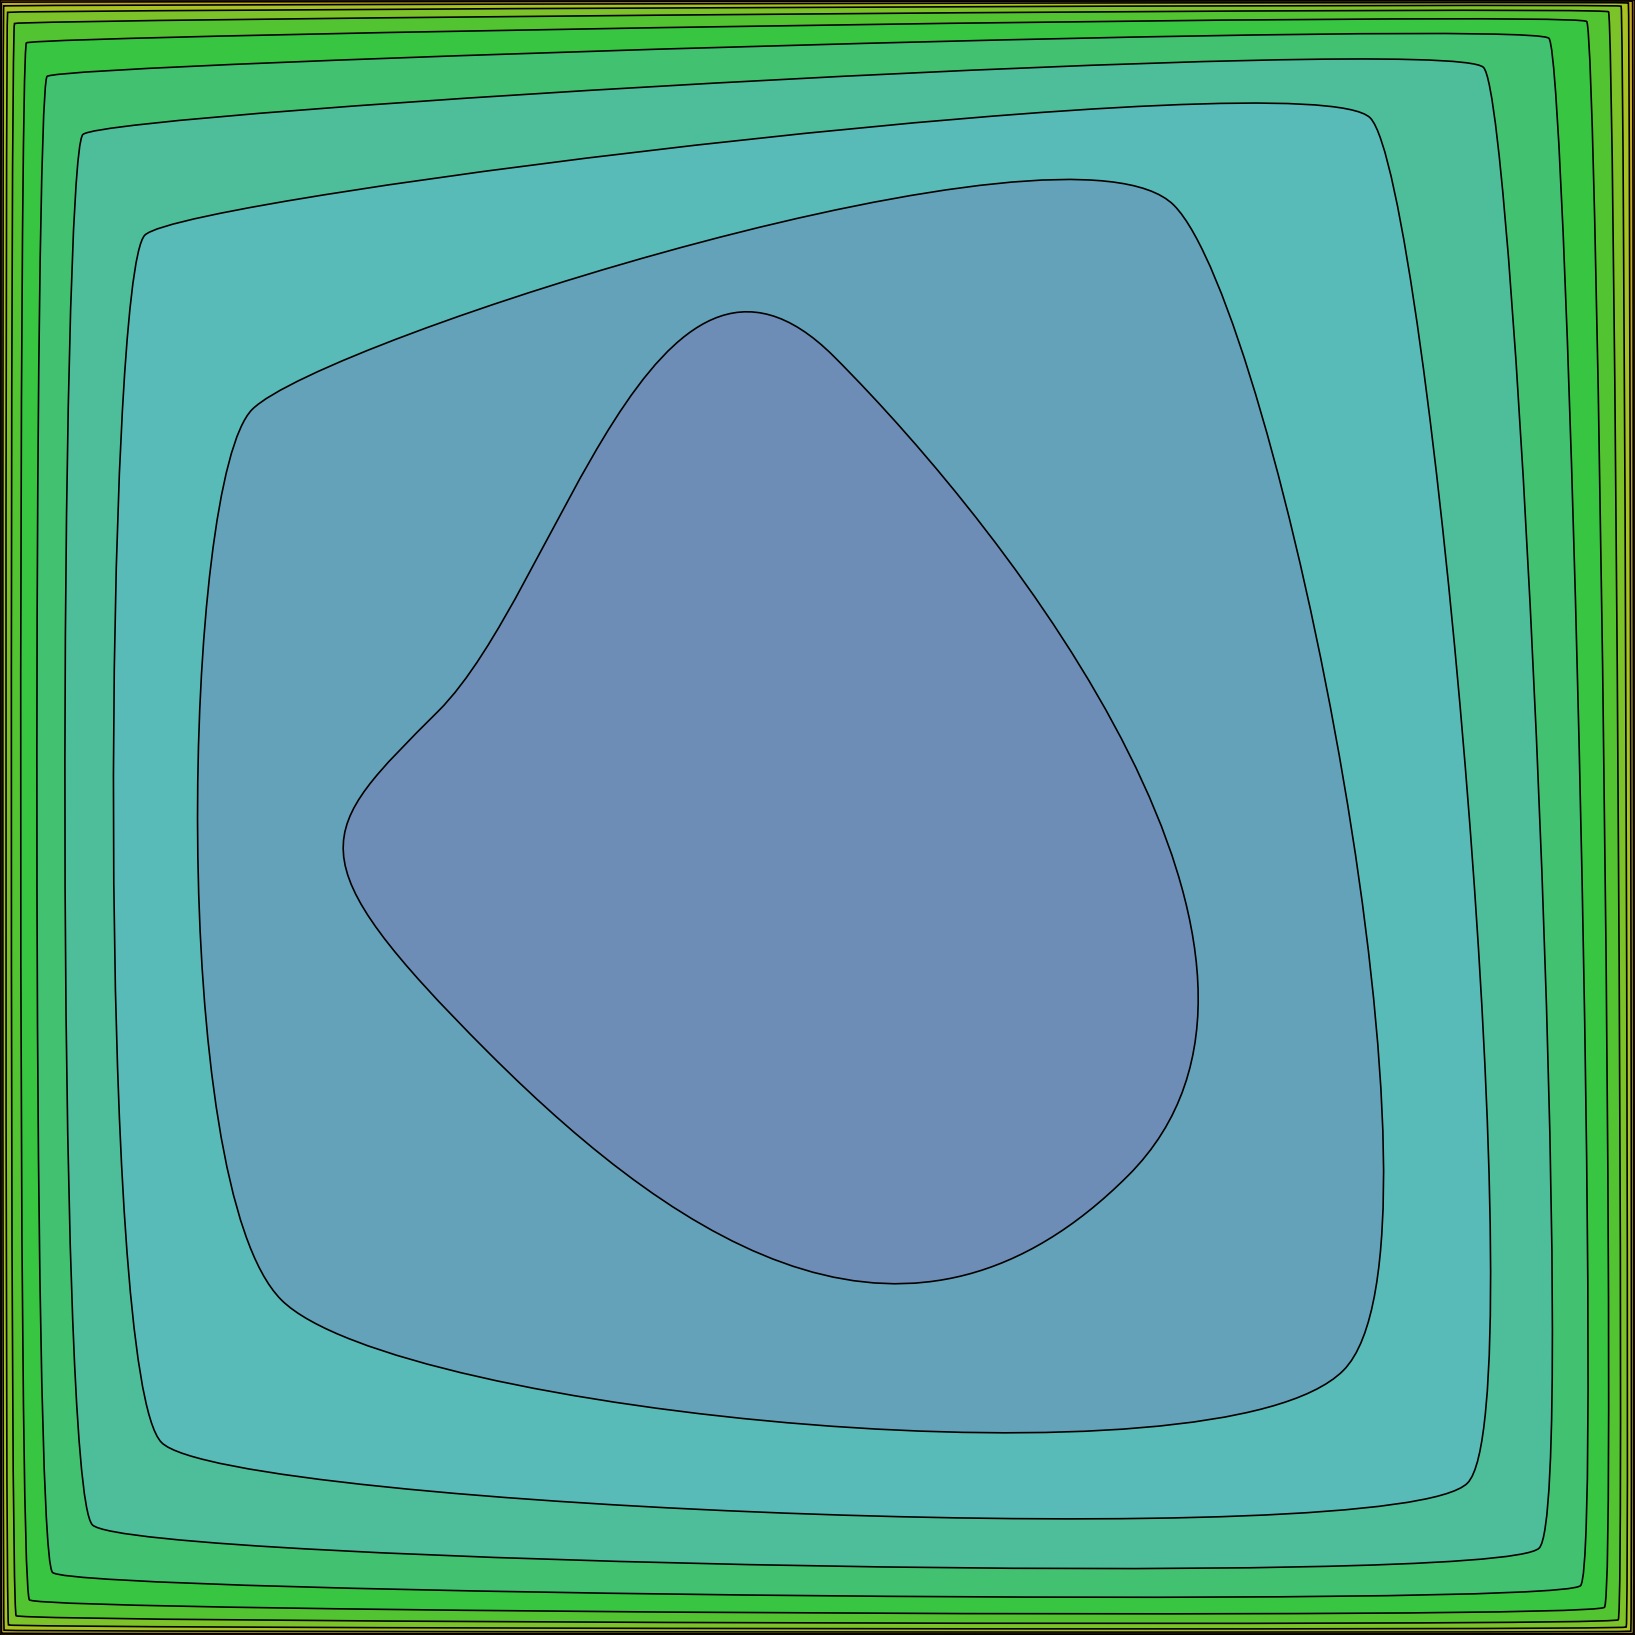

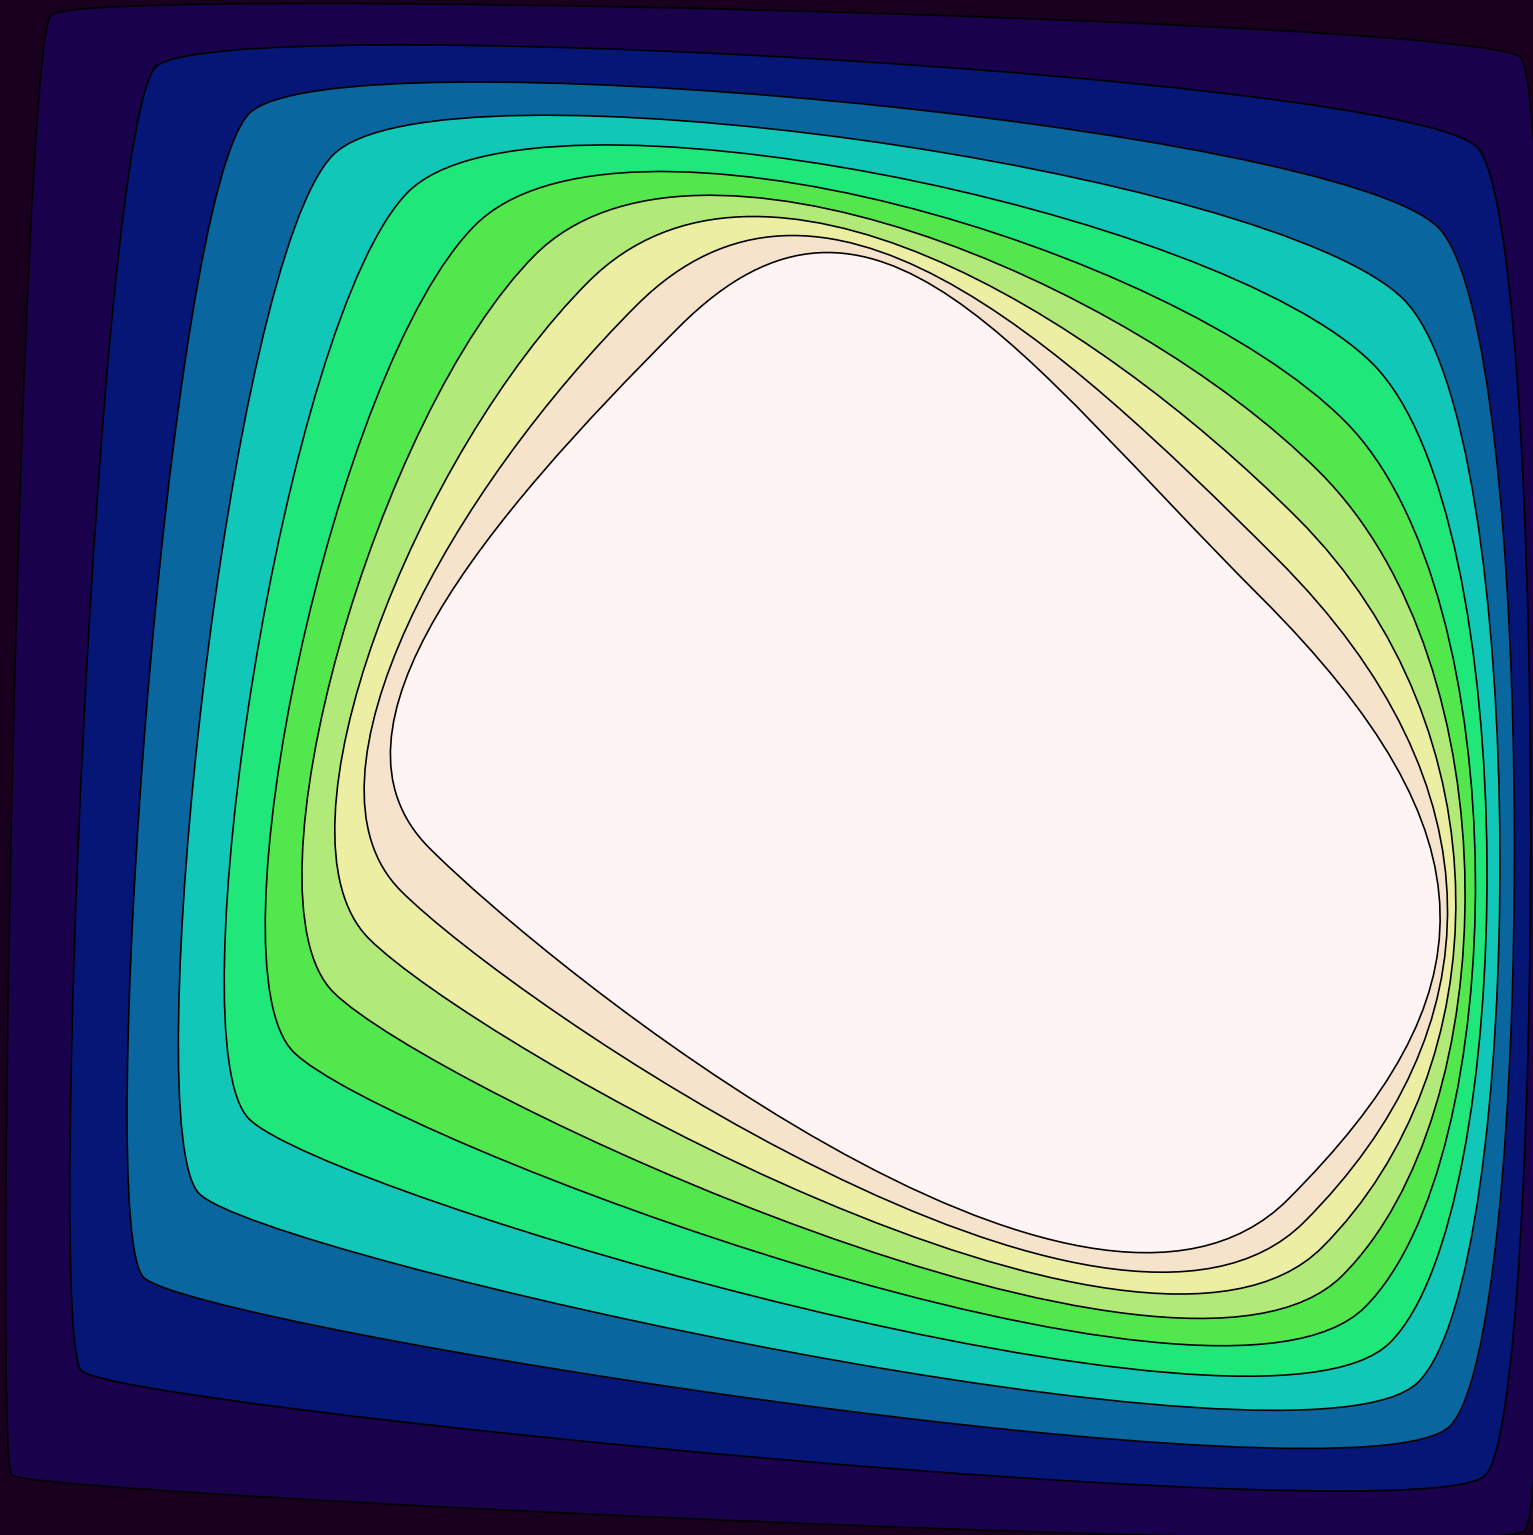

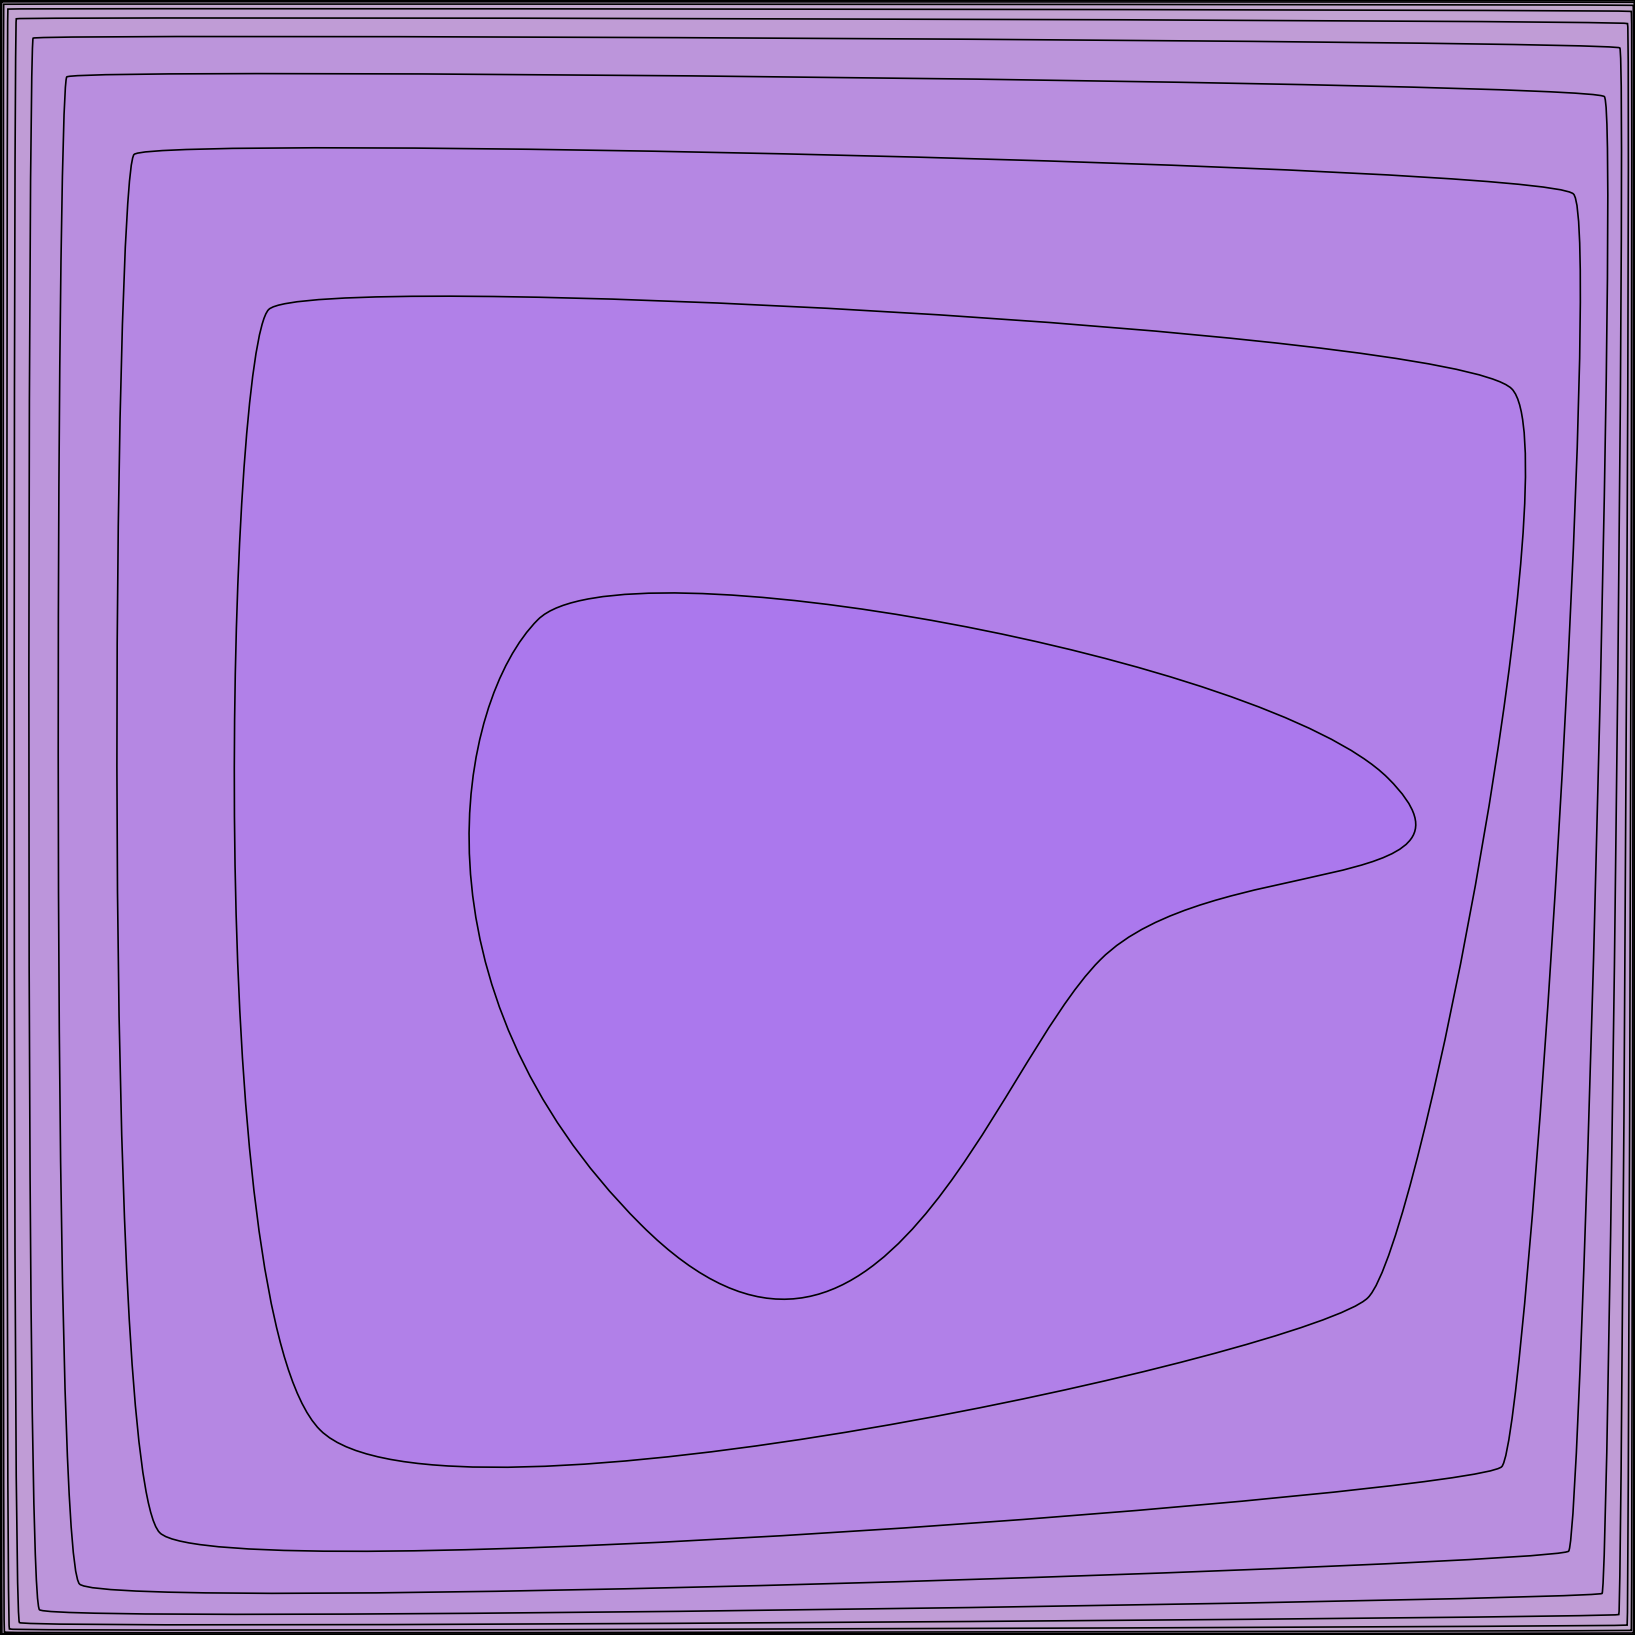

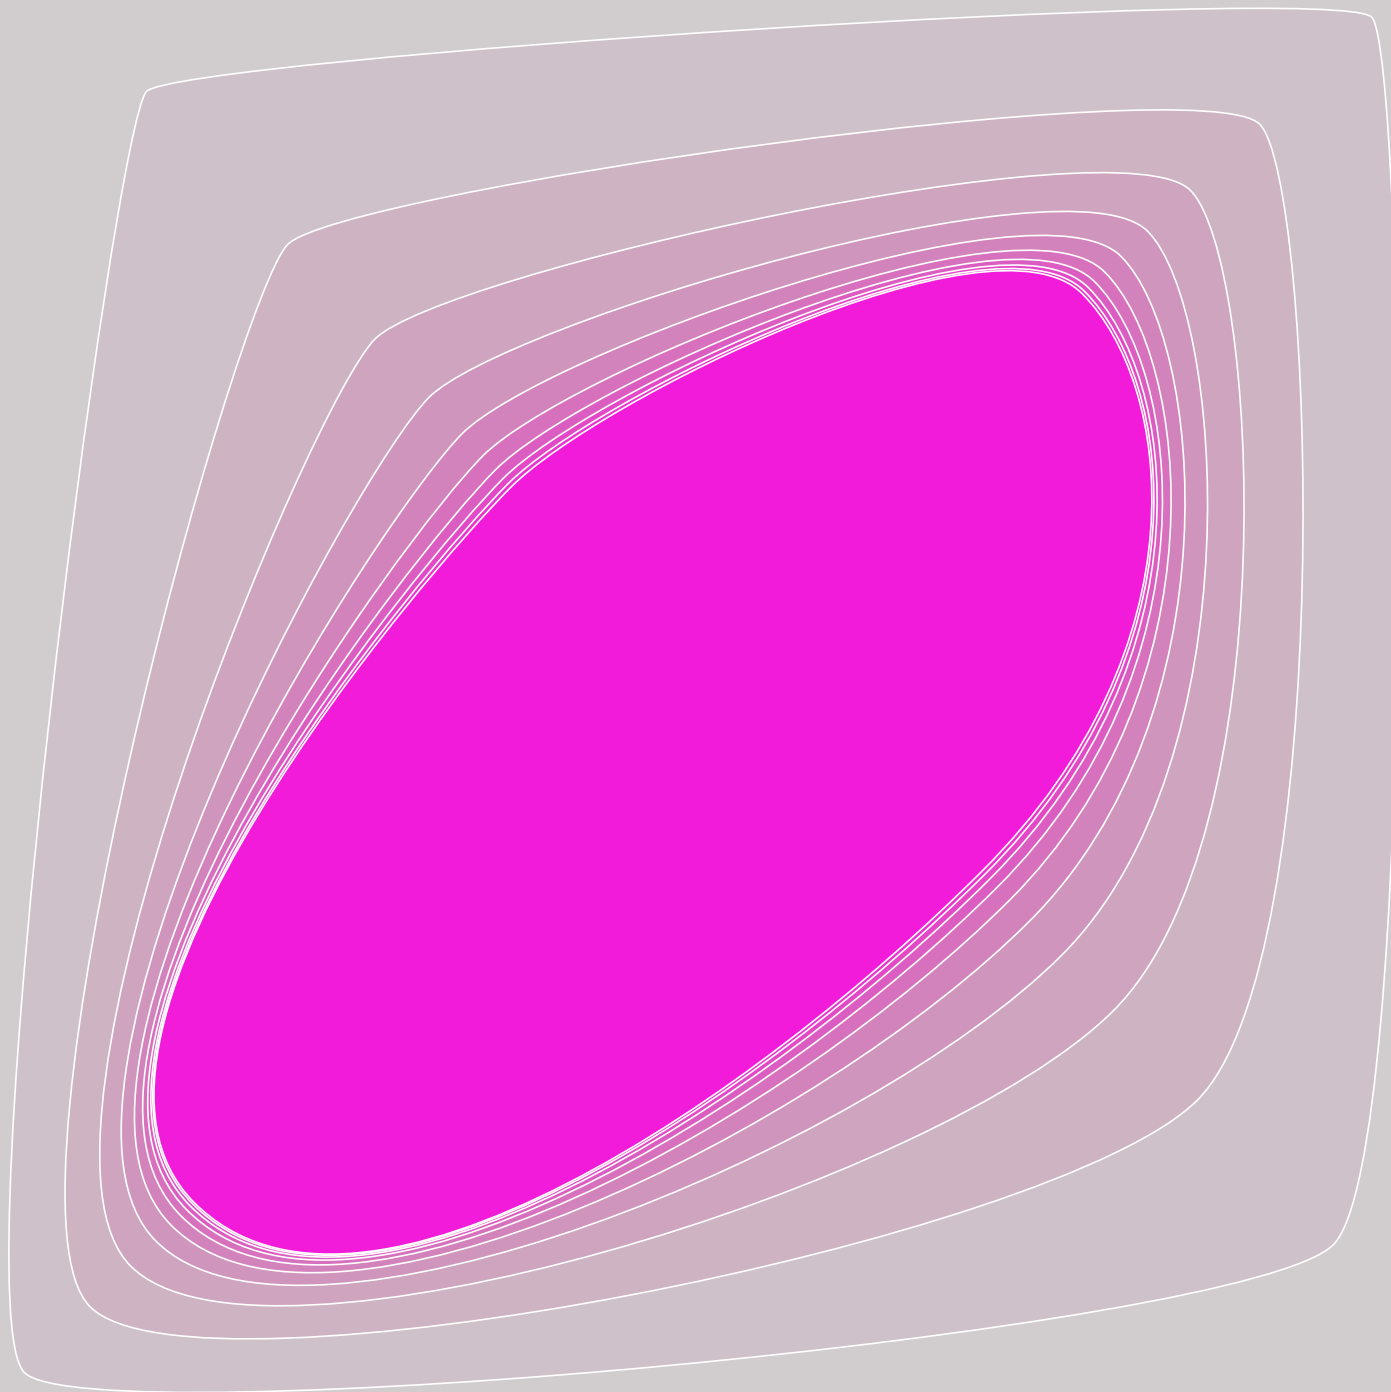

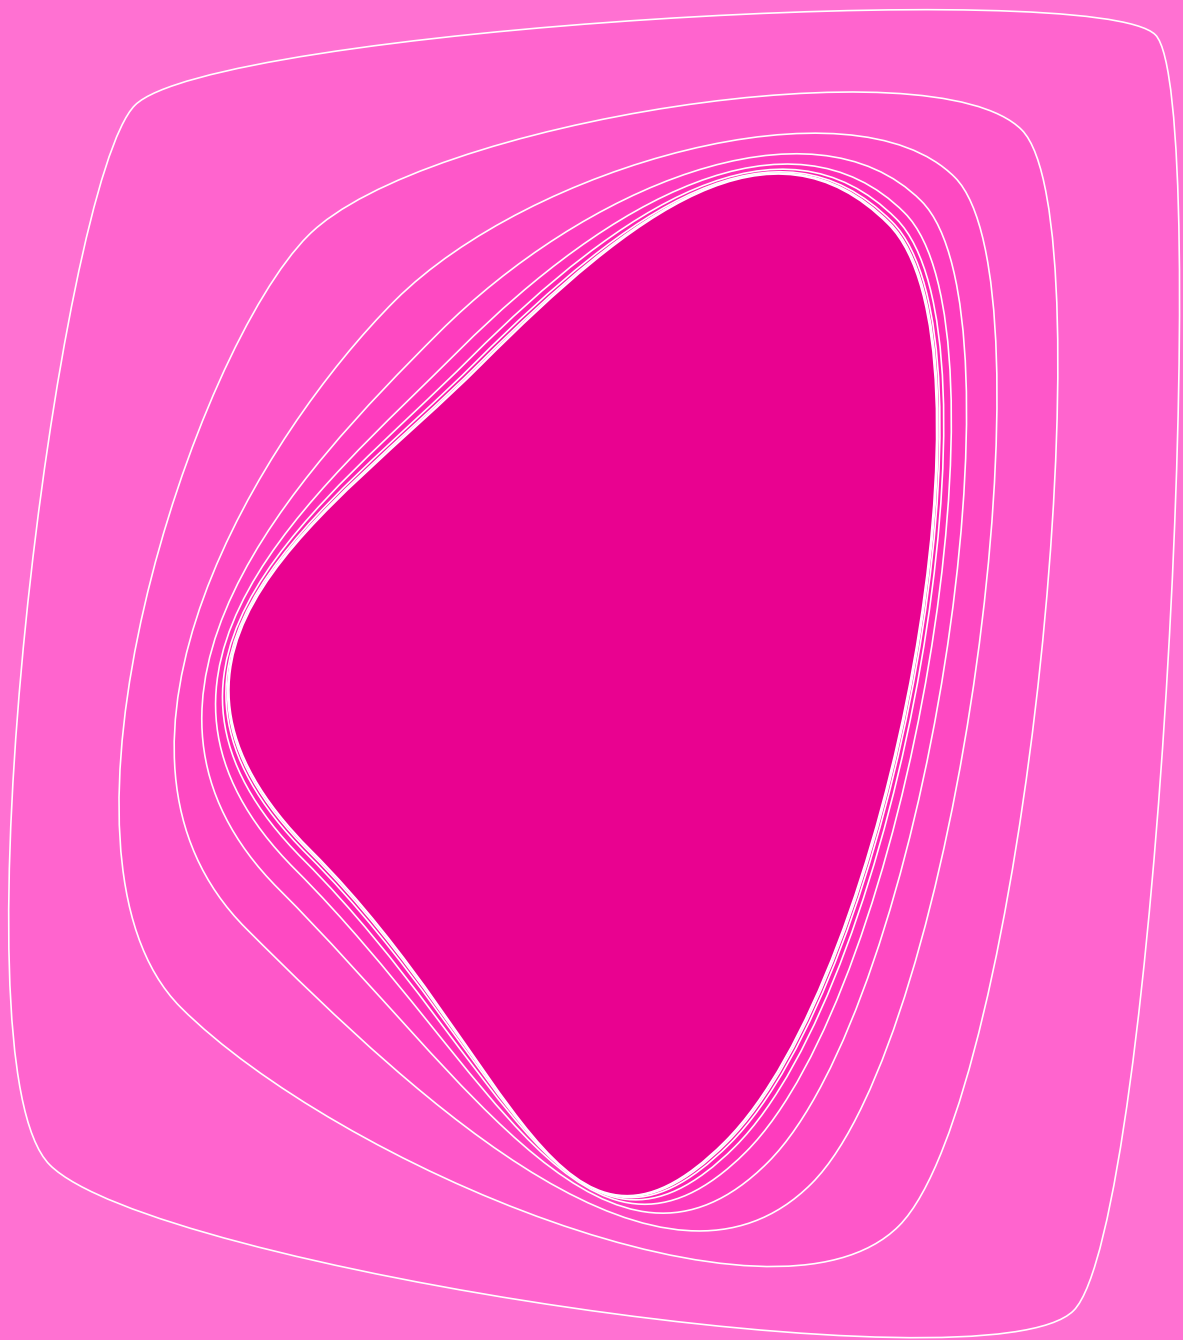

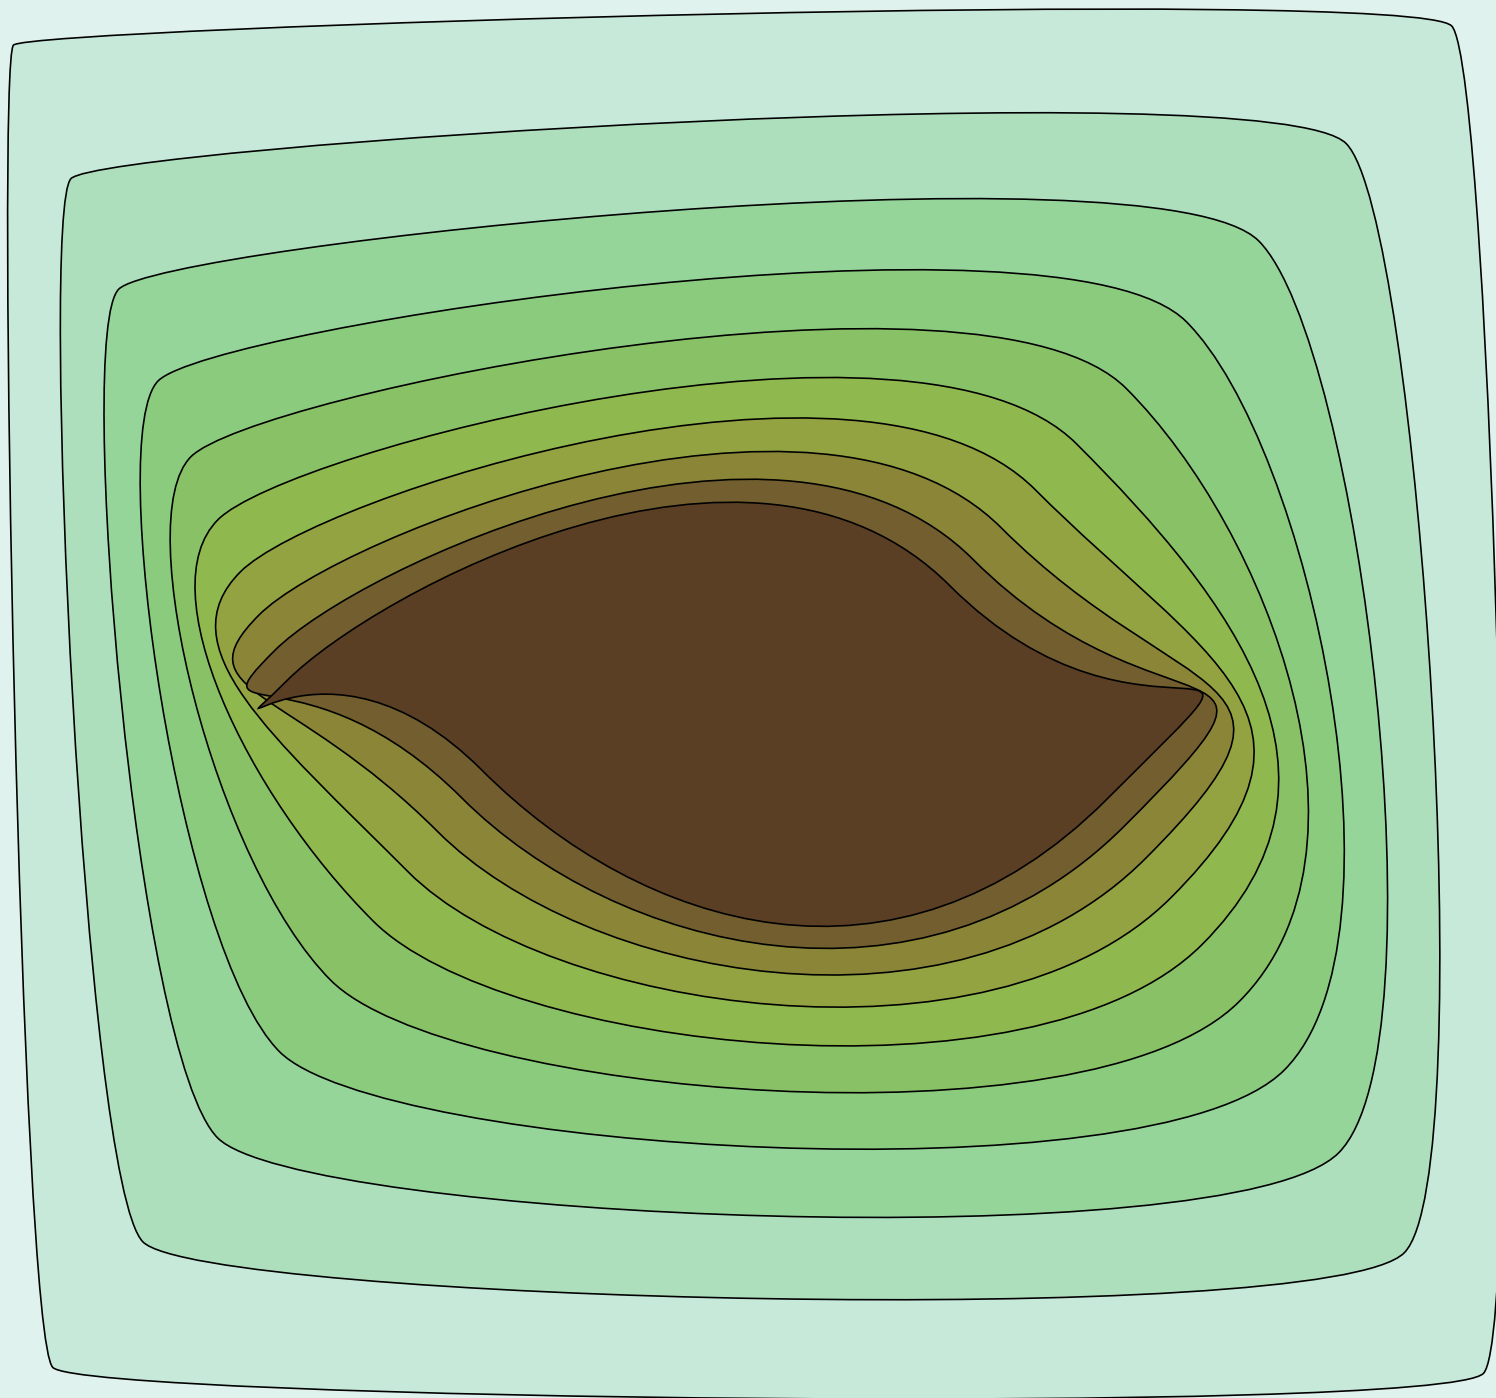

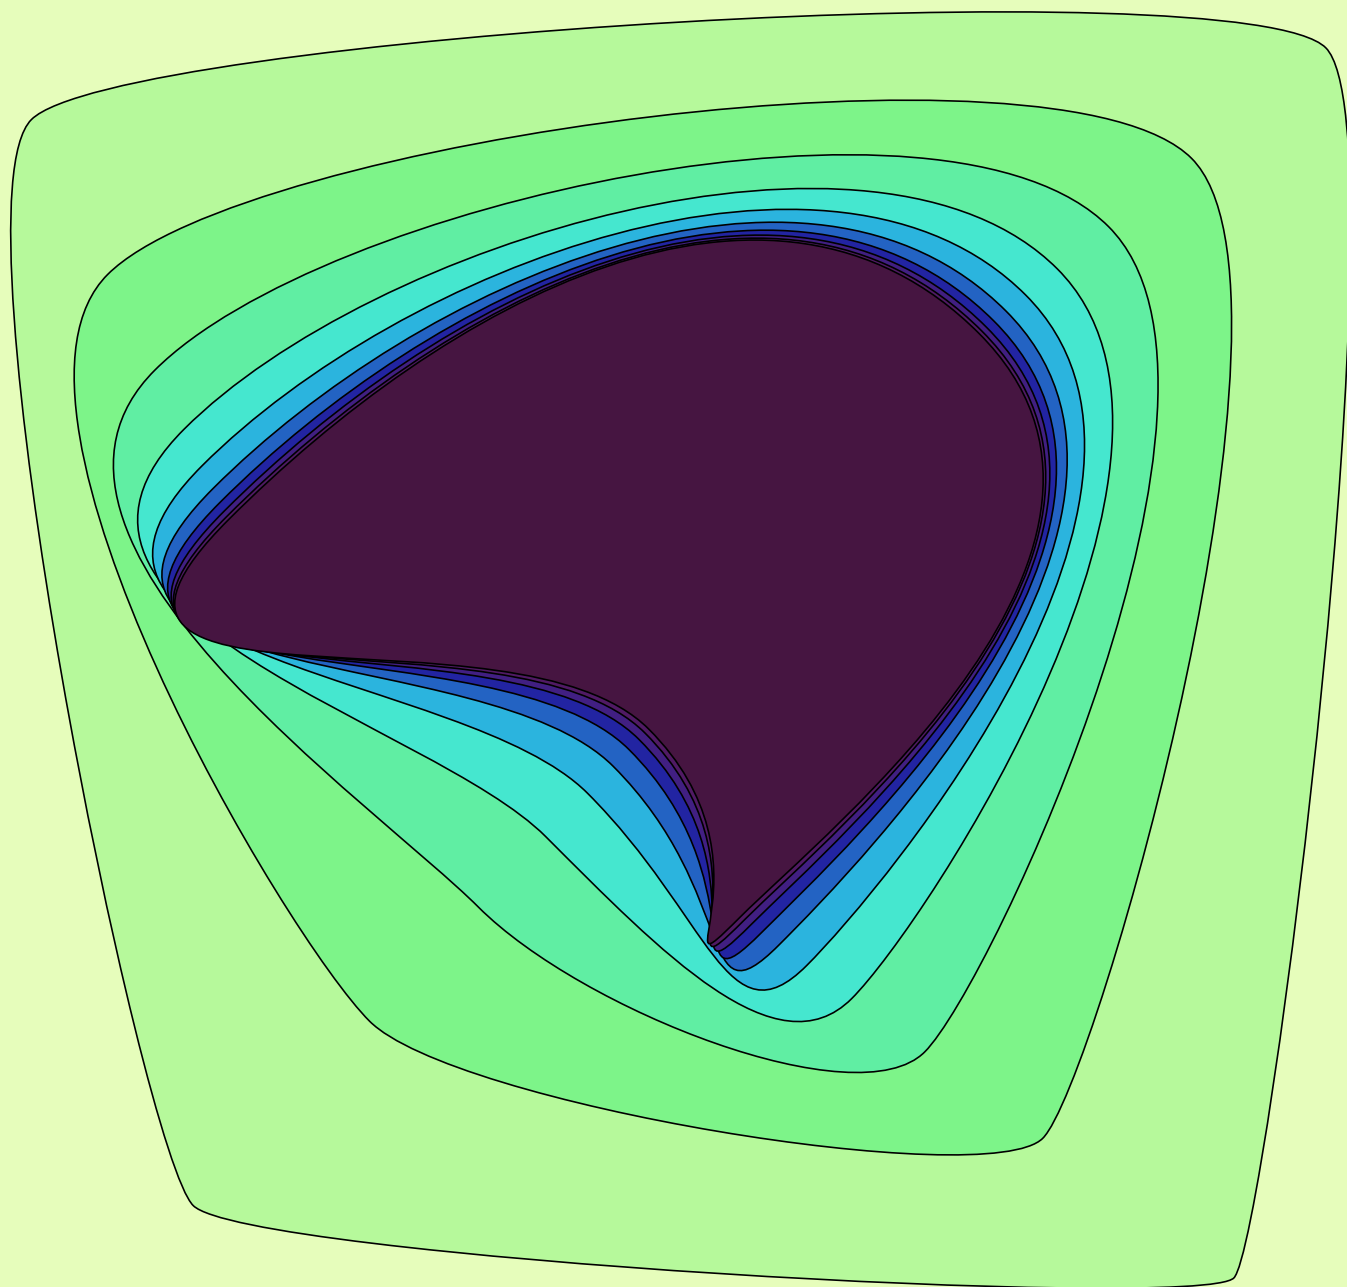

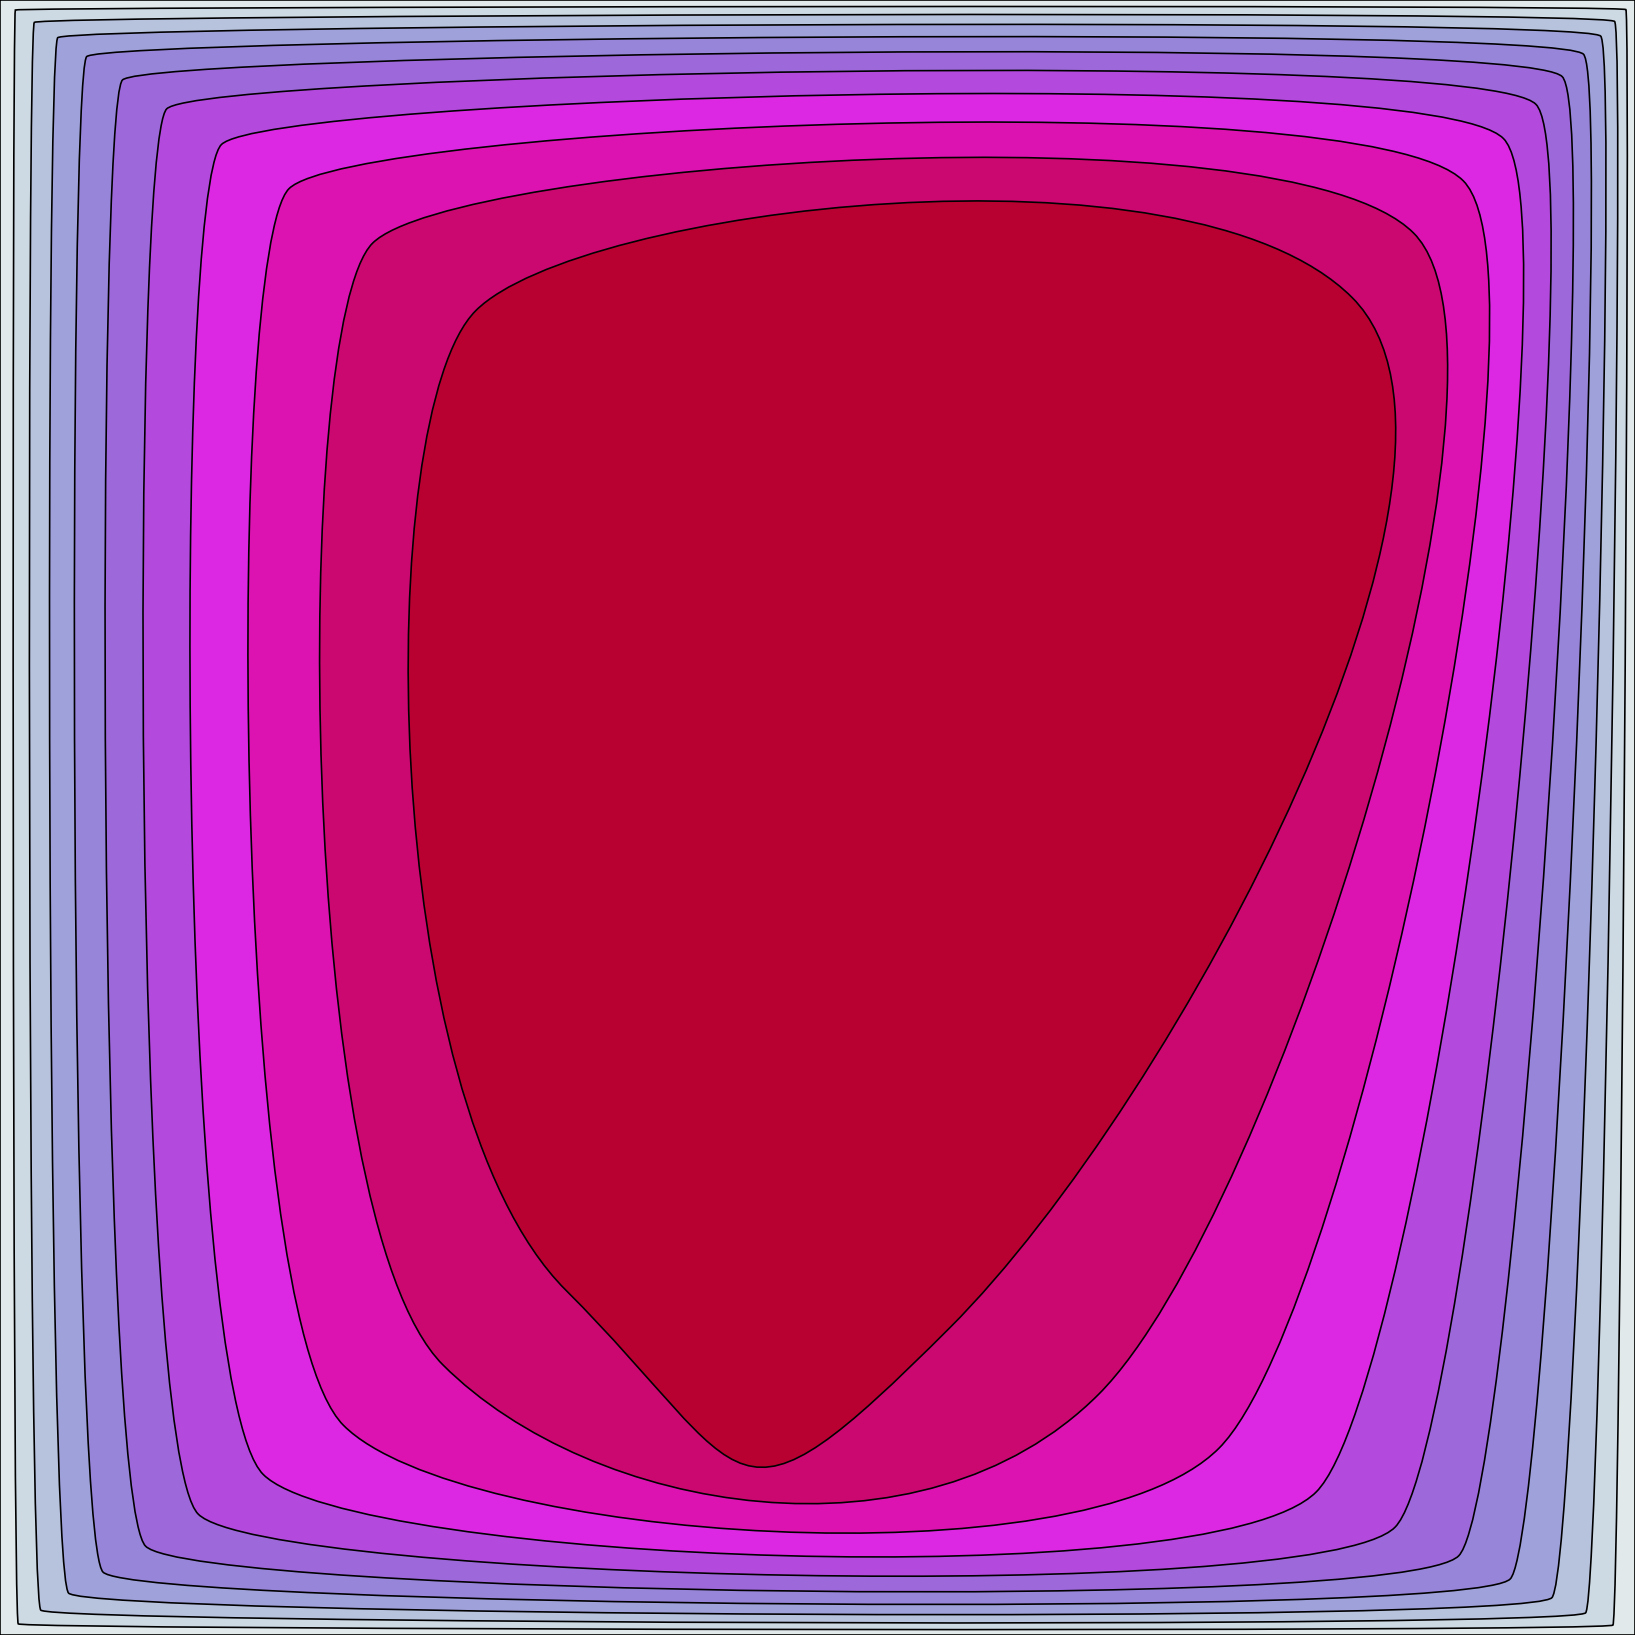

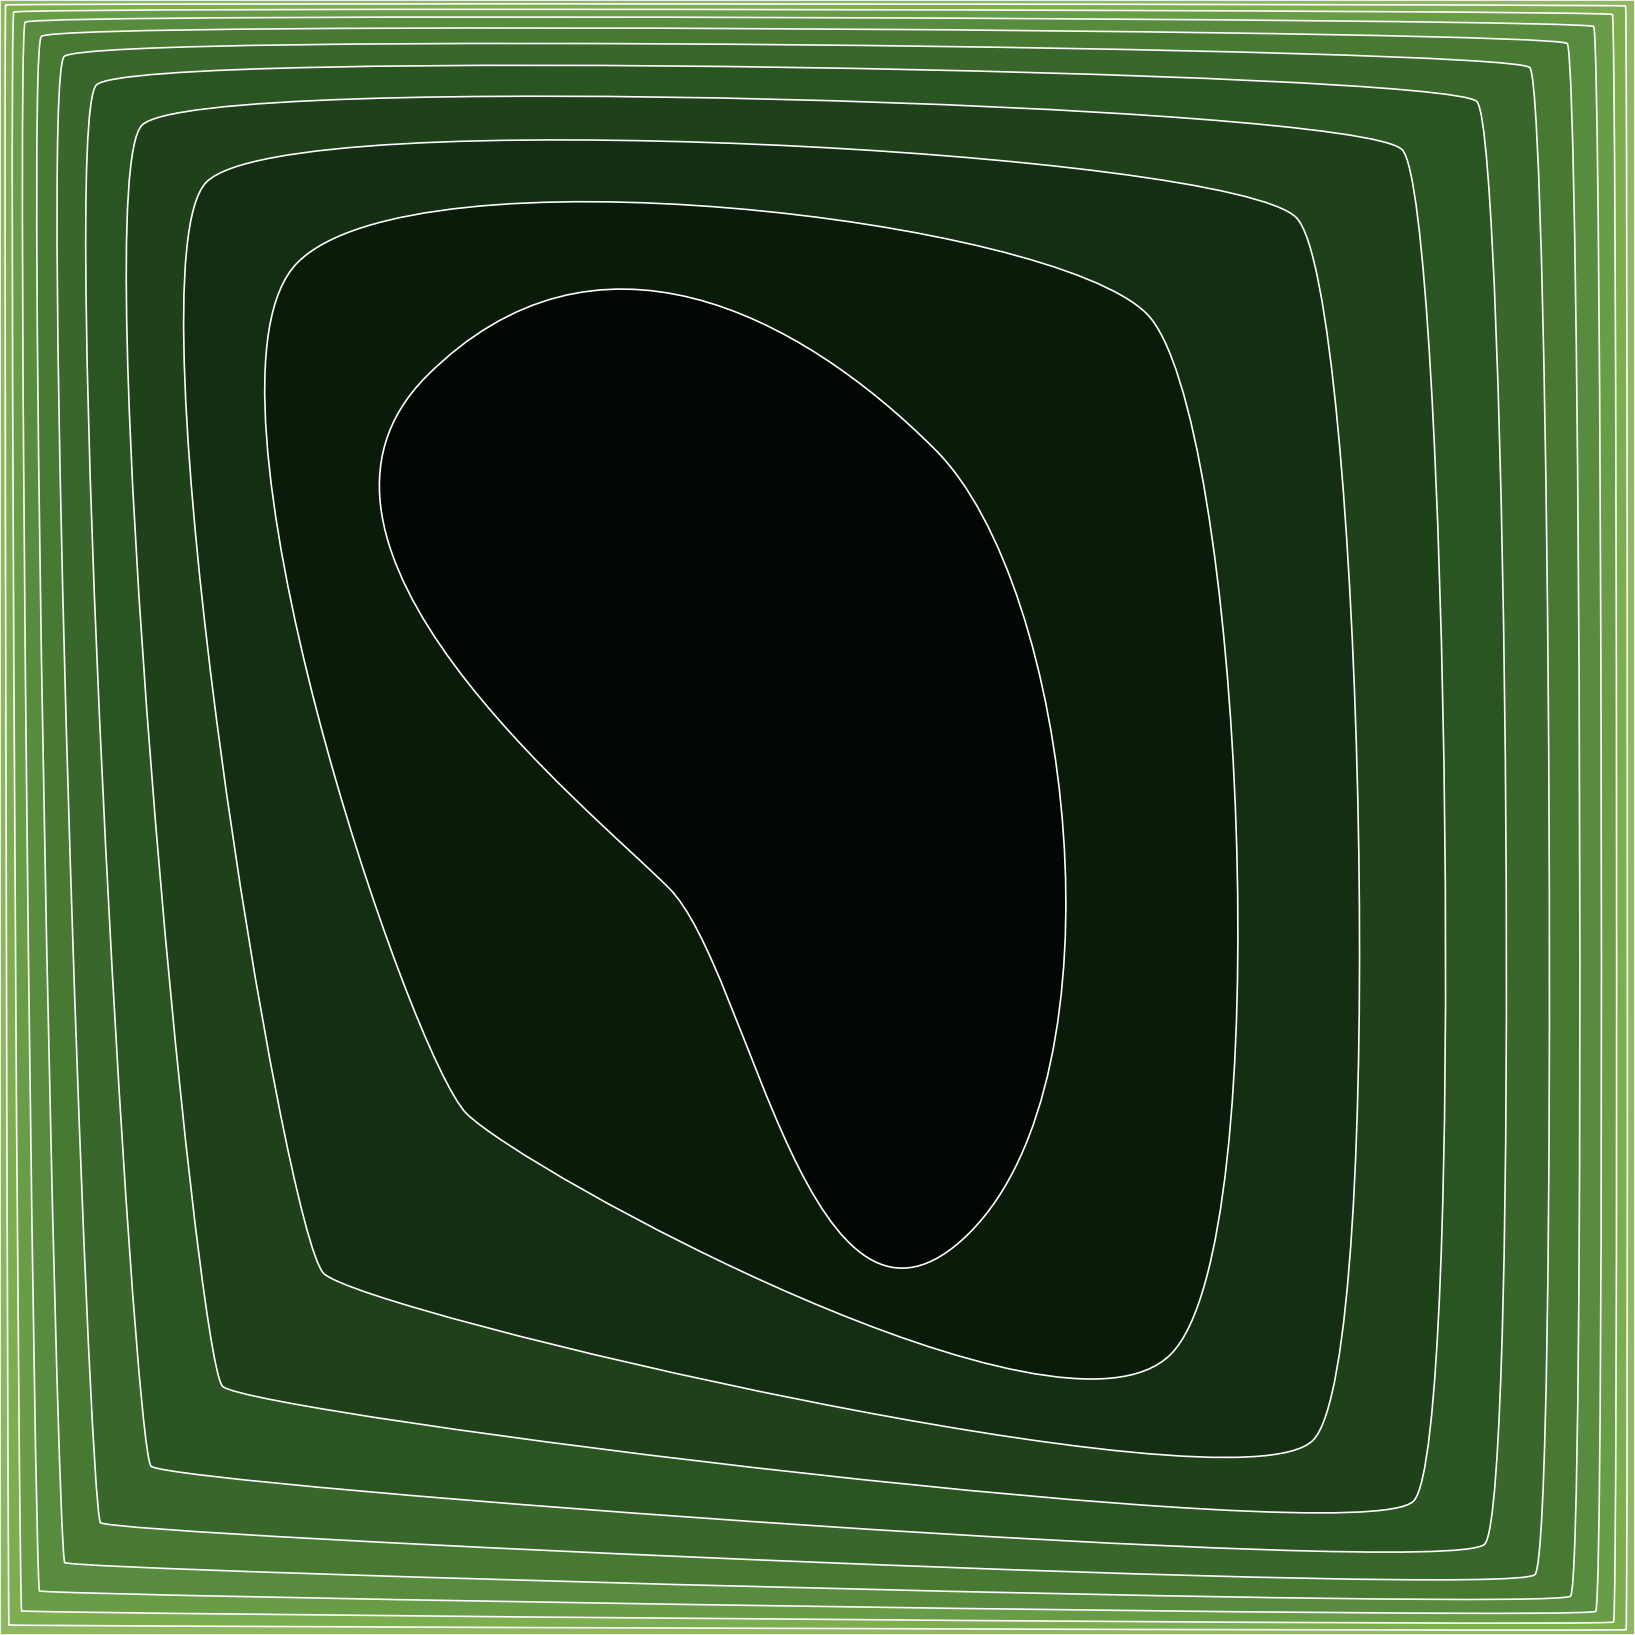

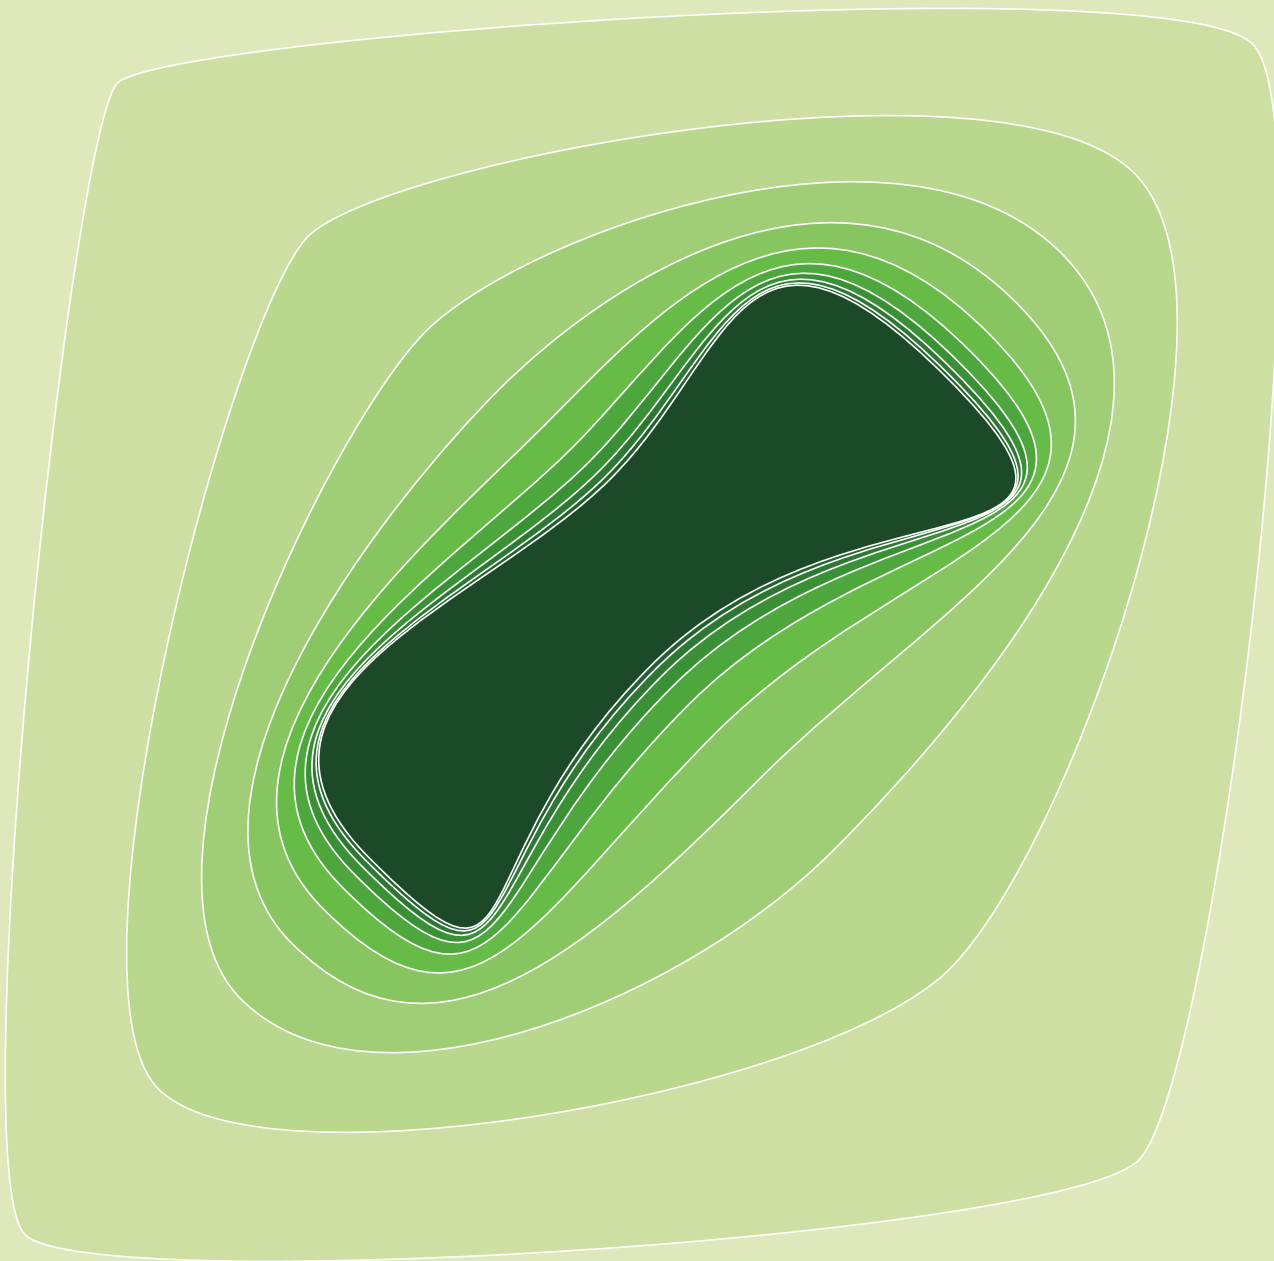

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
